(57) **CLAIM**

The ornamental design for a display screen with graphical user interface for electronic medical chart system, as shown and described.

DESCRIPTION

The FIGURE is a front view of display screen with graphical user interface for electronic medical chart system. The broken line showing of a device illustrates environment and forms no part of the claimed design. The outermost broken line rectangle showing of the display screen and all other broken lines showing portions of the display screen with graphical user interface for electronic medical chart system are included for the purpose of illustrating portions of the article and form no part of the claimed design.

1 Claim, 1 Drawing Sheet
