(57) **CLAIM**

The ornamental design for a display screen with animated graphical user interface, as shown and described.

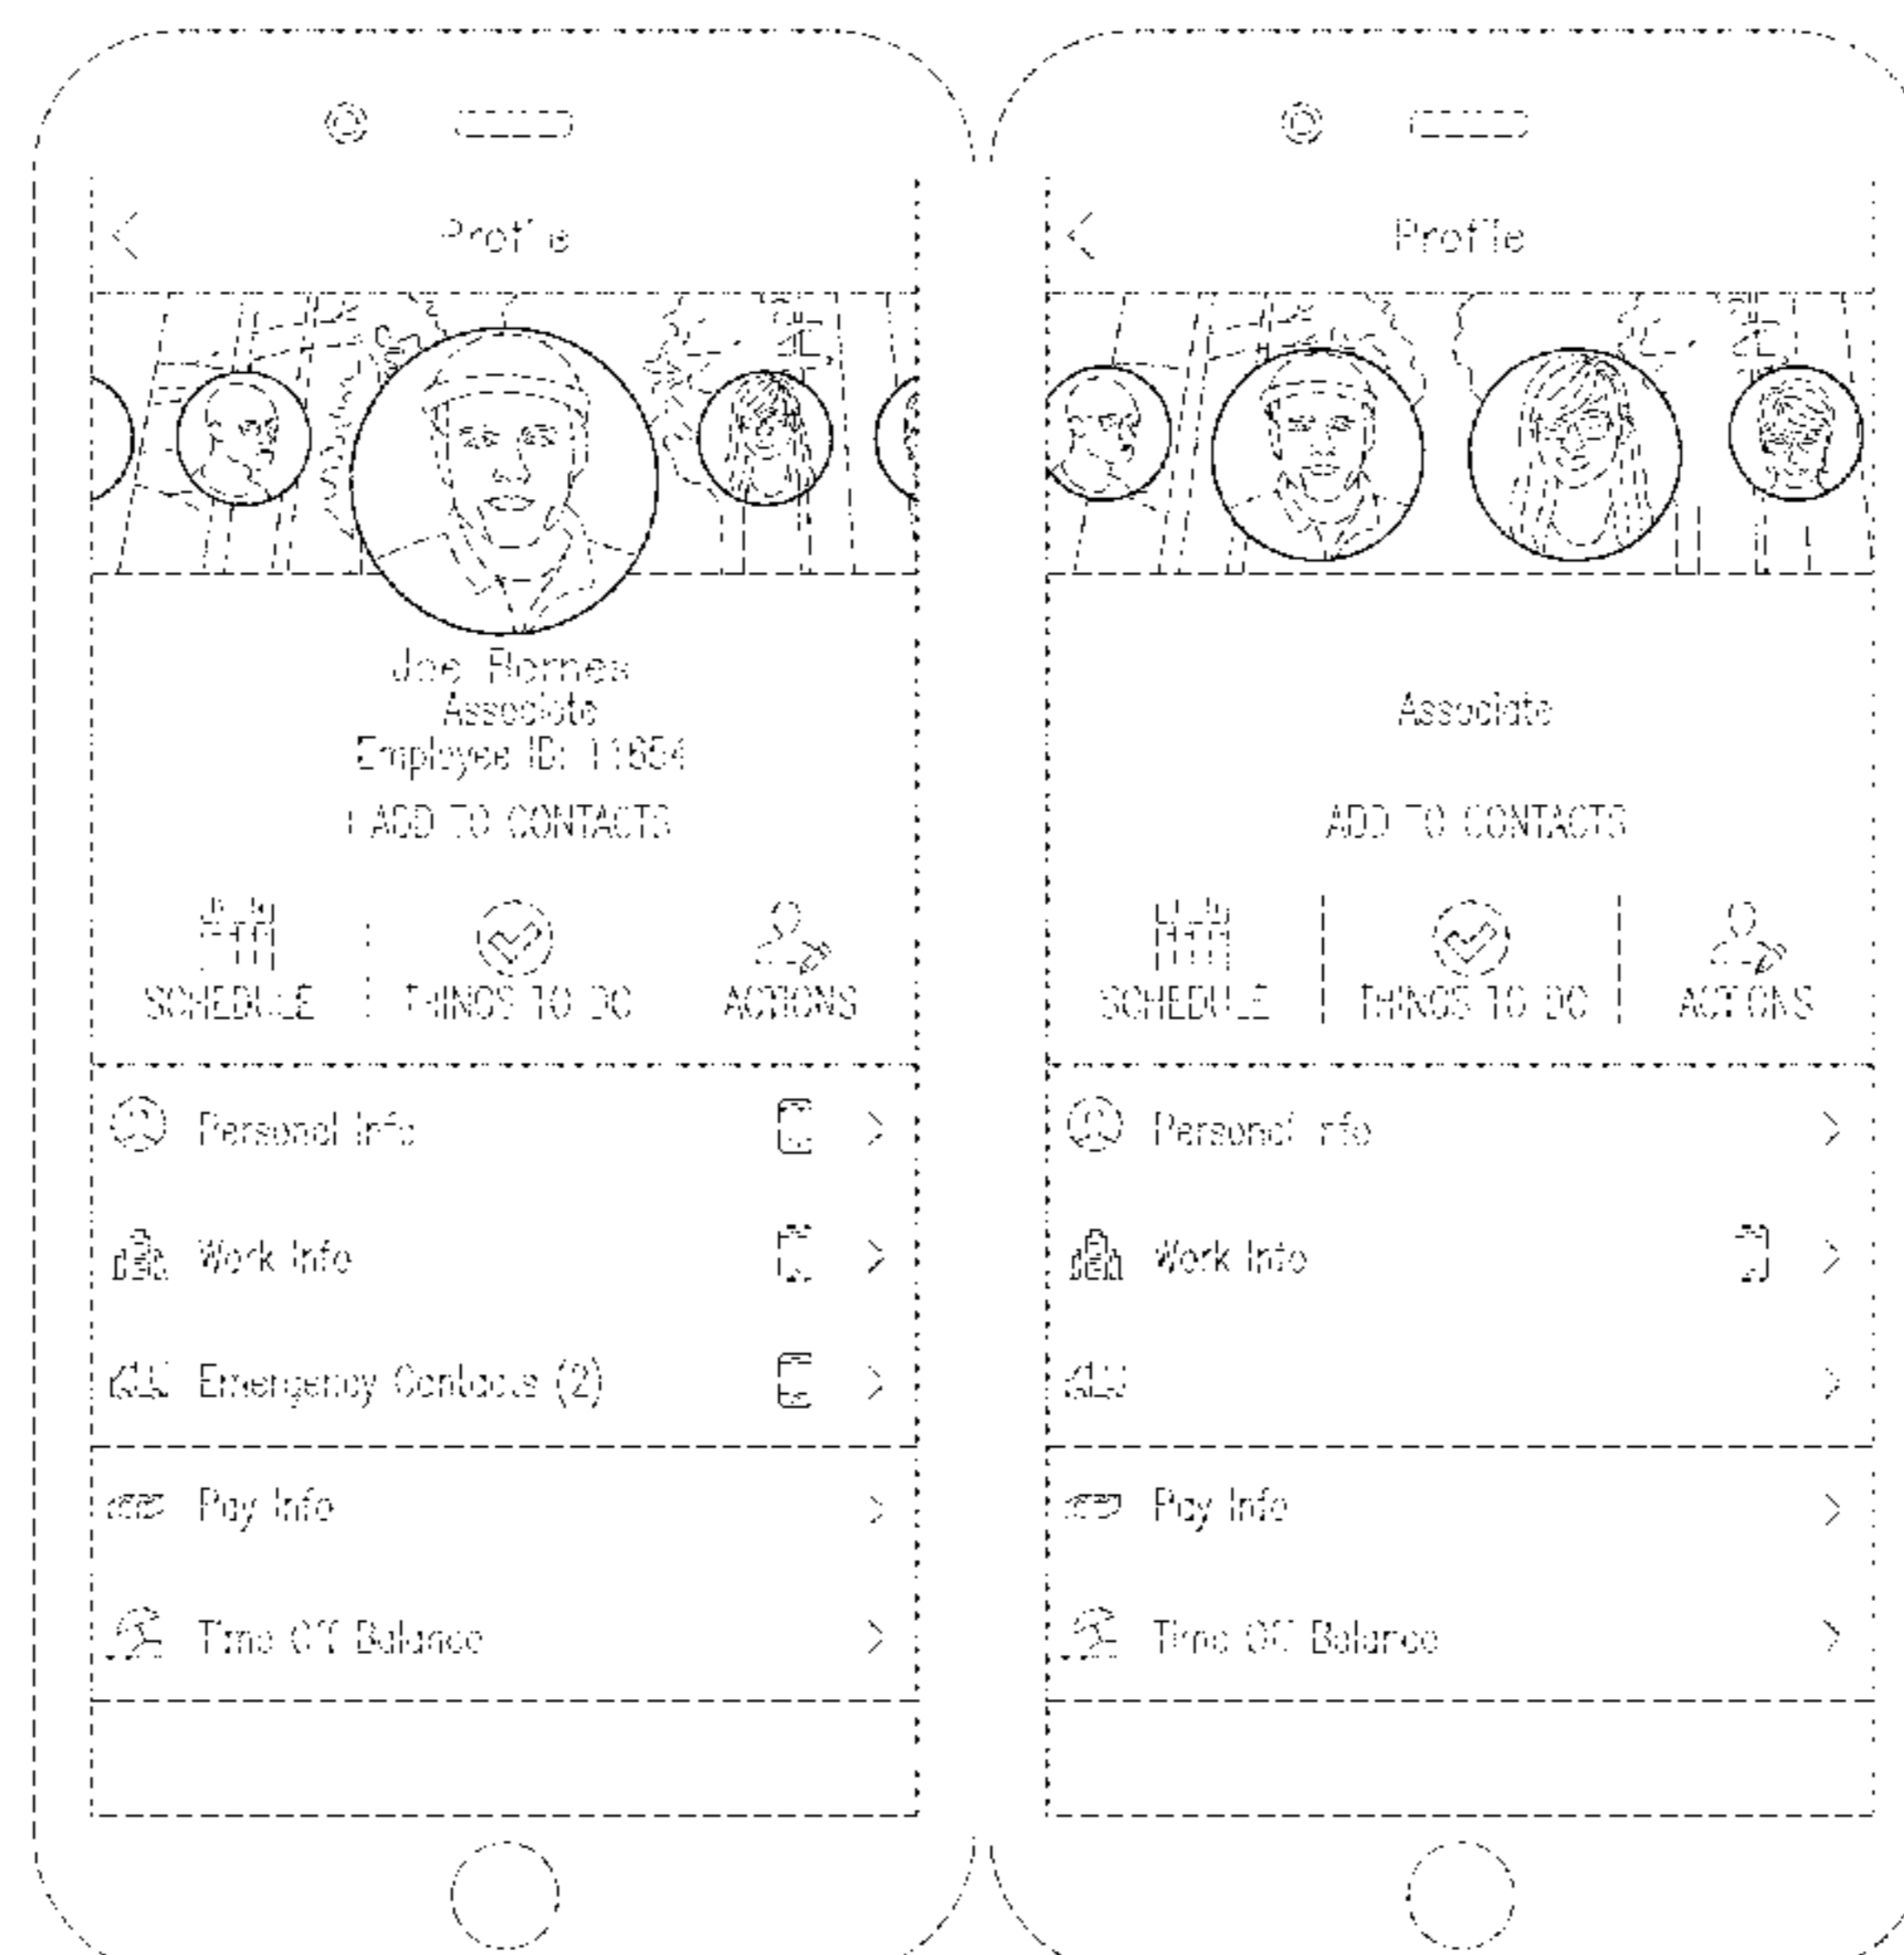

DESCRIPTION

FIG. 1 is a front view of a first image in a sequence for a display screen with animated graphical user interface; FIG. 2 is a second image thereof; and, FIG. 3 is a third image thereof.

The outermost broken line rectangle showing an electronic device illustrates environmental structure and forms no part of the claimed design. The broken lines showing a display screen, and all other broken lines showing portions of the graphical user interface, illustrate portions of the article and form no part of the claimed design.

The appearance of the changeable computer generated pictures transitions sequentially between the images shown in FIGS. 1, 2, and 3. The process or period in which an image changes into another image forms no part of the claimed design.
