(57) **CLAIM**

The ornamental design for a tire tread, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of a tire including the tire tread of the present application taken generally from the front and a first side of the tire;

FIG. 2 is a front view thereof;

FIG. 3 is a side view (the first side or the second side) thereof;

FIG. 4 is an enlarged partial, perspective view taken generally from the front and the first side thereof;

FIG. 5 is an enlarged, partial front view thereof; and,

FIG. 6 is an enlarged, partial side view (the first side or the second side) thereof.

The outermost broken line on each of the tire sidewalls depicts the boundary of the claim. The broken lines depict subject matter that forms no part of the claimed tire tread design, and are included for the purpose of illustrating the full tire. The tread pattern is understood to repeat uniformly throughout the circumference of the tire. The tread design is symmetrical and the views of the second side are the same as the views of the first side.

**1 Claim, 6 Drawing Sheets**

FIG. 1

FIG. 2

FIG. 3

FIG. 4

FIG. 5

FIG. 6
