DESCRIPTION

FIG. 1 is a front view of a first image in a sequence for a smart watch display screen with graphical user interface; FIG. 2 is a second image thereof; FIG. 3 is a third image thereof; FIG. 4 is a fourth image thereof; FIG. 5 is a fifth image thereof; and, FIG. 6 is a sixth image thereof.

The subject matter in this patent application includes a process or period in which the appearance of the graphical user interface transitions sequentially between the images shown in FIGS. 1-6. The process or period in which one image transitions to another forms no part of the claimed design.

The broken lines showing a smart watch illustrate environmental subject matter, whereas the broken lines showing elements of the graphical user interface illustrate portions of the article. None of the broken lines form part of the claimed design.
