(57) **CLAIM**

The ornamental design for a display screen or portion thereof with graphical user interface, as shown and described.

DESCRIPTION

The file of this patent contains at least one drawing/photograph executed in color. Copies of this patent with color drawing(s)/photograph(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view of a display screen or portion thereof with graphical user interface according to a first embodiment of our design;

FIG. 2 is a front view according to a second embodiment thereof;

FIG. 3 is a front view according to a third embodiment thereof;

FIG. 4 is a front view according to a fourth embodiment thereof;

FIG. 5 is a front view according to a fifth embodiment thereof;

FIG. 6 is a front view according to a sixth embodiment thereof;

FIG. 7 is a front view according to a seventh embodiment thereof; and,

FIG. 8 is a front view according to an eighth embodiment thereof.

The dashed broken lines represent the display screen or portion thereof and elements of the graphical user interface that form no part of the claimed design. More specifically, the outer-most dashed broken lines represent the display screen and the inner dashed broken lines represent elements of the graphical user interface, none of which form part of the claimed design.
