(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image in the sequence of a display screen with graphical user interface, according to an embodiment of the present disclosure.

FIG. 2 is a front view of the second image thereof, according to the same embodiment; and,

FIG. 3 is a front view of the third image thereof, according to the same embodiment.

The outermost broken lines in the figures show a display screen or portion thereof, and form no part of the claimed design. All other broken lines show portions of the graphic user interface that form no part of the claimed design. The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-3. The process or period in which one image transitions to another forms no part of the claimed design.
