(57) **CLAIM**

The ornamental design for a storage container with interior tether, as shown and described.

DESCRIPTION

FIG. 1 shows a top, front perspective view of the storage container with interior tether, with a lid closed and a tether inside the container with an item attached to the tether.

FIG. 2 shows a top, back perspective view thereof, with the lid closed and the tether inside the container with an item attached to the tether.

FIG. 3 shows a top plan view thereof, with the lid closed and the tether inside the container.

FIG. 4 shows a front elevation view thereof, with the lid closed and the tether inside the container with an item attached to the tether.

FIG. 5 shows a rear elevation view thereof, with the lid closed and the tether inside the container.

FIG. 6 shows a right side elevation view thereof, with the lid closed and the tether inside the container.

FIG. 7 shows a left side elevation view thereof, with the lid closed and the tether inside the container.

FIG. 8 shows a top plan view thereof, with the lid closed and the tether outside the container with an item attached to the tether.

FIG. 9 shows a top, front perspective view thereof, with the lid open and the tether outside the container with an item attached to the tether.

FIG. 10 shows a top plan view thereof, with the lid open and the tether outside the container with an item attached to the tether.

FIG. 11 shows a front elevation view thereof, with the lid open and the tether outside the container with an item attached to the tether.

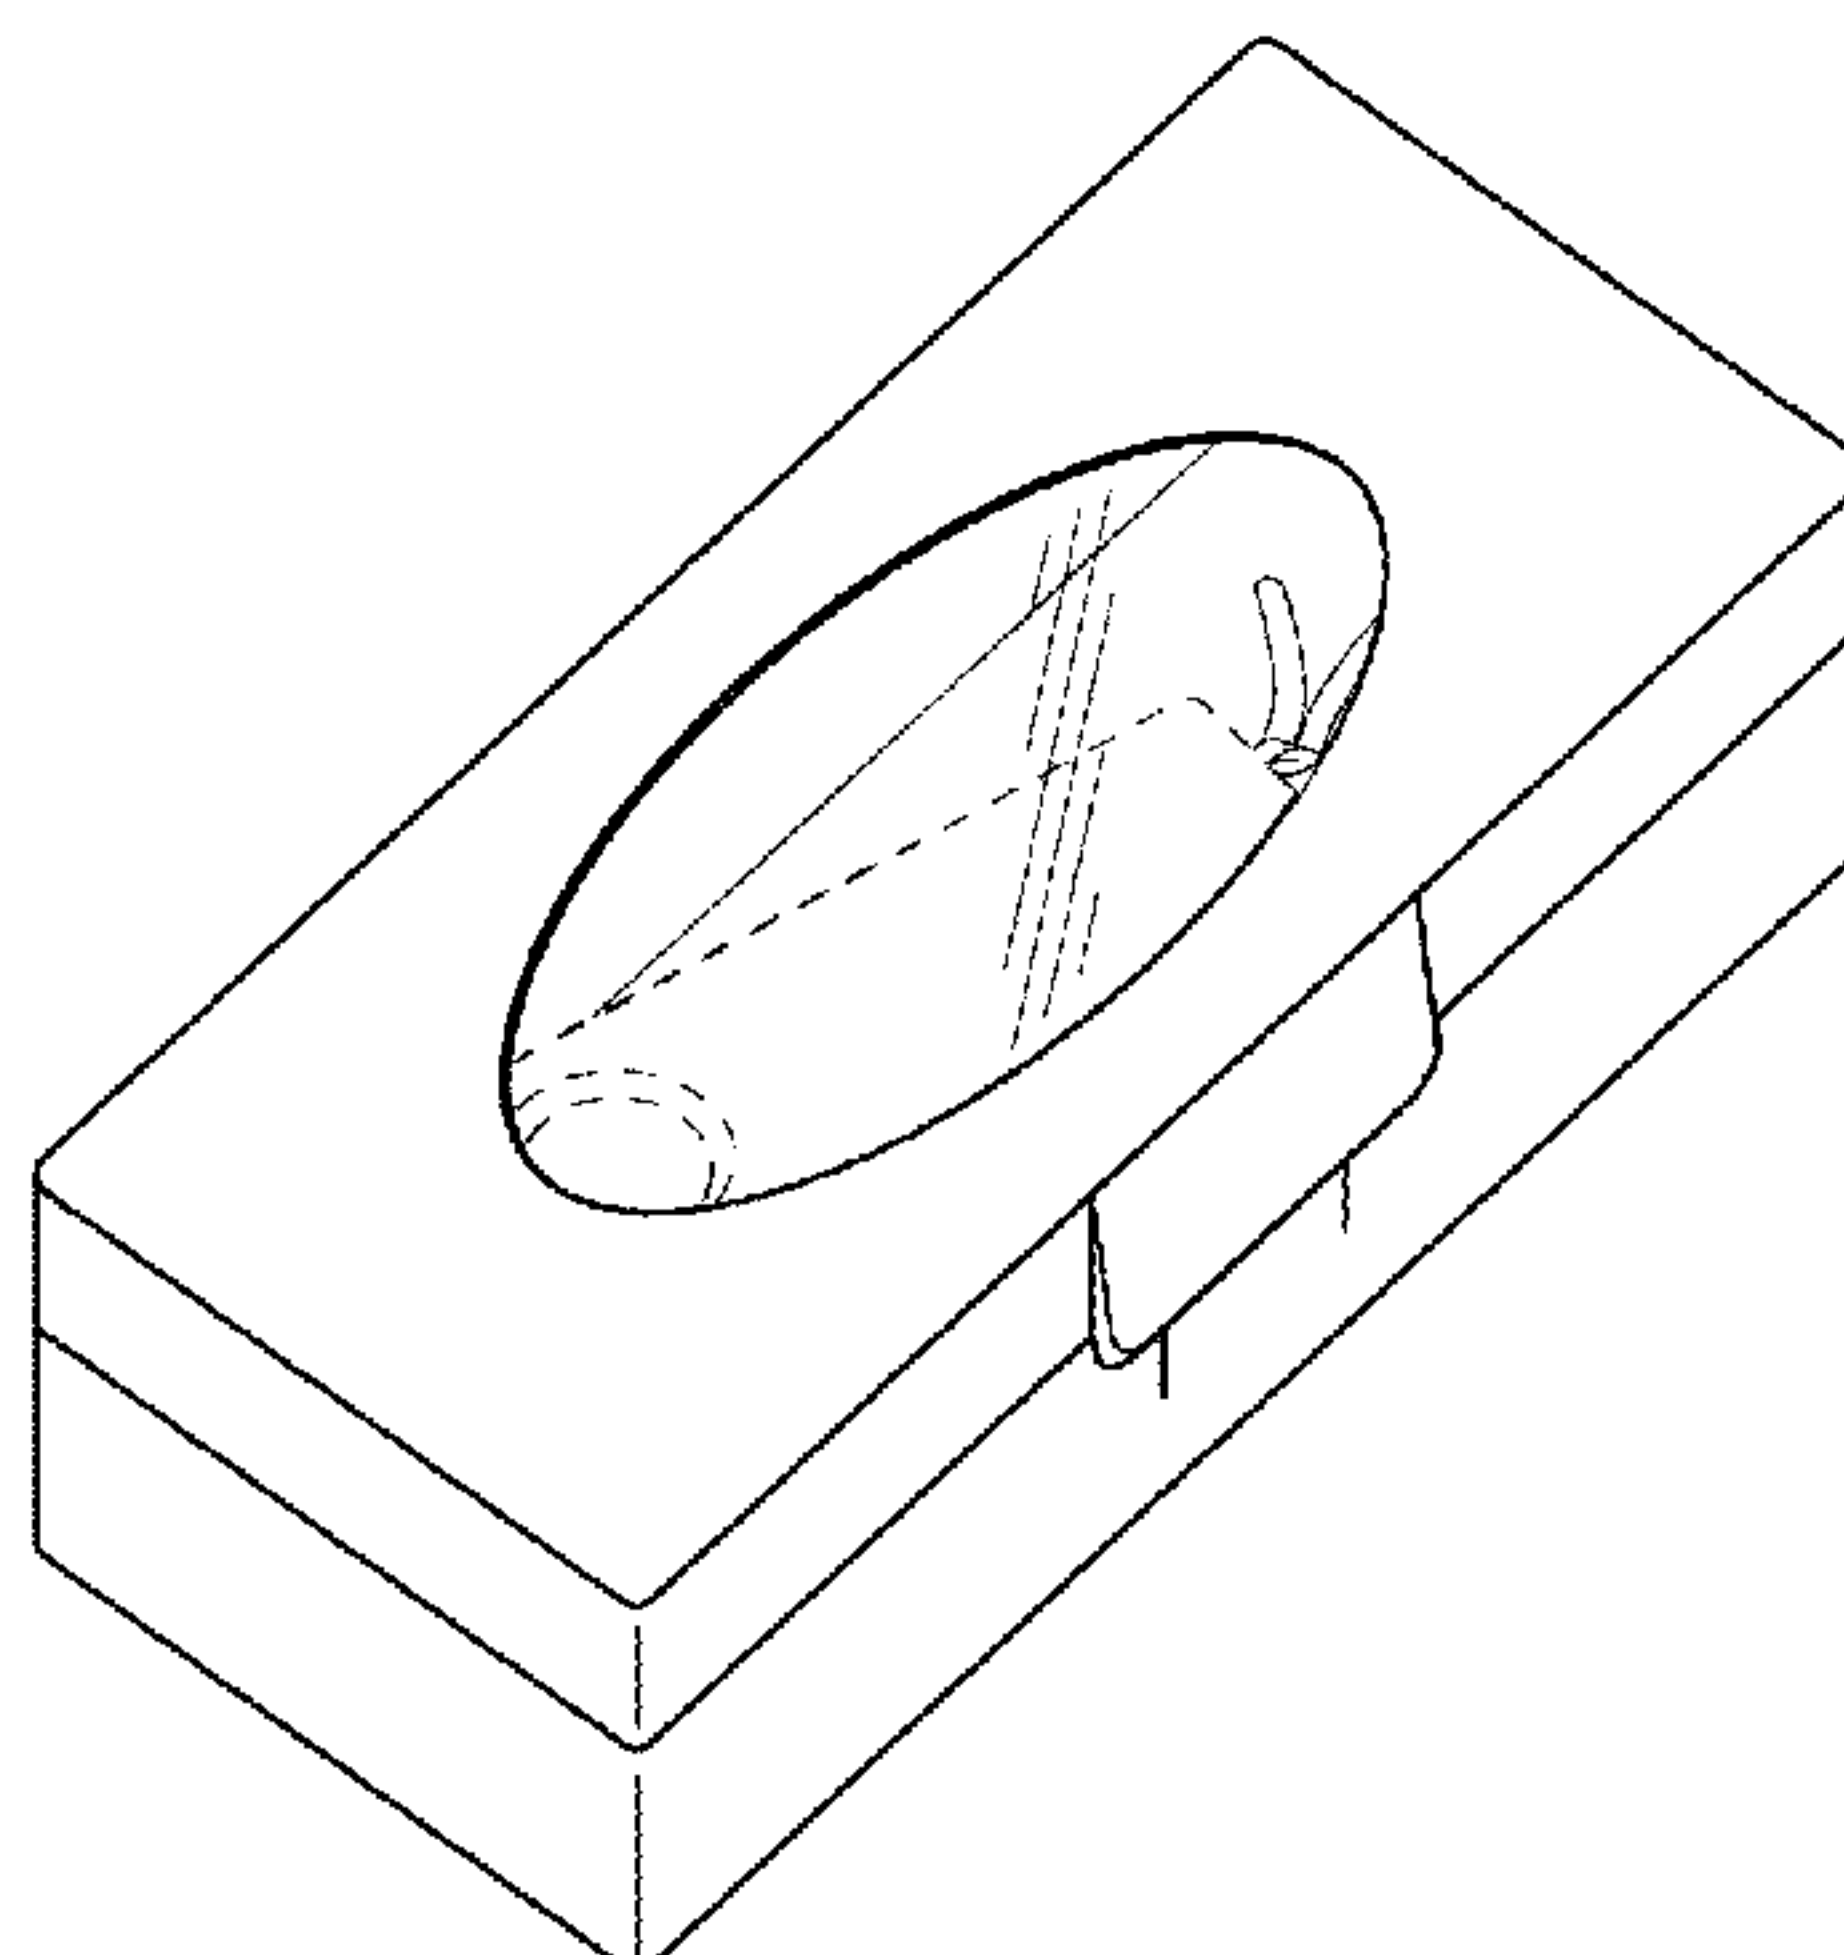

FIG. 12 shows a right side elevation view thereof, with the lid open and the tether inside the container.

FIG. 13 shows a left side elevation view thereof, with the lid open and the tether inside the container.

FIG. 14 shows a top plan view thereof, with the lid open and the tether inside the container with an item attached to the tether; and,

FIG. 15 shows a top, front perspective view thereof, with the lid open and the tether outside the container with an item

(Continued)

attached to the tether and with an interior label stored in the container extended from the interior of the container.
The broken lines illustrate environment and form no part of the claimed design.
