- (21) Appl. No.: **29/654,288**
- (22) Filed: **Jun. 22, 2018**

(57) **CLAIM**

The ornamental design for a display screen or portion thereof having graphical user interface with transitional icon, as shown and described.

**DESCRIPTION**

FIG. 1 is a face view of a display screen or portion thereof having graphical user interface with transitional icon, showing my new design and illustrating a first image of the transitional icon.

FIG. 2 is a face view of a display screen or portion thereof having graphical user interface with transitional icon, illustrating a second image of the transitional icon.

FIG. 3 is a face view of a display screen or portion thereof having graphical user interface with transitional icon, illustrating a third image of the transitional icon.

FIG. 4 is a face view of a display screen or portion thereof having graphical user interface with transitional icon, illustrating a fourth image of the transitional icon.

FIG. 5 is a face view of a display screen or portion thereof having graphical user interface with transitional icon, illustrating a fifth image of the transitional icon.

FIG. 6 is a face view of a display screen or portion thereof having graphical user interface with transitional icon, illustrating a sixth image of the transitional icon.

FIG. 7 is a face view of a display screen or portion thereof having graphical user interface with transitional icon, illustrating a seventh image of the transitional icon; and,

FIG. 8 is a face view of a display screen or portion thereof having graphical user interface with transitional icon, illustrating an eighth image of the transitional icon.

The appearance of the display screen or portion thereof having graphical user interface with transitional icon sequentially transitions among the images shown in FIGS. 1-8. The process or period in which one image transitions to another image forms no part of the claimed design.
