(57) **CLAIM**

The ornamental design for a display system with a graphical user interface with augmented reality, as shown and described.

DESCRIPTION

FIG. 1 is a front view a display system with a graphical user interface with augmented reality showing my new design, depicting the illusion of a first layer as shown in FIG. 2 in front of a second layer as shown in FIG. 3;

FIG. 2 is a partial view of the design of FIG. 1, showing the first layer of the graphical user interface with augmented reality, shown separately for clarity of illustration; and,

FIG. 3 is a partial view of the design of FIG. 1, showing the second layer of the graphical user interface with augmented reality, shown separately for clarity of illustration.

The broken lines of uneven length represent the field of view for the visual display that forms no part of the claimed design. The broken lines of even length illustrate portions of the display system with augmented reality graphical user interface that form no part of the claimed design.
