(57) **CLAIM**

The ornamental design for a tip receptor mount for lightning protection systems, as shown and described.

DESCRIPTION

FIG. 1 is a bottom, front, left isometric view of an embodiment of an ornamental design for a tip receptor mount for lightning protection systems;

FIG. 2 is a bottom, rear, left isometric view of the tip receptor mount for lightning protection systems of FIG. 1; FIG. 3 is a bottom, front, right isometric view of the tip receptor mount for lightning protection systems of FIG. 1; FIG. 4 is a bottom, rear, right isometric view of the tip receptor mount for lightning protection systems of FIG. 1; FIG. 5 is a bottom plan view of the tip receptor mount for lightning protection systems of FIG. 1;

FIG. 6 is a top plan view of the tip receptor mount for lightning protection systems of FIG. 1;

FIG. 7 is a left side elevation view of the tip receptor mount for lightning protection systems of FIG. 1;

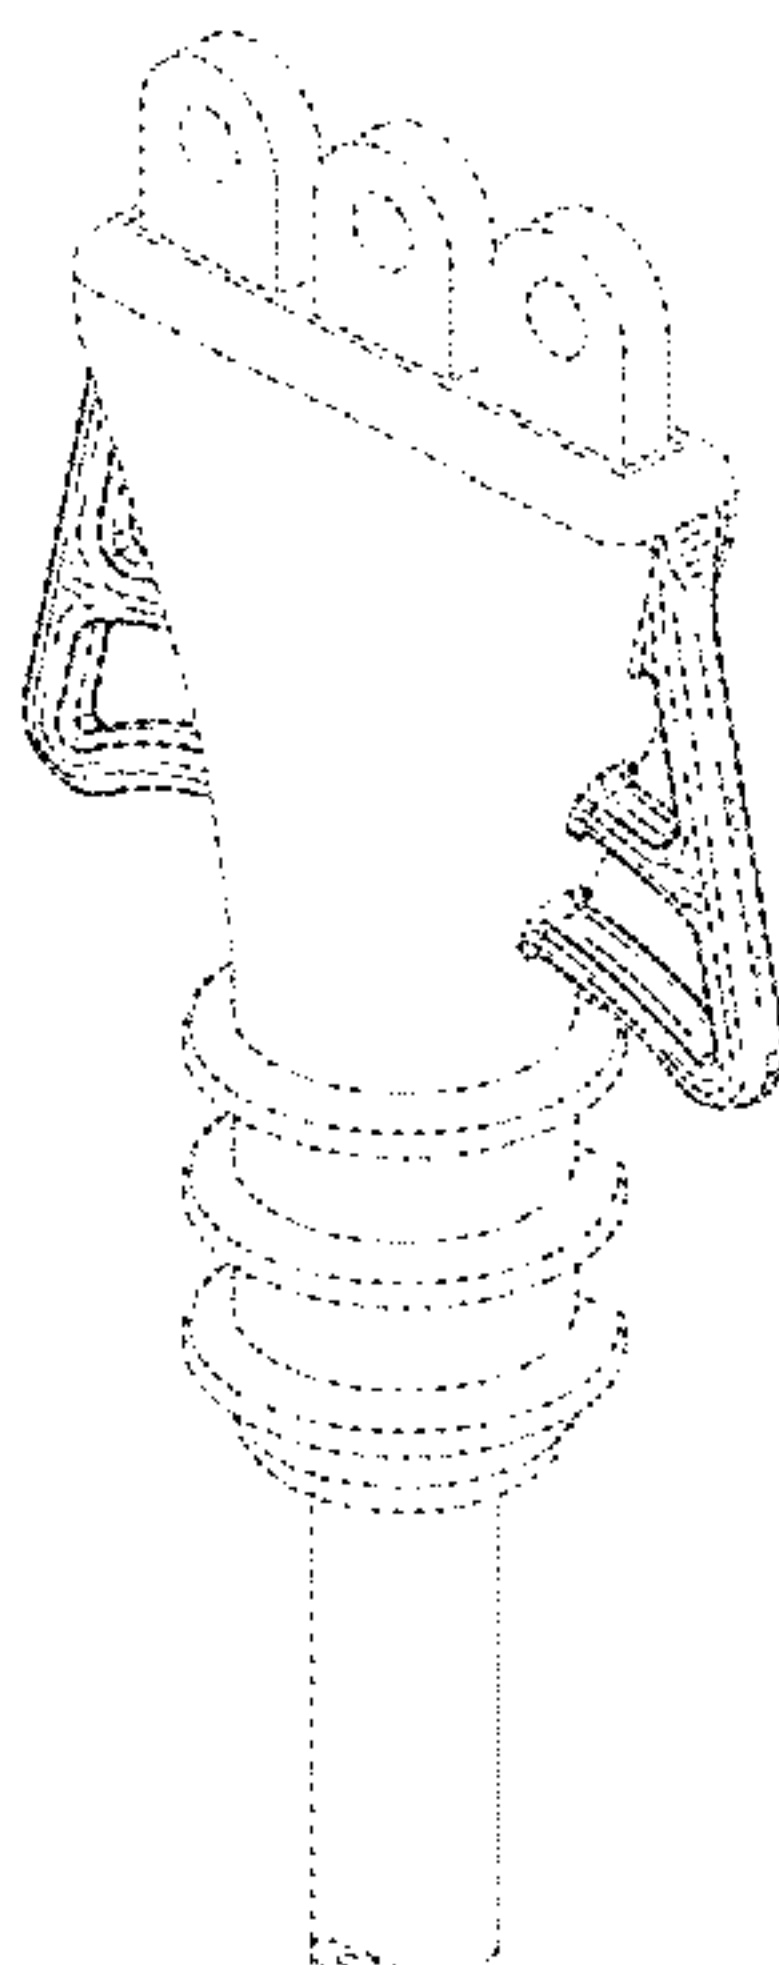

FIG. 8 is a right side elevation view of the tip receptor mount for lightning protection systems of FIG. 1;

FIG. 9 is a front elevation view of the tip receptor mount for lightning protection systems of FIG. 1; and,

FIG. 10 is a rear elevation view of the tip receptor mount for lightning protection systems of FIG. 1.

The ornamental design that is claimed is shown in solid lines in the drawings. The broken lines in the drawings are for illustrative purposes only and form no part of the claimed design. Any dash-dash broken lines in the drawings are included to illustrate unclaimed surfaces or environment of
