(57) **CLAIM**

The ornamental design for a display screen for digital camera with transitional graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a top, rear and left side perspective view of a display screen for digital camera with transitional graphical user interface showing my new design; FIG. 2 is a rear elevational view thereof; FIG. 3 is an enlarged view of the display screen; FIG. 4 is an enlarged view of the display screen, which transitions from the display screen shown in FIG. 3; FIG. 5 is an enlarged view of the display screen in a manner of use; and, FIG. 6 is a rear elevational view of the digital camera in which the same image is displayed on the display screen and within a viewfinder of the camera body. The appearance of image transitions sequentially between the images shown in FIG. 3 and FIG. 4. The process or period in which one image transitions to another image forms no part of the claimed design. The broken line showing of a digital camera illustrates environment. The remainder of the broken lines illustrate portions of display screen for digital camera with graphical user interface. The broken lines form no part of the claimed design.
