(57) **CLAIM**

The ornamental design for a display screen with transitional graphical user interface, as shown and described.

DESCRIPTION

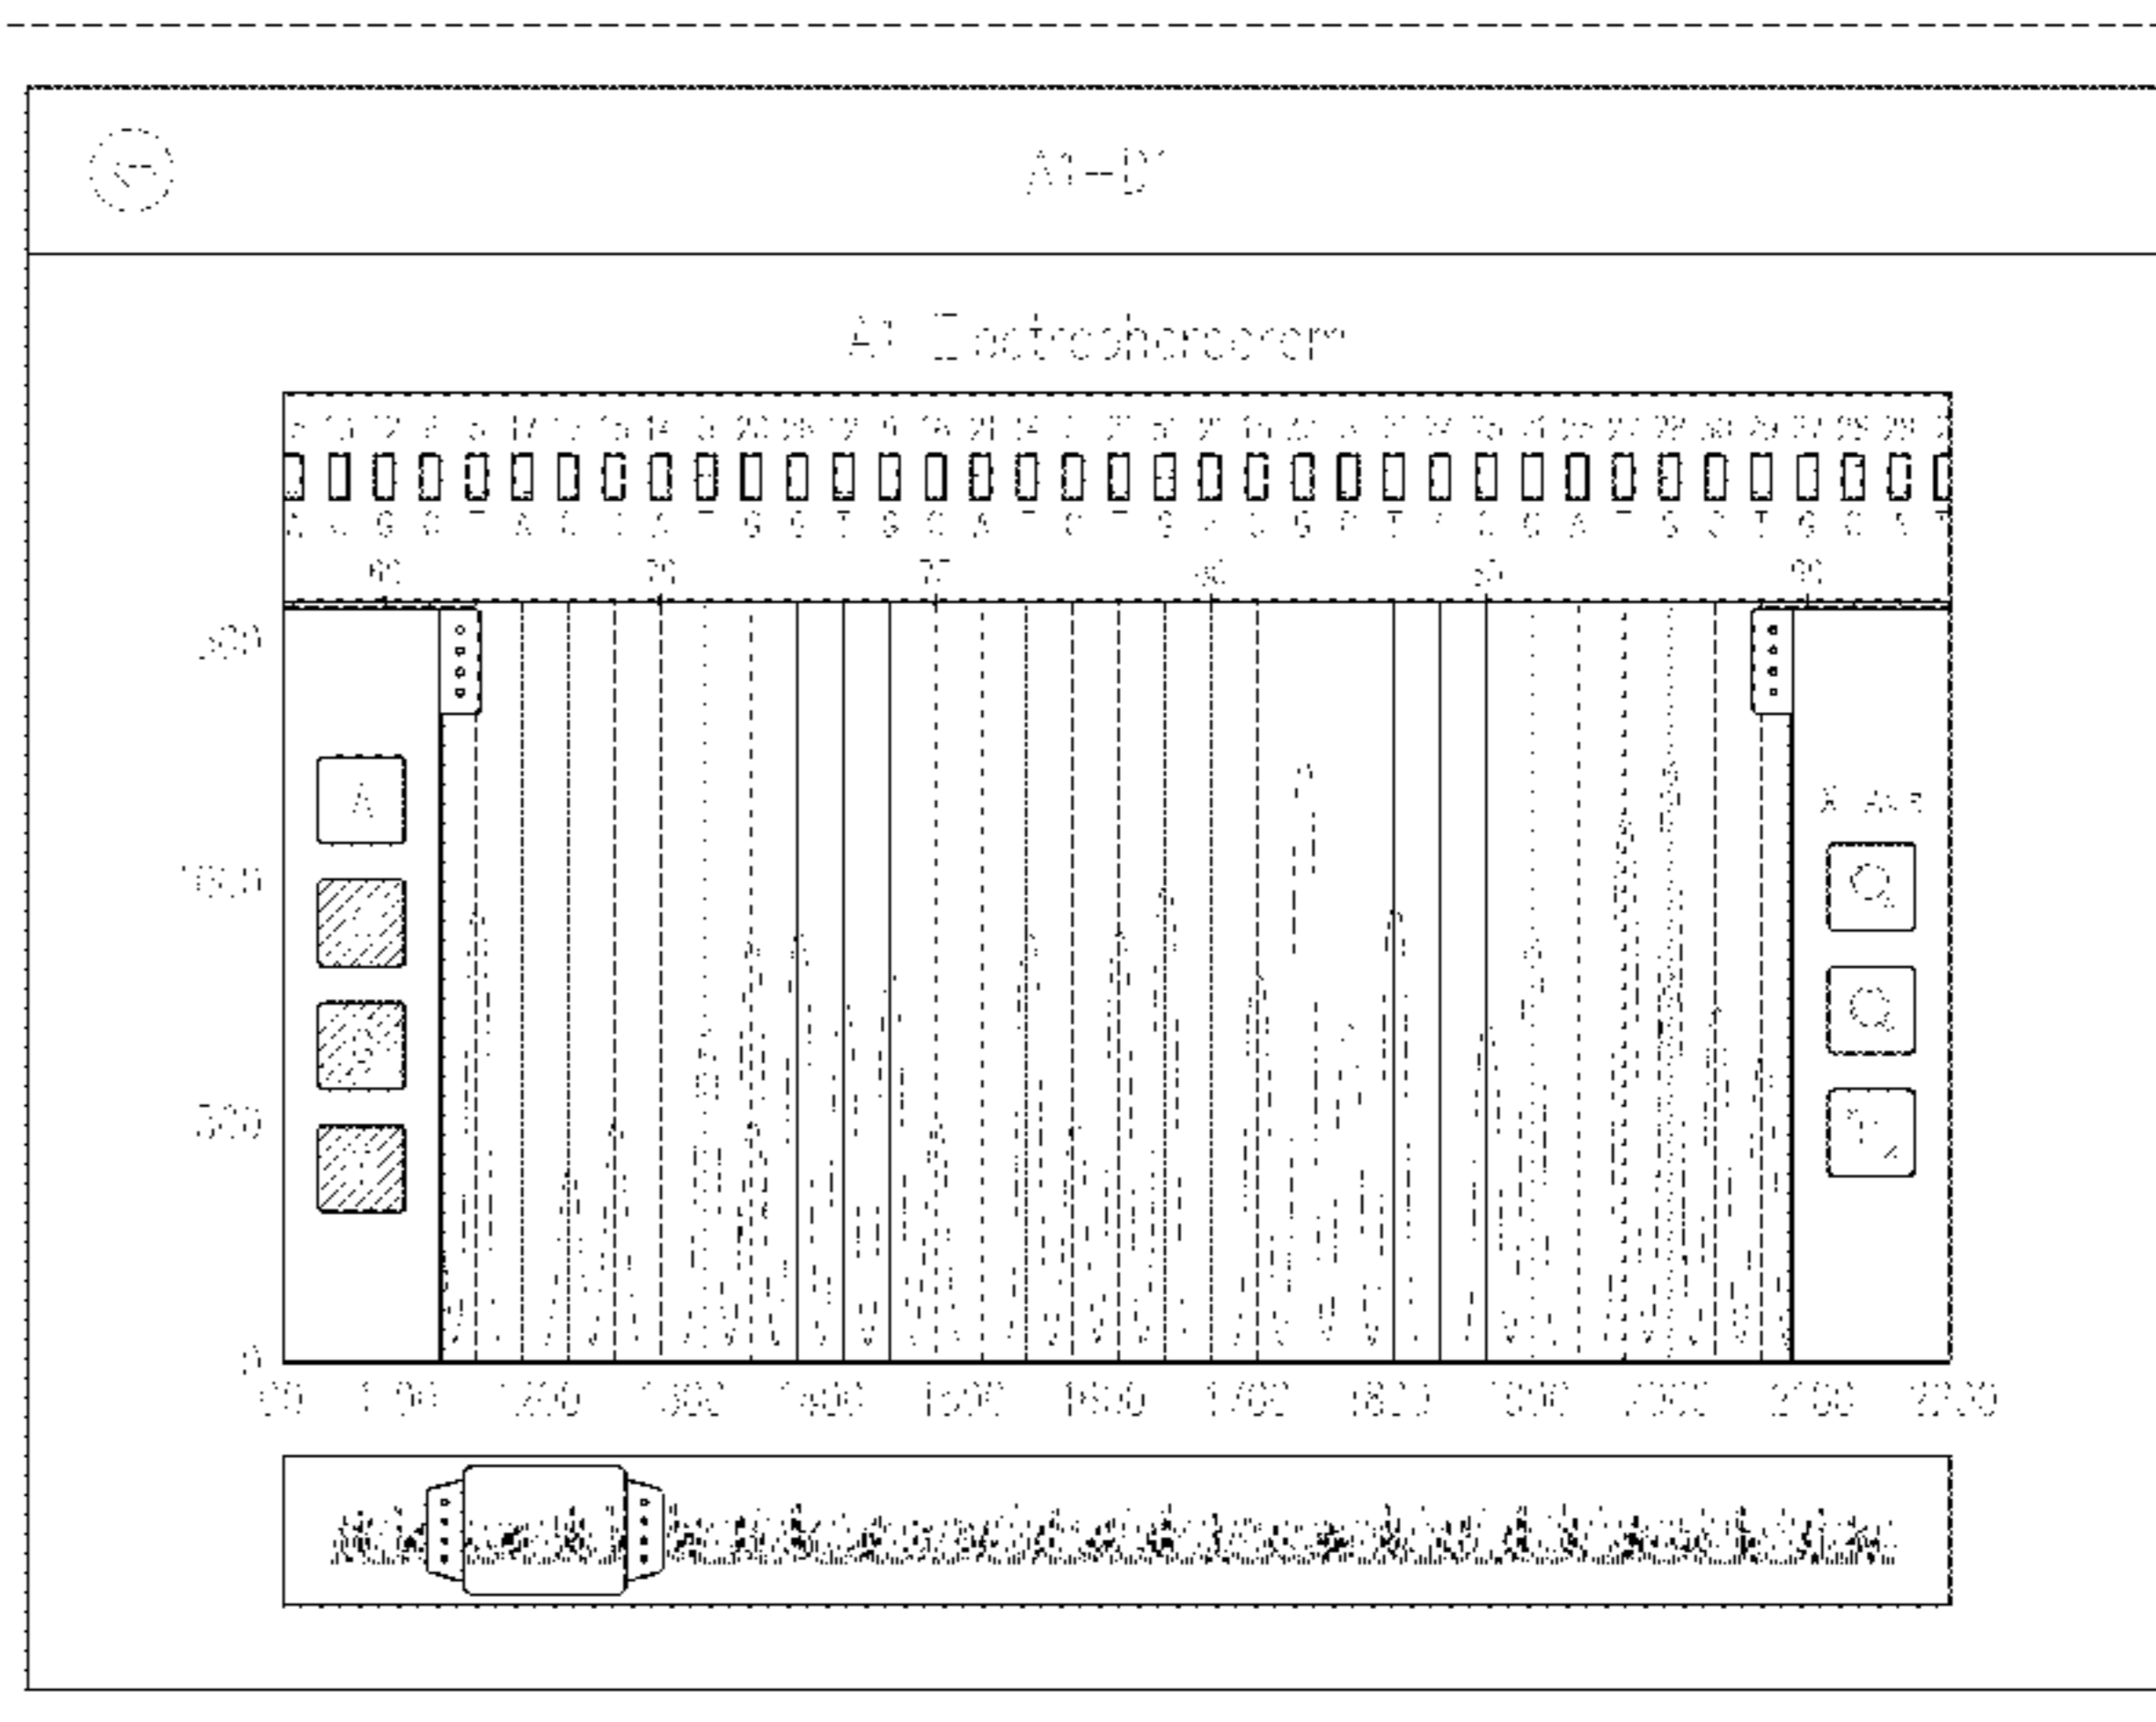

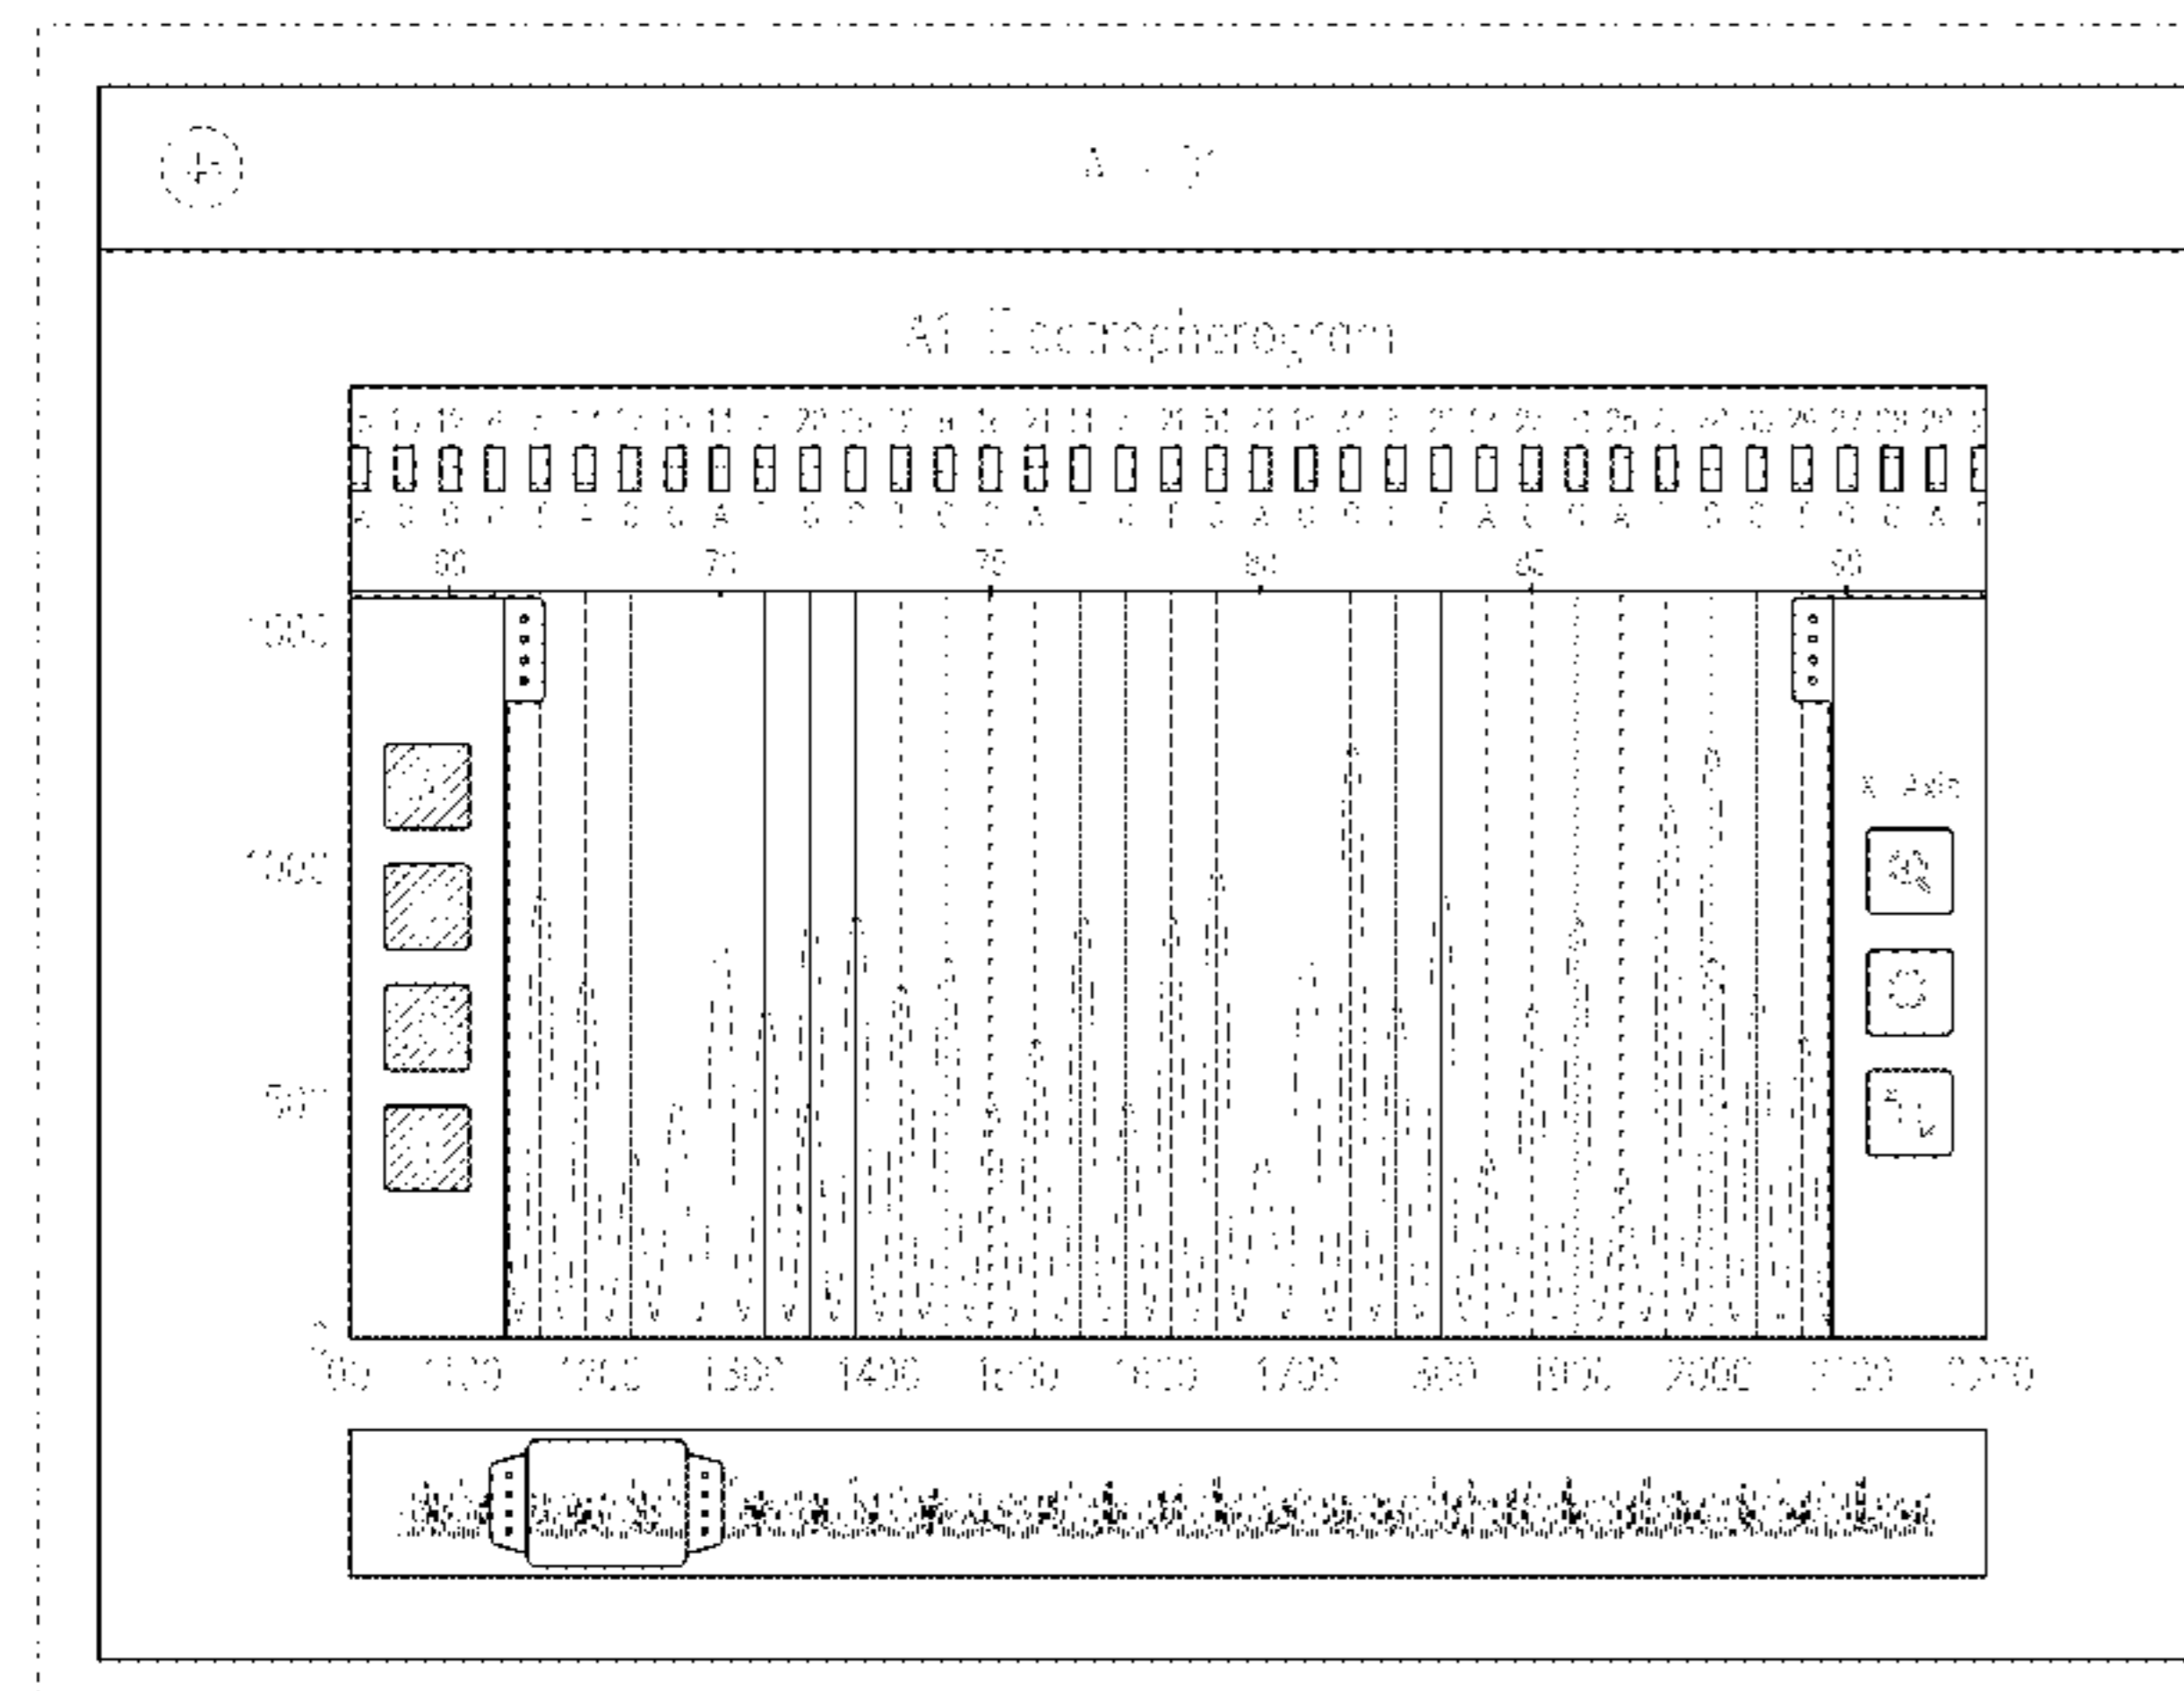

FIG. 1 is a front view of a first image in a sequence for a display screen with transitional graphical user interface, according to an embodiment of the new design; and, FIG. 2 is a second image thereof.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-2. The process or period in which one image transitions to another image forms no part of the claimed design.

The broken line showing of the display screen and all other broken lines showing portions of the graphical user interface illustrate portions of the article and form no part of the claimed design.

The diagonal shading in FIGS. 1 and 2 shows a contrast in appearance.
