(57) **CLAIM**

The ornamental design for a portable entertainment ball, as shown and described.

DESCRIPTION

FIG. 1 is a front top perspective view of the portable entertainment ball.

FIG. 2 is a top view thereof.

FIG. 3 is right side view thereof.

FIG. 4 is a right side perspective view thereof.

FIG. 5 is a left side view thereof.

FIG. 6 is a front side view thereof.

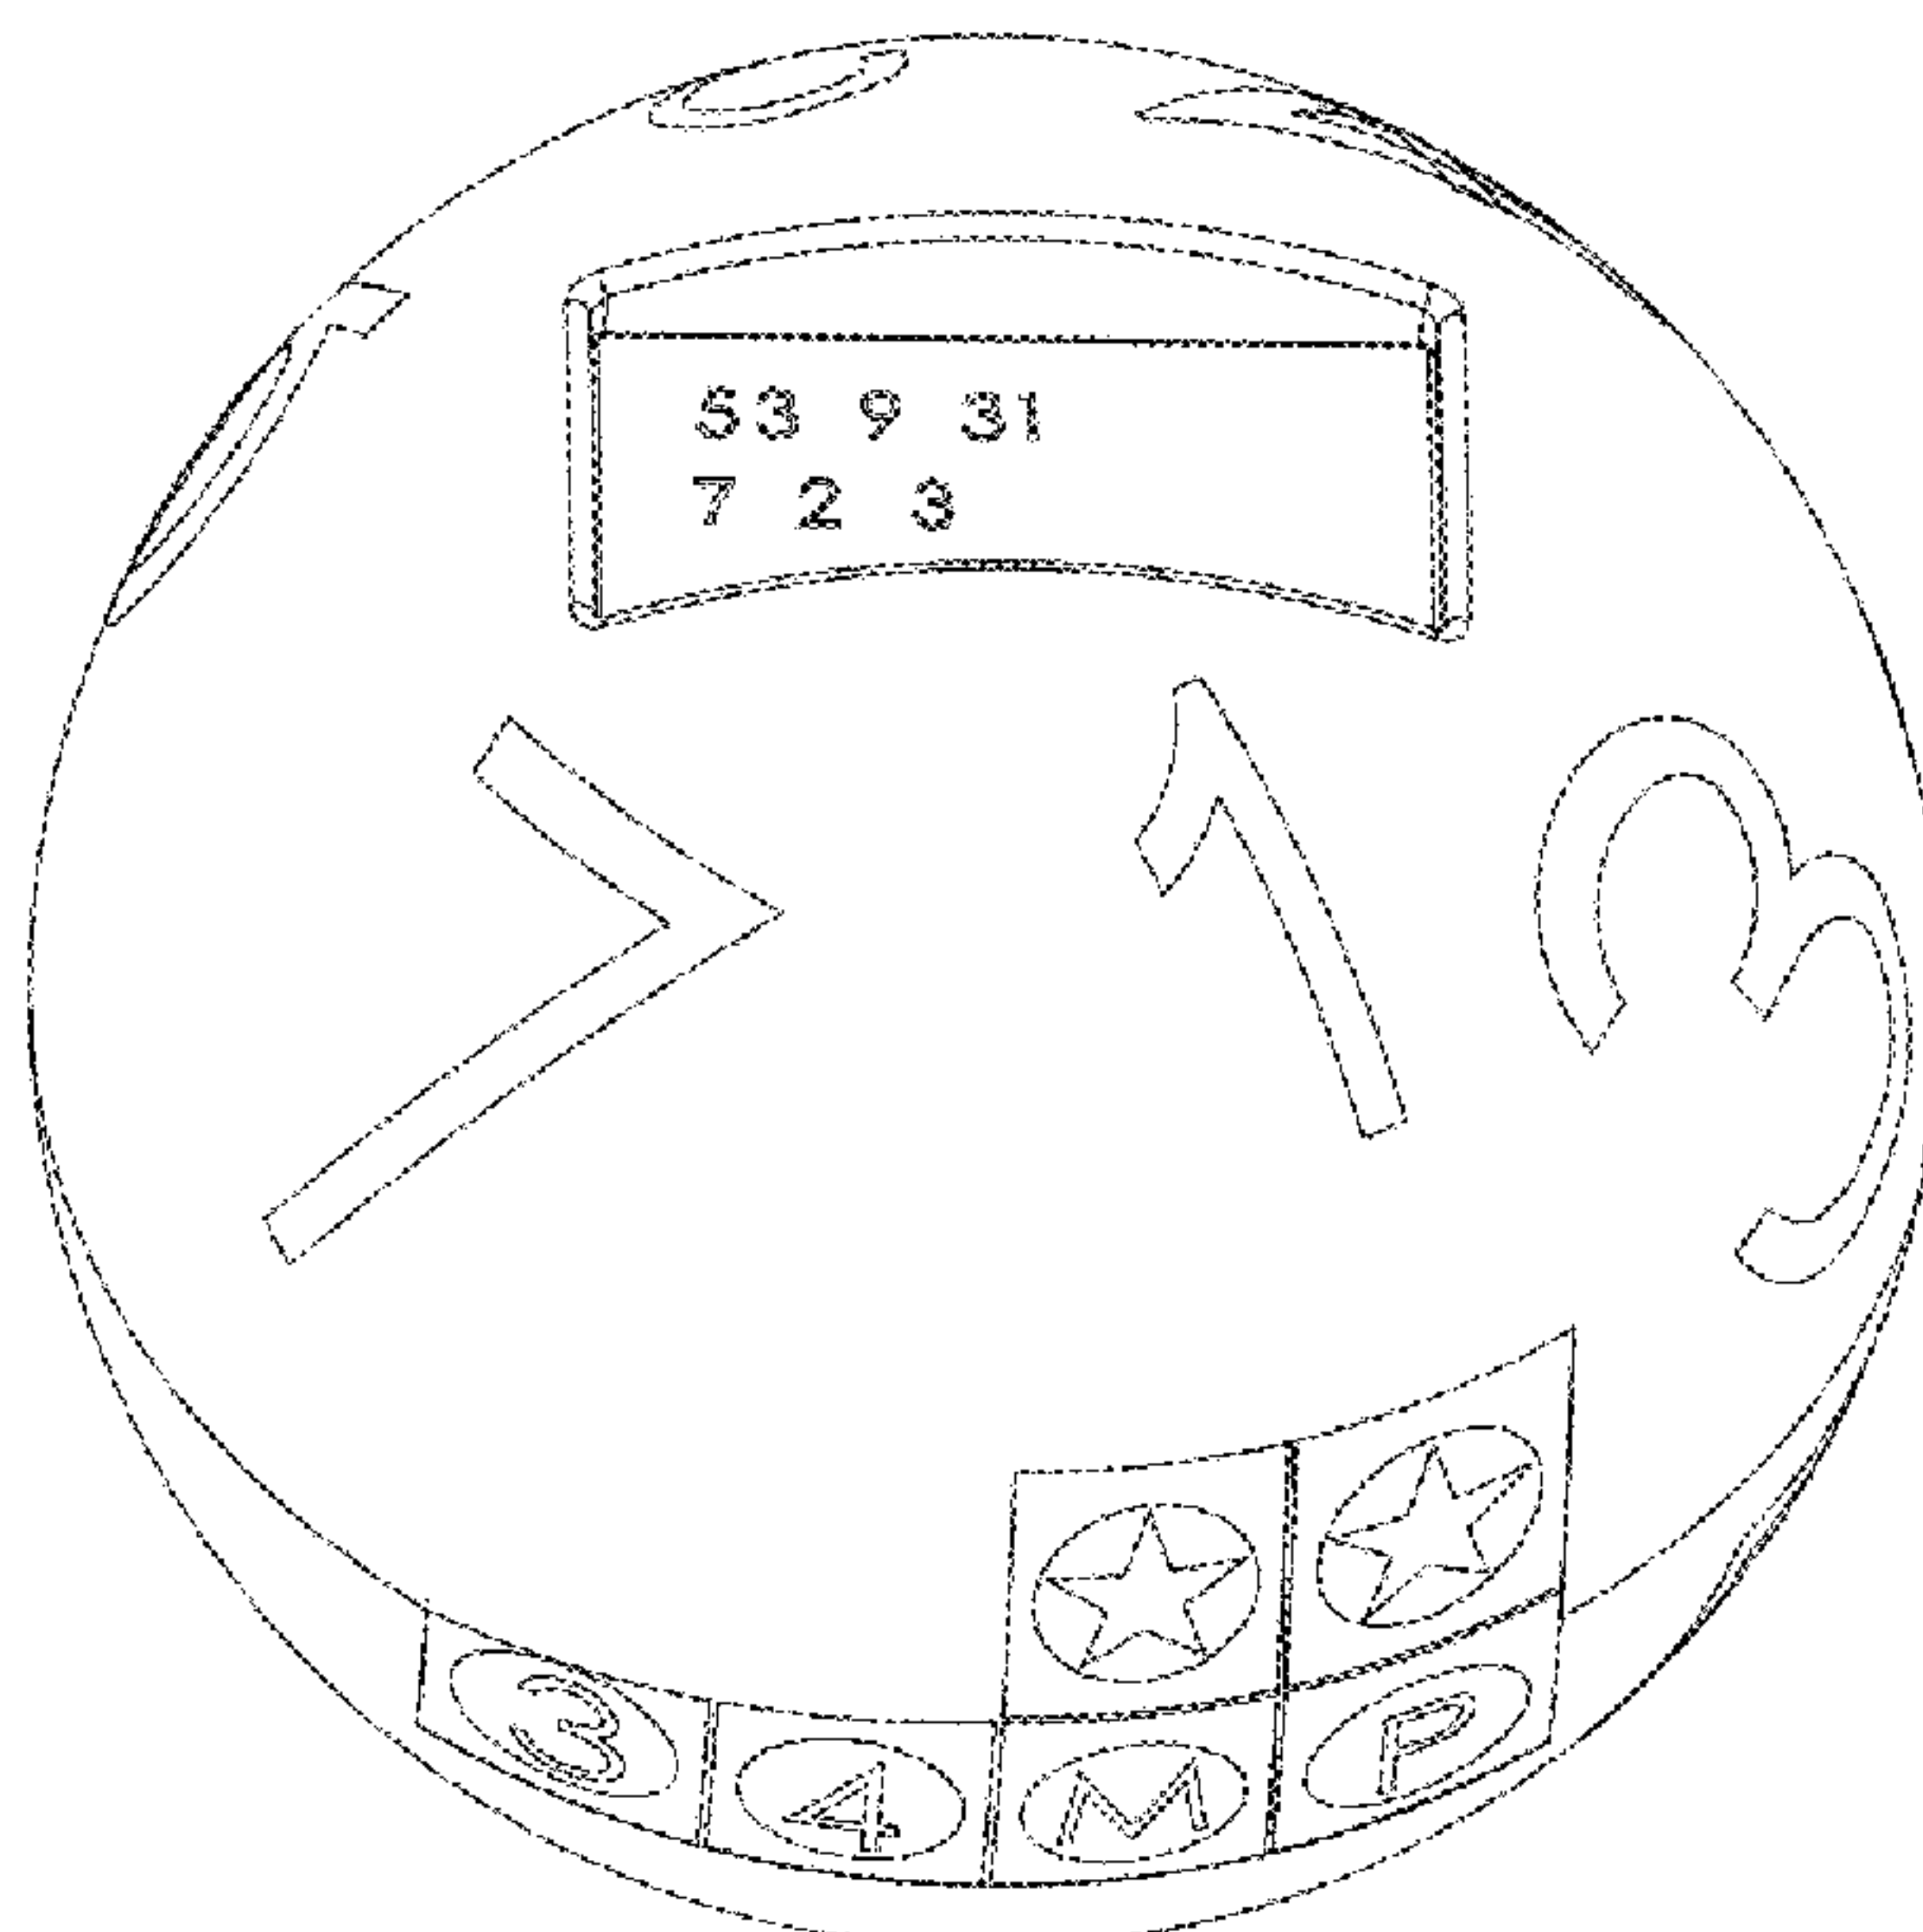

FIG. 7 is a back side view thereof; and,

FIG. 8 is a bottom view thereof.

The broken lines shown in the USB port and the bottom portion of the portable entertainment ball form no part of the claimed design.

A portable entertainment ball for number selection is disclosed. The portable entertainment ball includes a display screen, an internal processor with databases, and an exterior housing decorated with a plurality of numbers and number selection buttons. The number selection panel is in communication with the internal processor to select numbers for display on the screen. Additional features of the portable entertainment ball include audio circuitry, a universal serial bus (USB port) being mounted on the housing wall, and a battery circuit. The battery circuit is connected to a battery located at the bottom of the device and an on/off switch.

1 Claim, 8 Drawing Sheets
