(57) **CLAIM**

The ornamental design for a catheter handle, as shown and described.

DESCRIPTION

FIG. 1 is a left perspective view of the catheter handle in its retracted position;

FIG. 2 is a right perspective view of the catheter handle in its retracted position;

FIG. 3 is a front perspective view of the catheter handle in its retracted position;

FIG. 4 is a left side perspective view of the catheter handle in its retracted position;

FIG. 5 is a right side perspective view of the catheter handle in its retracted position;

FIG. 6 is a top view of the catheter handle in its retracted position;

FIG. 7 is a bottom view of the catheter handle in its retracted position;

FIG. 8 is a rear perspective view of the catheter handle in its retracted position;

FIG. 9 is a left perspective view of the catheter handle in its extended position;

FIG. 10 is a right perspective view of the catheter handle in its extended position;

FIG. 11 is a front perspective view of the catheter handle in its extended position;

FIG. 12 is a left side perspective view of the catheter handle in its extended position;

FIG. 13 is a right side perspective view of the catheter handle in its extended position;

FIG. 14 is a top view of the catheter handle in its extended position;

FIG. 15 is a bottom view of the catheter handle in its extended position; and,

FIG. 16 is rear perspective view of the catheter handle in its extended position.
