See application file for complete search history.

FIG. 1 is an upright perspective front view of a design of a lighting fixture for long and short bulbs with wiring shown in dashed lines;

FIG. 2 is a top view of the lighting fixture of FIG. 1 in a lying down position;

FIG. 3 is a bottom view of the lighting fixture of FIG. 2, with wiring and fixture connection elements shown in dashed lines;

FIG. 4 is a top side view of the lighting fixture of FIG. 2 as facing downwardly, with wiring and fixture elements shown in dashed lines;

FIG. 5 is a top side view of the lighting fixture of FIG. 2 as facing upwardly, with wiring and fixture connection elements shown in dashed lines;

FIG. 6 is a left side view of the lighting fixture of FIG. 2, and with wiring and fixture connection elements shown in dashed lines, with the right side view being a mirror image thereof; and,

FIG. 7 is a top view of the lighting fixture of FIG. 2, with the center section removed and with a bottom view of the center section, with wiring shown in dashed lines.

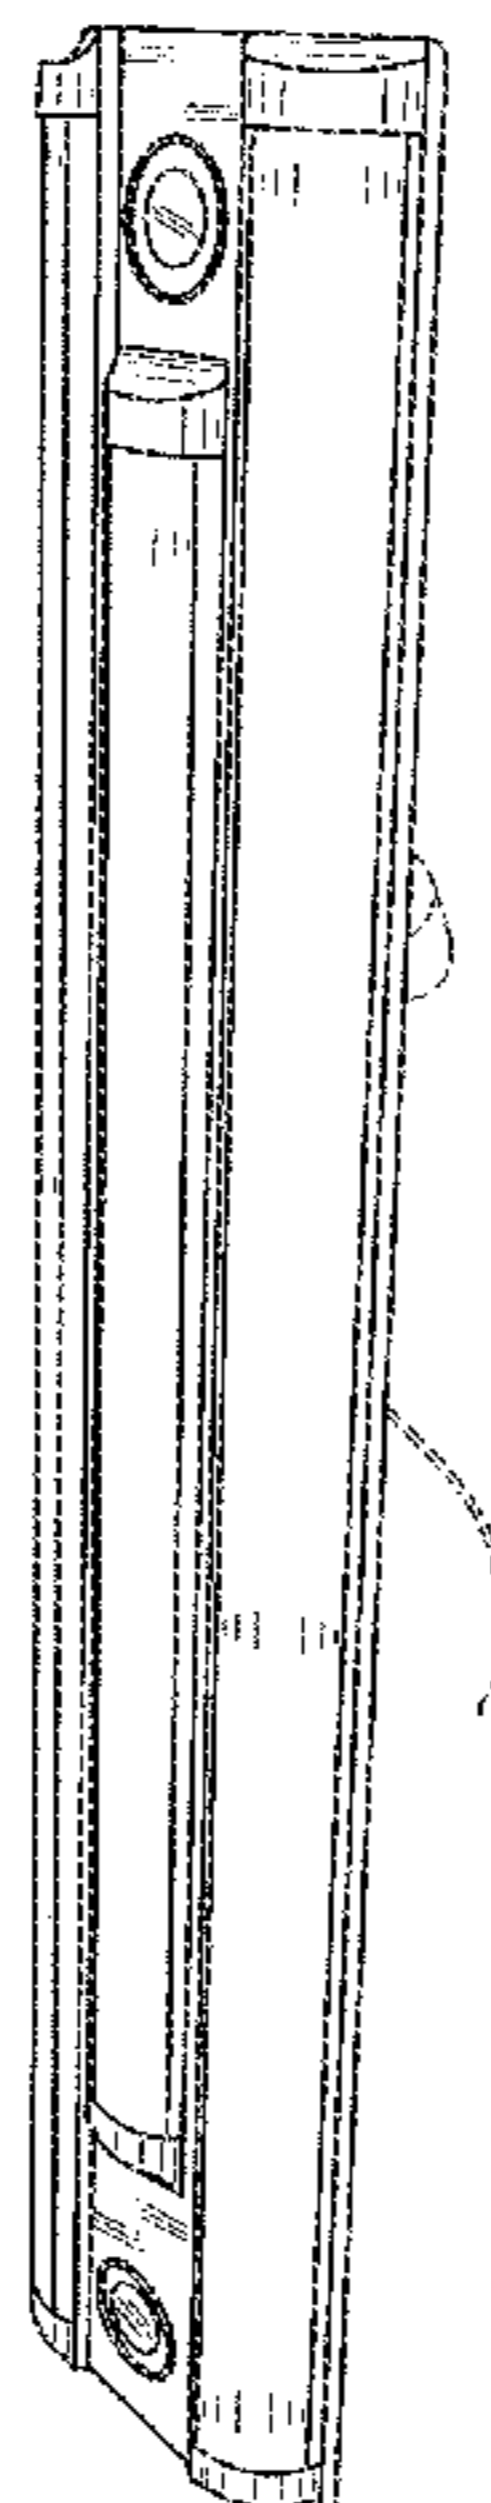

The broken lines in the drawings illustrate portions of the lighting fixture for long and short bulbs which forms no part of the claimed design.
