(Continued)

The broken lines shown in the drawings depict portions of the mobile device that form no part of the claimed design. The dot-dash lines encircling portions of the claimed design that are shown in enlargements form no part thereof. The thinner solid line showing the lower edge of the triangular shape in the upper left corner indicates the upper left edge of the display screen where the display screen does not extend to the outer edge of the front surface. The display screen occurs immediately beneath the transparent/reflective front surface. The outer boundaries of the transparent/reflective front surface are shown by the thicker circumferential solid line.
