(57) **CLAIM**

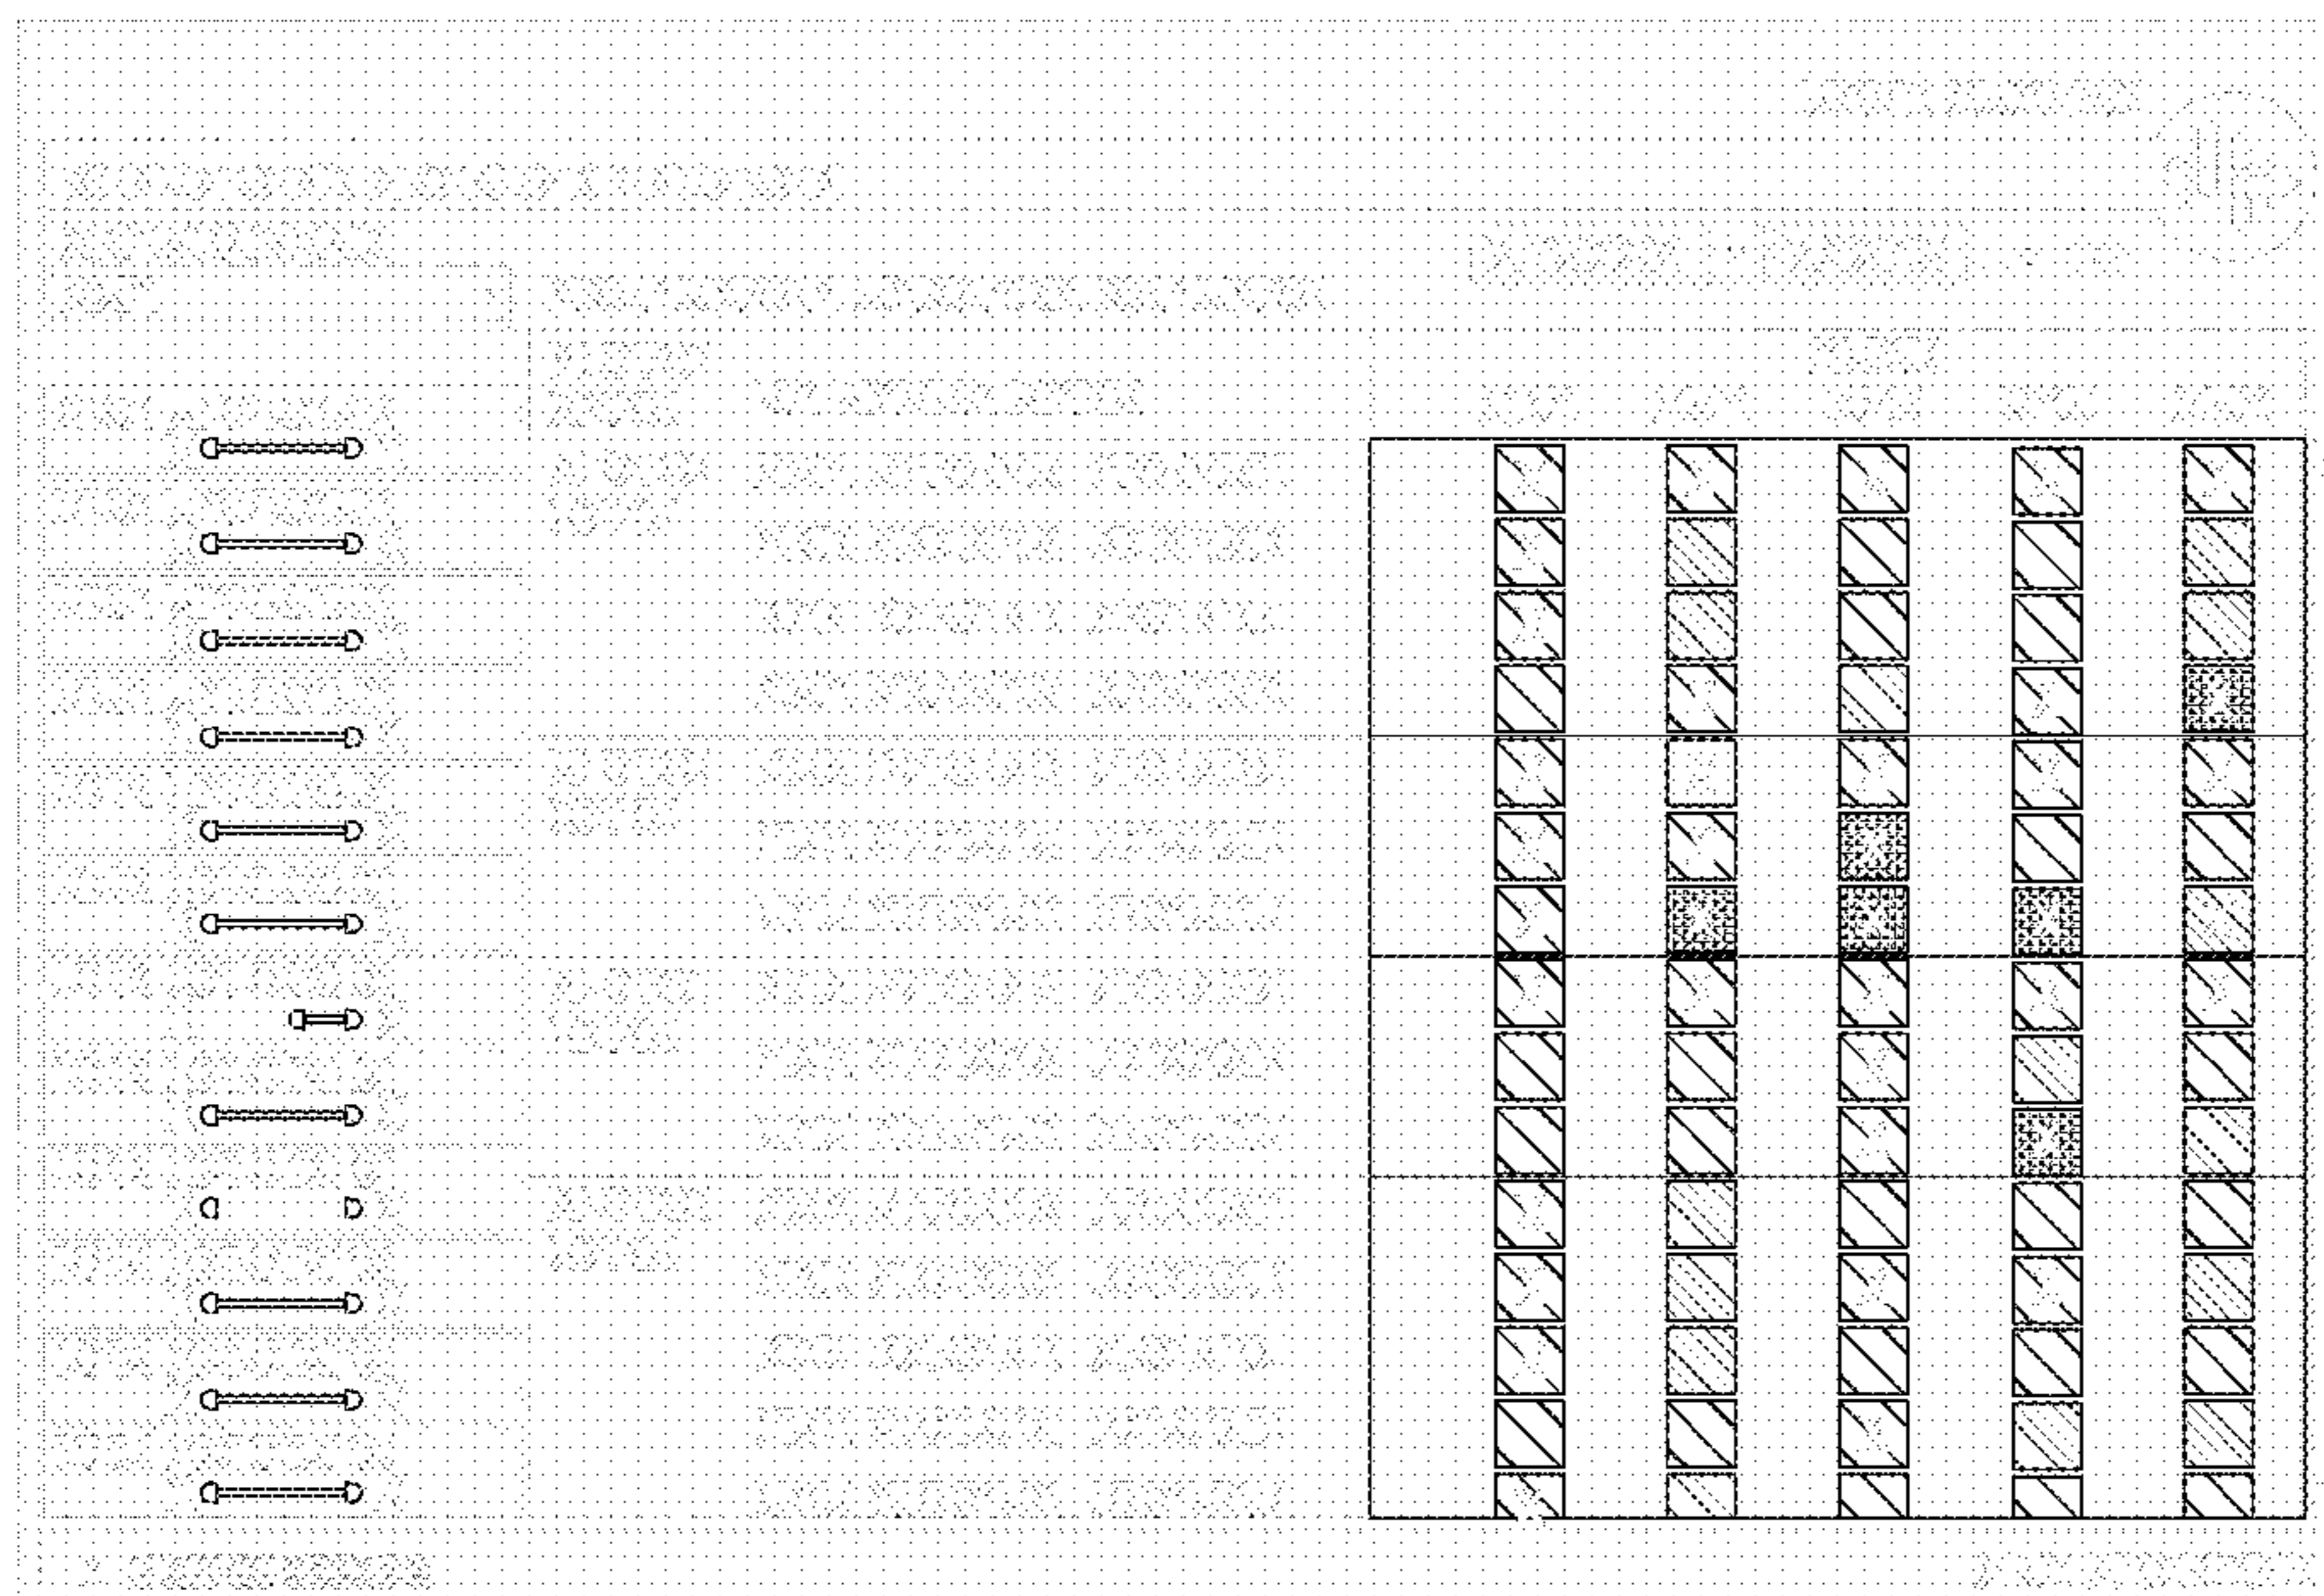

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

The sole FIGURE illustrates a front view of a display screen with graphical user interface.

The outermost broken-line rectangle illustrates the perimeter of a display screen and forms no part of the claimed design. The remaining broken lines illustrate portions of a graphical user interface and form no part of the claimed design. The different line patterns within the squares illustrate areas of contrasting appearance.
