(57) **CLAIM**

The ornamental design for a display screen with transitional graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image in a sequence for a display screen with transitional graphical user interface according to the claimed design;
FIG. 2 is a front view of a second image thereof; and,
FIG. 3 is a front view of a third image thereof.
The appearance of the transition is sequential from FIG. 1 through FIG. 3, sequentially. The process or period in which an image transitions to another image forms no part of the claimed design.
Shading indicates a contrast in appearance.
The outermost broken line rounded rectangle showing of an electronic device illustrates environmental subject matter. The broken line showing of a display screen, and all other broken lines showing portions of the graphical user interface illustrate portions of the article. None of the aforementioned broken line subject matter forms part of the claimed design.
