(57) **CLAIM**

The ornamental design for display screen or portion thereof with graphical use interface, as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view of a display screen or portion thereof with graphical user interface showing our new design in accordance to a first embodiment;

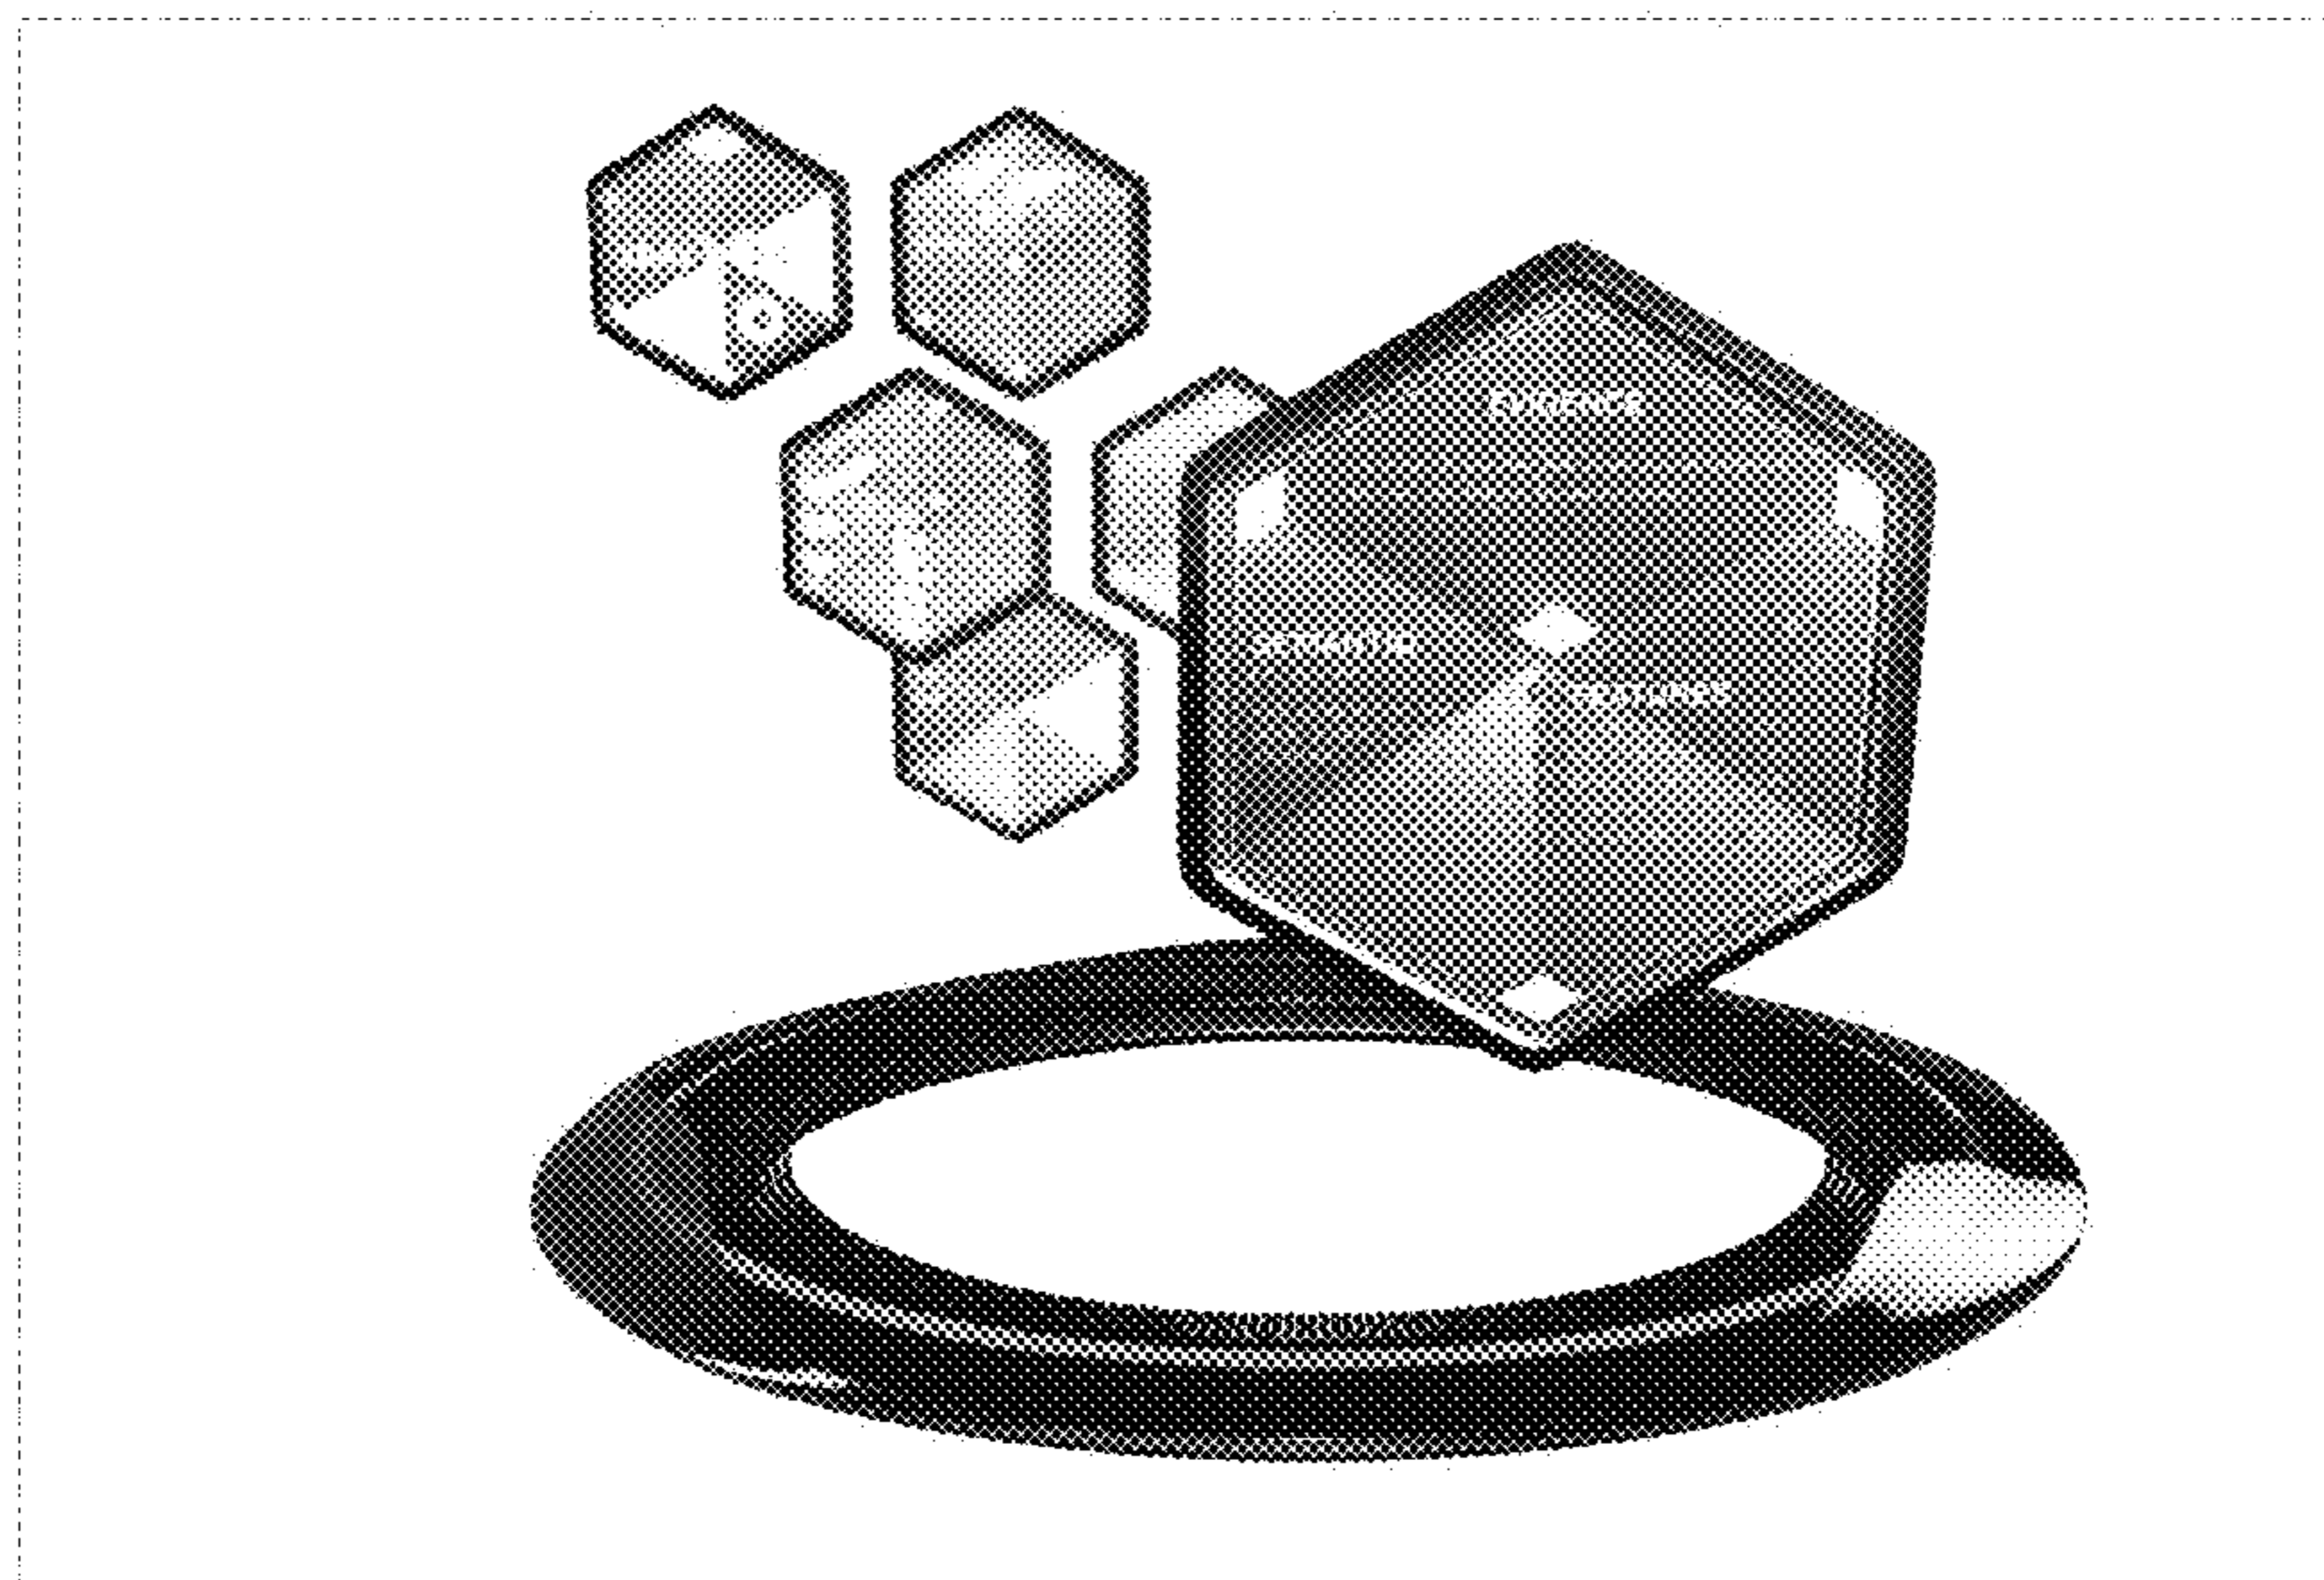

FIG. 2 is a front view thereof in accordance to a second embodiment; and,

FIG. 3 is a front view thereof in accordance to a third embodiment.

The broken line showing the display screen or portions thereof do not form part of the claimed design.

It is to be understood that the hexagonal interface surface areas will display various content, matter and information, and that these displays, including the information and content currently displayed in the drawings in this application, form no part of the claimed design.
