See application file for complete search history.

FIG. 1 is a front view of the first image in a sequence of a display screen with transitional graphical user interface, showing our new design;
FIG. 2 is a second image thereof;
FIG. 3 is a third image thereof; and,
FIG. 4 is a fourth image thereof.

(56) **References Cited**

The subject matter of this patent includes a process or period in which the graphic user interface changes into another image. The transitional image sequentially transitions between images shown in FIGS. 1 to 4. The process or period in which one image transitions to another image forms no part of the claimed design.

U.S. PATENT DOCUMENTS

The outermost broken line showing a display screen forms no part of the claimed design. The broken lines showing of the icons, the alphanumeric characters, the remainder of the user interface, and the remainder of the display screen, are for environmental purposes only and form no part of the claimed design. The contrast of the broken lines in FIG. 1 form no part of the claimed design.
