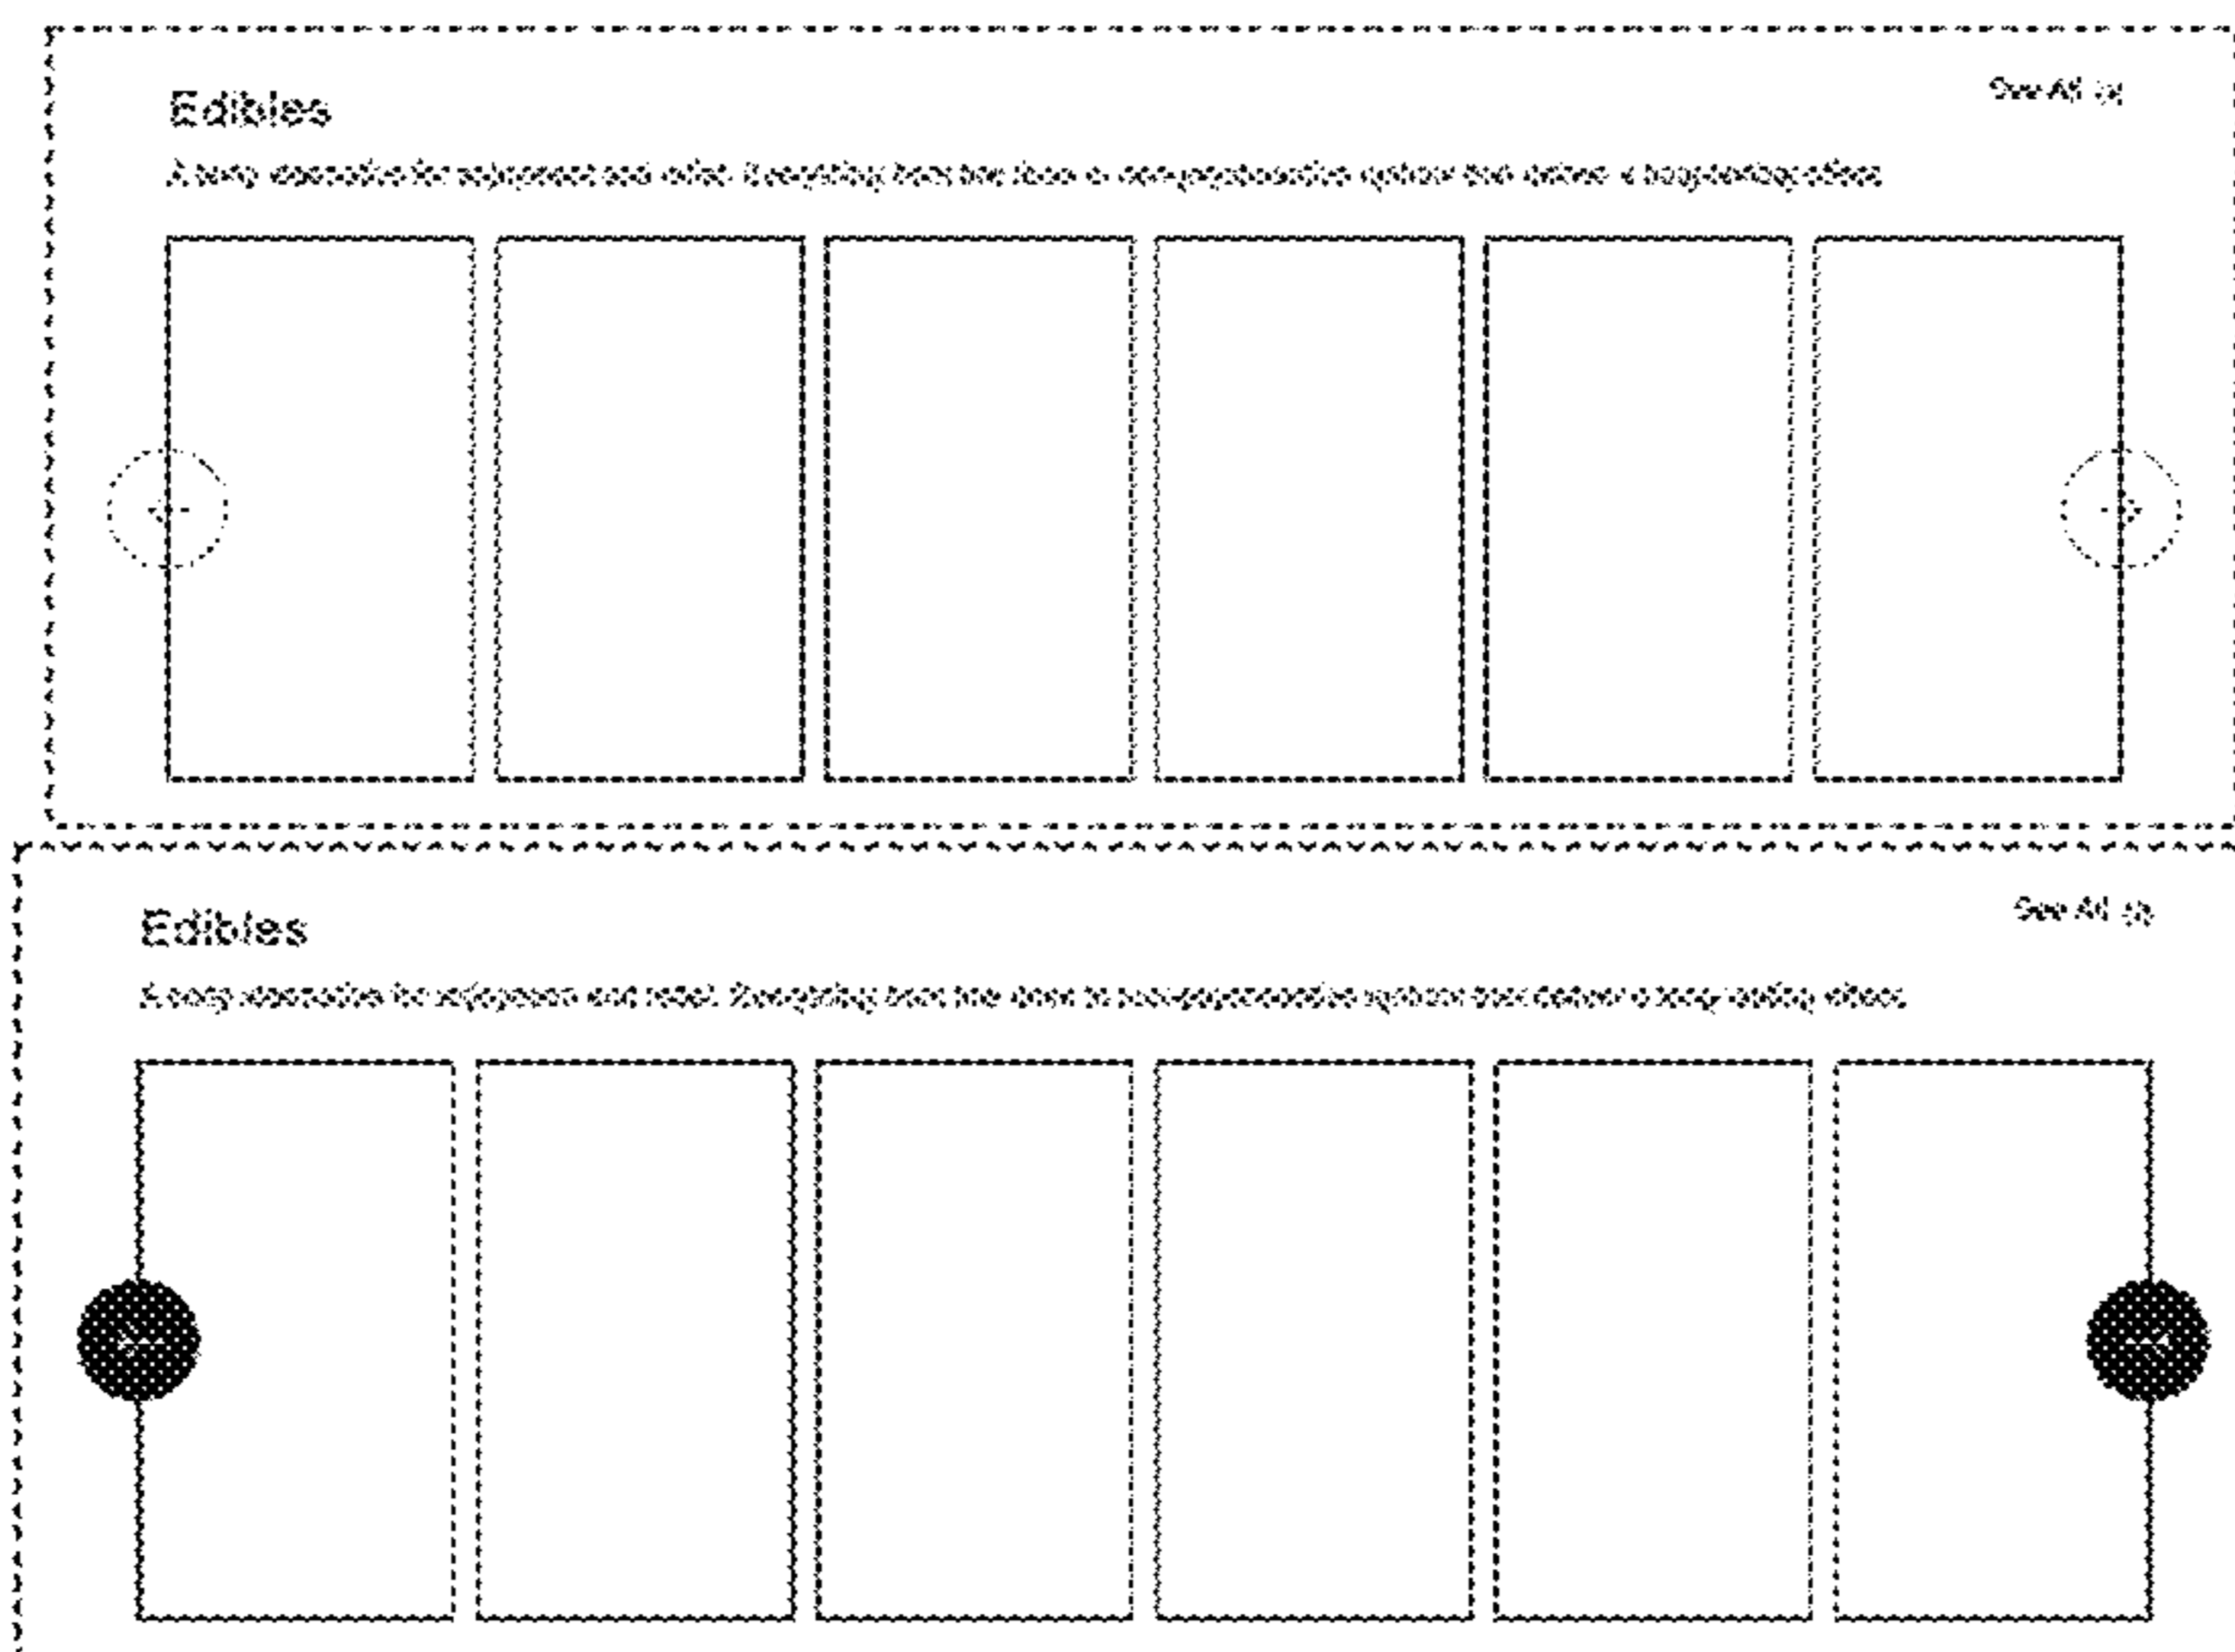

FIG. 1 is a front view of a portion of a display screen with a transitional carousel graphical user interface for display of edible cannabis items; and,

FIG. 2 is a front view of a second image thereof.

The broken line showing of a portion of a display screen with graphical user interface is included for the purpose of showing portions of the article which form no part of the claim.

The subject matter in this patent includes a process or period in which an image changes into another image. This process or period forms no part of the claimed design.
