(57) **CLAIM**

The ornamental design for a display screen or portion thereof with graphical user interface, as shown and described.

DESCRIPTION

The FIGURE is a front view of a display screen or portion thereof with graphical user interface showing the claimed design.

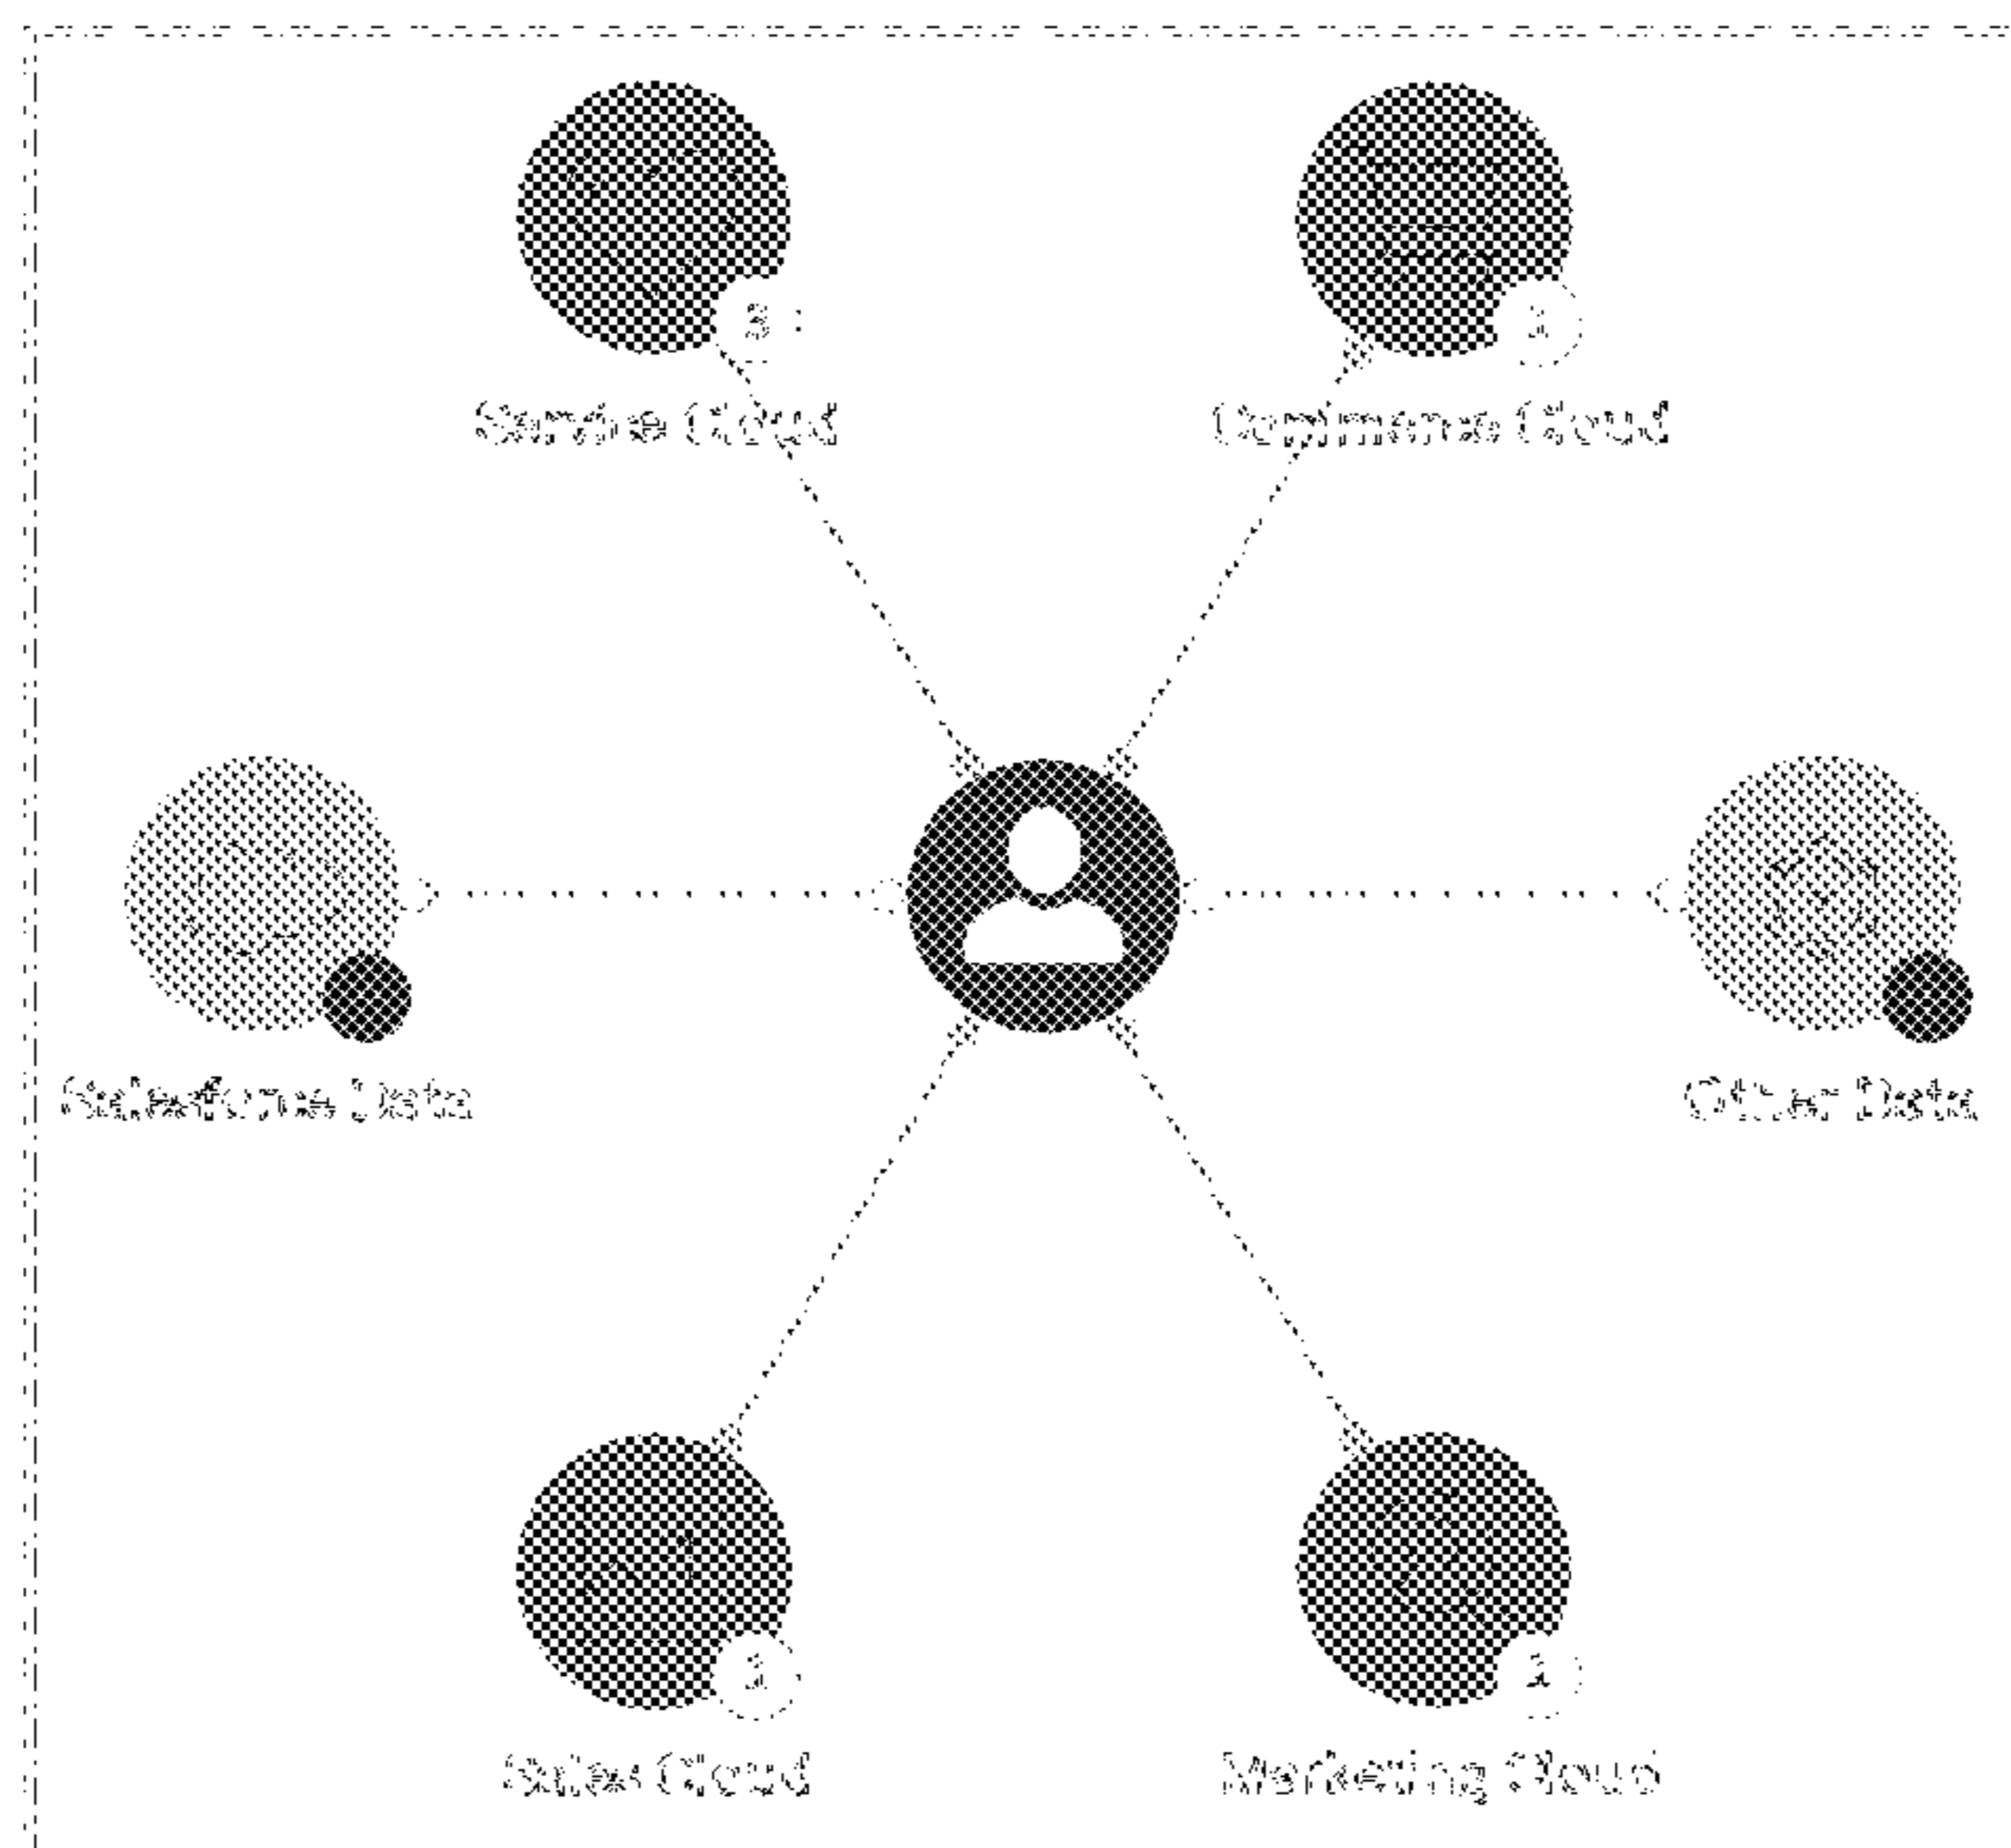

The outermost broken lines in the FIGURE show a display screen or portion thereof, and form no part of the claimed design.

The dot-dash broken lines in the FIGURE show boundaries or portions of the graphical user interface that form no part of the claimed design.

The FIGURE is illustrated to show contrasting appearance. Areas of the display screen or portion thereof with graphical user interface that appear in different shades of gray represent areas with contrasting appearances.

The display screen or portion thereof with graphical user interface may be, for example, a computer, tablet or mobile device with display function.
