(57) **CLAIM**

The ornamental design for an anastomotic hole generating device, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the anastomotic hole generating device of the present invention;
FIG. 2 is a top plan view of the anastomotic hole generating device of the present invention;
FIG. 3 is a bottom plan view of the anastomotic hole generating device of the present invention;
FIG. 4 is a front side elevational view of the anastomotic hole generating device of the present invention (the back side elevational view is a mirror image of the front side elevational view); and,
FIG. 5 is a right side elevational view of the anastomotic hole generating device of the present invention (the left side elevational view is a mirror image of the right side elevational view).
