FIG. 1 is a top, front, right perspective view of a first embodiment of a tire, showing our new design, it being understood that the tread pattern is repeated uniformly throughout the circumference of the tire;
FIG. 2 is a front elevation view thereof;
FIG. 3 is a rear elevation view thereof;
FIG. 4 is a left side view thereof;
FIG. 5 is a right side view thereof;
FIG. 6 is an enlarged front perspective portion of the tire, as indicated by the bracketed portion in FIG. 1;
FIG. 7 is a top, front, right perspective view of a second embodiment of a tire, showing our new design, it being understood that the tread pattern is repeated uniformly throughout the circumference of the tire;
FIG. 8 is a front elevation view thereof;
FIG. 9 is a rear elevation view thereof;
FIG. 10 is a left side view thereof;
FIG. 11 is a right side view thereof; and,
FIG. 12 is an enlarged front perspective portion of the tire, as indicated by the bracketed portion in FIG. 7.

The portions depicted in broken lines of uneven length define the unclaimed boundary of the claimed design. The portions in broken lines of even length depict portions of the tire that form no part of the claimed design.
