(57) **CLAIM**

The ornamental design for a cordless hand scanner, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a cordless hand scanner in accordance with our new design;
FIG. 2 is a first end view thereof;
FIG. 3 is an opposite end view thereof;
FIG. 4 is a side view of the cordless hand scanner, the other side being a mirror image;
FIG. 5 is a top view thereof; and,
FIG. 6 is a bottom view thereof.
In FIGS. 1-6, broken lines and unshaded portions contained within broken lines depict portions of the cordless hand scanner that form no part of the claimed design. Fine stipple shading (stippling) figurative effects are meant to portray the illusion of varying degrees of surface shadow and thereby to show the contour of the surfaces, without claiming any particular pattern, texture, or color. Perspective views are not drawn to scale.
