(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

The file of this patent contains at least one drawing executed in color. Copies of this patent with color drawings will be provided by the Office upon request and payment of the necessary fee.

The FIGURE is a front view of display screen with graphical user interface showing our new design.

The outer peripheral broken lines show the display screen and form no part of the claimed design. The gray tone area between the outer broken lines and the inner broken lines shows portions of the display screen with graphical user interface that form no part of the claimed design. The areas within the dash-dot broken lines show portions of the graphical user interface that form no part of the claimed design.
