(57) **CLAIM**

The ornamental design for a pocket-in-pocket operating room counting container, as shown and described.

**DESCRIPTION**

FIG. 1 is a front view of the pocket-in-pocket operating room counting container showing 5 rows of bags and holes at the top thereof for mounting of my new design.

FIG. 2 is a back side view of the pocket-in-pocket operating room counting container shown in FIG. 1 as my new design.

FIG. 3 is cross sectional view taken along line 3-3 of FIG. 1.

FIG. 4 is a top side view of FIG. 1; and, FIG. 5 is a right side view of FIG. 1. The left side view would be similar.

Pocket-in-pocket operating room counting container shows a multiple of pockets. If the larger pockets are used, there are five pockets, one per row. If the smaller pockets are used, there are ten pockets, two per row. The clear plastic walls are sealed or glued together. In the present embodiment, all plastic is clear.
