(57) **CLAIM**

The ornamental design for a case for mobile communications device, as shown and described.

DESCRIPTION

FIG. 1 is a top, front and left side perspective view of a case for mobile communications device in accordance with my new design, with a front cover thereof in a closed orientation and a telescopic handle thereof in an angled, extended state; FIG. 2 is a bottom, rear and right side perspective view thereof;

FIG. 3 is a front elevational view thereof;

FIG. 4 is a rear elevational view thereof;

FIG. 5 is a right side elevational view thereof;

FIG. 6 is a left side elevational view thereof

FIG. 7 is a top plan view thereof;

FIG. 8 is a bottom plan view thereof;

FIG. 9 is a top, front and left side perspective view thereof, with the telescopic handle in a straight down, extended state; and,

FIG. 10 is a rear elevational view thereof, with the telescopic handle in a collapsed, storage state.

The dash-dot broken lines in the drawing figures represent boundaries of the claimed design. The dash-dash broken lines in the drawing figures depict portions of the case for mobile communications device that form no part of the claimed design. The broken lines and the regions bounded by the broken lines form no part of the claimed design.

The oblique three-line clusters with a left-to-right upward trajectory shown in FIGS. 1, 3 and 9 indicate transparency of the respective surface, whereas the oblique three-line clusters with a left-to-right downward trajectory shown in FIGS. 1, 3 and 9 indicate reflectivity of the respective surface.

1 Claim, 10 Drawing Sheets
