(57) **CLAIM**

The ornamental design for a plastic bag with textured strip, as shown and described.

DESCRIPTION

FIG. 1 is a front elevation of a plastic bag of the present invention, the plastic bag having two textured strips, the rear elevation being a mirror image thereof;

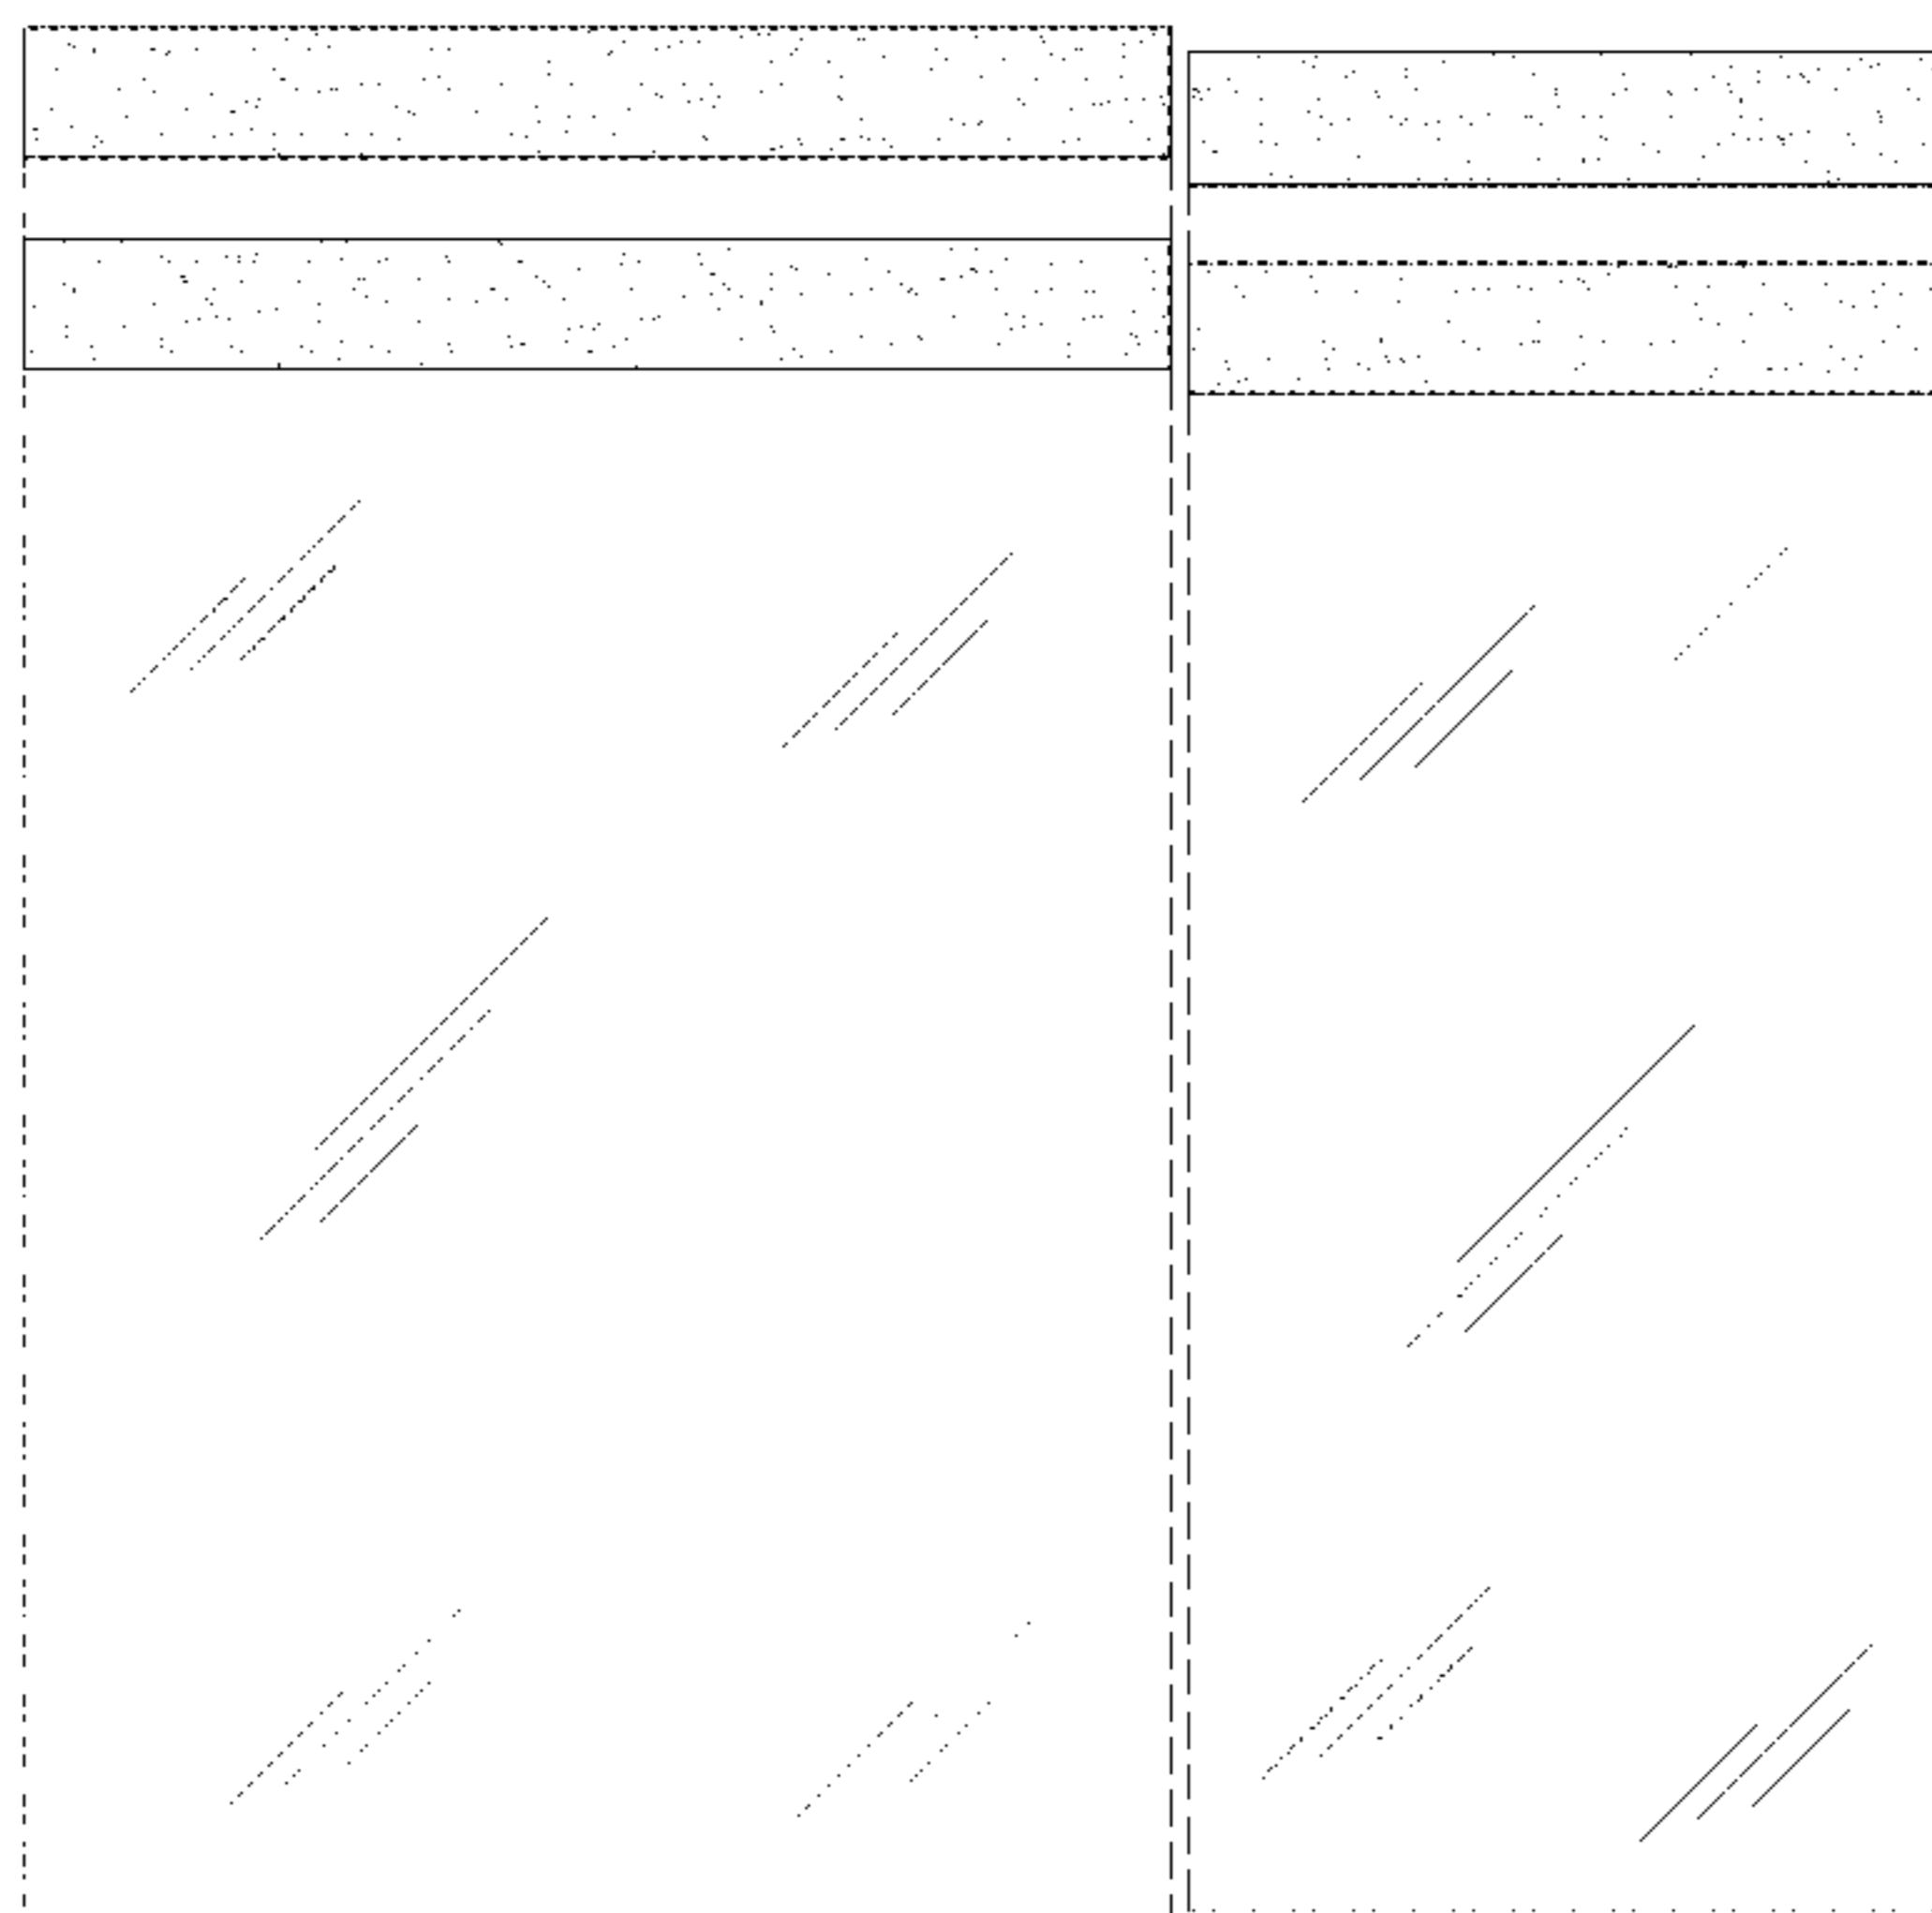

FIG. 2 is a bottom plan;
 FIG. 3 is a top plan;
 FIG. 4 is a right side elevation;
 FIG. 5 is a left side elevation;
 FIG. 6 is a front elevation of a second embodiment of the invention, the plastic bag having two textured strips, the rear elevation being a mirror image thereof;
 FIG. 7 is a front elevation of a third embodiment of the invention, the plastic bag having two textured strips, the rear elevation being a mirror image thereof;
 FIG. 8 is a front elevation of a fourth embodiment of the invention, the plastic bag having two textured strips, the rear elevation being a mirror image thereof;
 FIG. 9 is a front elevation of a fifth embodiment of the invention, the plastic bag having two textured strips, the rear elevation being a mirror image thereof;
 FIG. 10 is a front elevation of a sixth embodiment of the invention, the plastic bag having two textured strips, the rear elevation being a mirror image thereof;
 FIG. 11 is a front elevation of a seventh embodiment of the invention, the plastic bag having two textured strips, the rear elevation being a mirror image thereof;
 FIG. 12 is a front elevation of an eighth embodiment of the invention, the plastic bag having two textured strips, the rear elevation being a mirror image thereof; and,
 FIG. 13 is a front elevation of a ninth embodiment of the invention, the plastic bag having two textured strips, the rear elevation being a mirror image thereof.

The shading in FIGS. 1-13 depicts a texture contrast consonant with the visual appearance shown in these drawings. In FIG. 1, a front panel and a rear panel of the plastic bag are transparent, and a strip of the plastic bag has stippling to show that it has a different texture, and therefore a texture contrast is depicted between the textured strip and the remainder of the bag.

The top, bottom, left, and right views of the alternative embodiments in FIGS. 6-13 are as shown in FIGS. 2-5, except that the plastic bag has the strips shown in the embodiments of FIGS. 6-13, respectively.

The broken lines define the bounds of the claimed design and form no part thereof.

1 Claim, 12 Drawing Sheets
