(57) **CLAIM**

The ornamental design for a display panel with graphical user interface display sequence, as shown and described.

**DESCRIPTION**

FIG. 1 is the first image of a display panel with graphical user interface display sequence showing our new design; FIG. 2 is the second image thereof; and, FIG. 3 is a top perspective view of the display panel with the first image on a beverage dispenser.

The dash-dash broken lines in FIGS. 1-2 represent portions of the display panel with user interface that form no part of the claimed design. The dot-dash broken lines represent a display panel or portion thereof, and form no part of the claimed design. The additional dash-dash broken lines in FIG. 3 represent environmental subject matter of a beverage dispenser, and form no part of the claimed design. The display panel may be a display screen, a display panel with the wine glass images being illuminable, or any other suitable display panel.

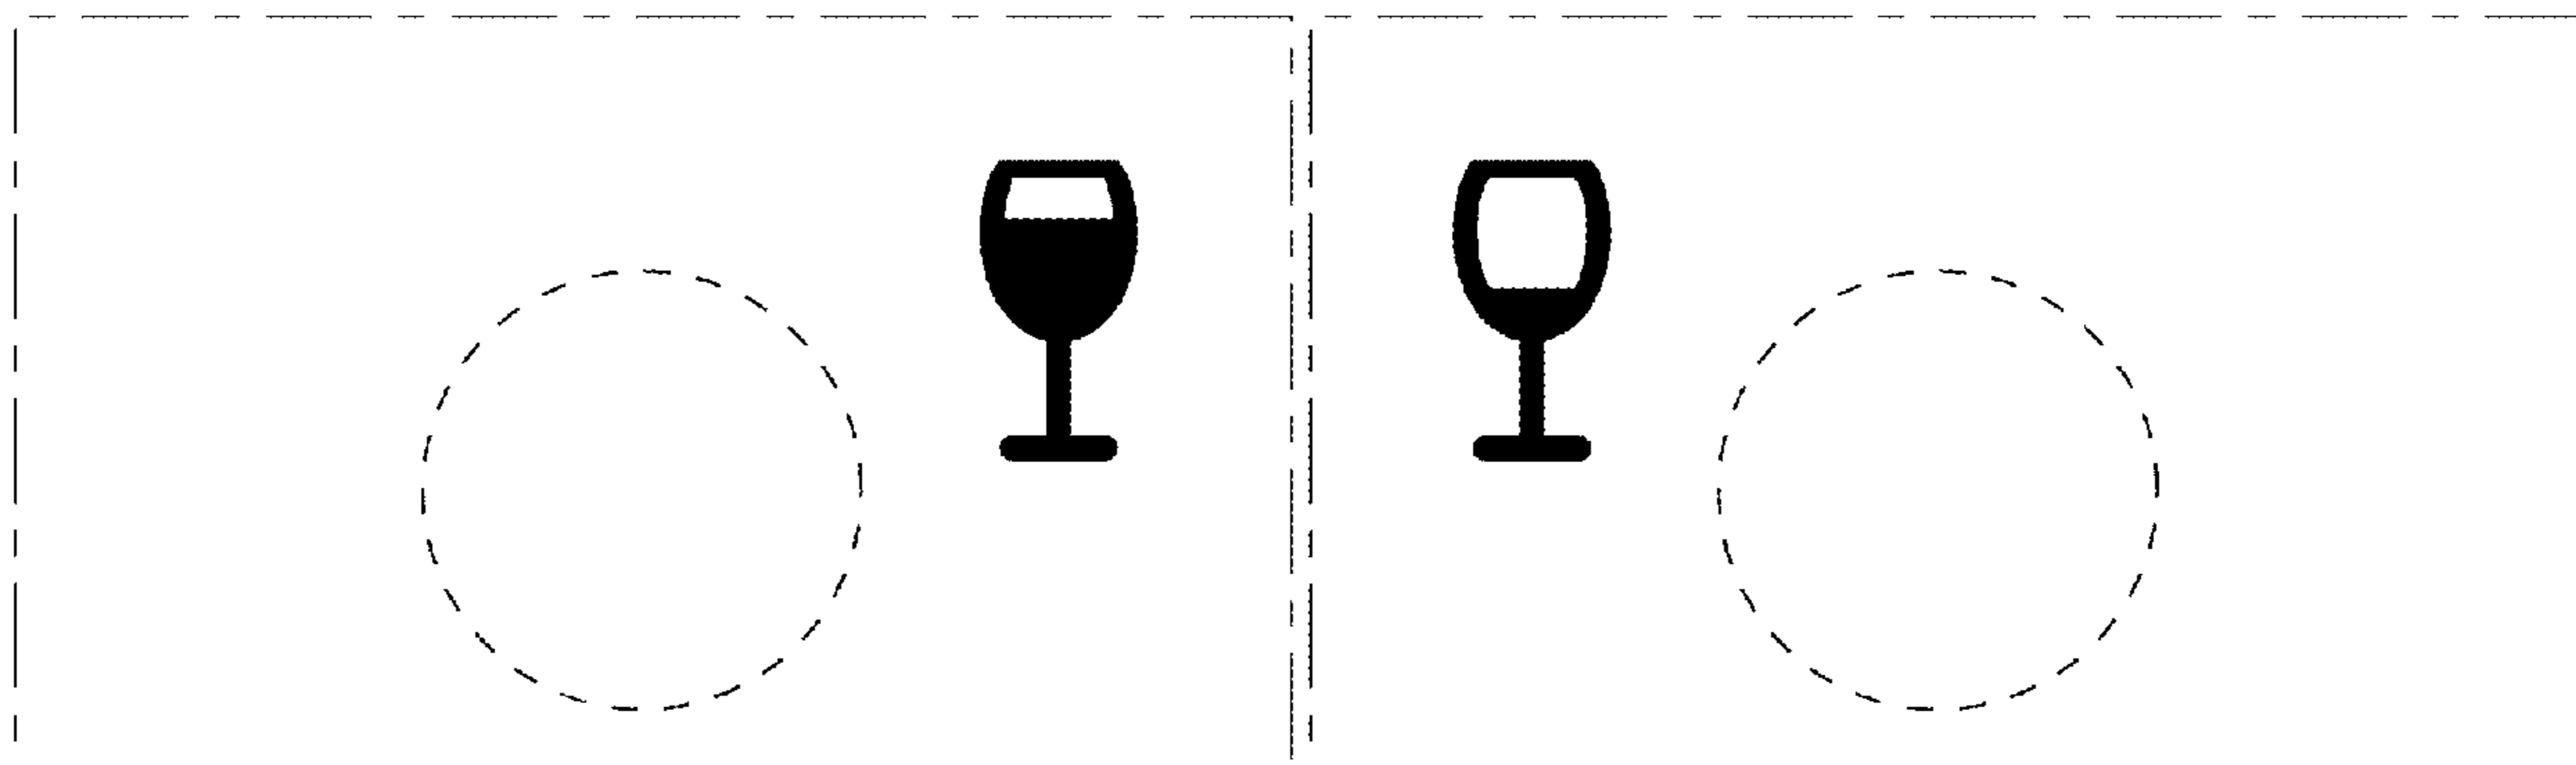

The appearance of the image transitions sequentially between the images shown. The process or period in which one image transitions to another forms no part of the claimed design.
