(57) **CLAIM**

The ornamental design for a display screen or portion thereof with transitional graphical user interface, substantially as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen or portion thereof with transitional graphical user interface showing a first screen of a series in accordance with our new design; FIG. 2 is a second image thereof; and, FIG. 3 is a third image thereof.
The broken lines showing a portion of a display screen forms no part of the claimed design.
The appearance of the graphical user interface sequentially transitions between the images shown in FIGS. 1-3. The process or period in which one image transitions to another image forms no part of the claimed design.
