(57) **CLAIM**

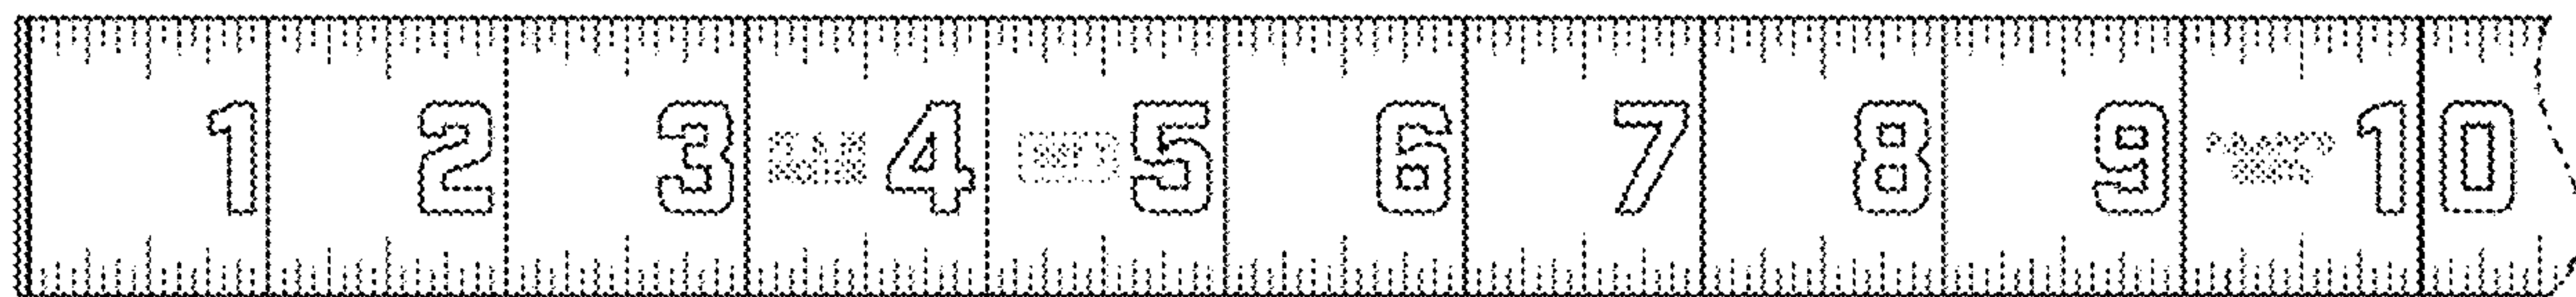

The ornamental design for measuring tape blade graphics, as shown and described.

DESCRIPTION

FIG. 1 is a top plan view of a first portion of a measuring tape with fractional markings and corresponding numbering scheme illustrating the measuring tape blade graphics; FIG. 2 is a top plan view of a second portion of a measuring tape with fractional markings and corresponding numbering scheme illustrating the measuring tape blade graphics; FIG. 3 is a top plan view of a third portion of a measuring tape with fractional markings and corresponding numbering scheme illustrating the measuring tape blade graphics; FIG. 4 is a top plan view of a fourth portion of a measuring tape with fractional markings and corresponding numbering scheme illustrating the measuring tape blade graphics; FIG. 5 is a bottom plan view of the first portion of a measuring tape with fractional markings and corresponding numbering scheme illustrating the measuring tape blade graphics; FIG. 6 is a bottom plan view of the second portion of a measuring tape with fractional markings and corresponding numbering scheme illustrating the measuring tape blade graphics; FIG. 7 is a bottom plan view of the third portion of a measuring tape with fractional markings and corresponding numbering scheme illustrating the measuring tape blade graphics; and, FIG. 8 is a bottom plan view of the fourth portion of a measuring tape with fractional markings and corresponding numbering scheme illustrating the measuring tape blade graphics.

The dashed lines of the measuring tape blade graphics in FIGS. 1-8 form no part of the claimed design. The dot-dashed lines at ends of the measuring tape in FIGS. 1-8 illustrate borders to portions of the measuring tape that have been omitted for ease of illustration.

1 Claim, 8 Drawing Sheets
