This invention was made with government support under contract number HDTRA1-17-C-0011 awarded by the Defense Threat Reduction Agency and grant number W81XWH-17-1-0694 awarded by the U.S. Army Medical Research Acquisition Activity. The government has certain rights in the invention.

FIG. 1 is a front perspective view of a diagnostic instrument showing our new design;
FIG. 2 is a front view thereof;
FIG. 3 is a right side view thereof;
FIG. 4 is a left side thereof;
FIG. 5 is a top view thereof;
FIG. 6 is a back view thereof; and,
FIG. 7 is a bottom view thereof.

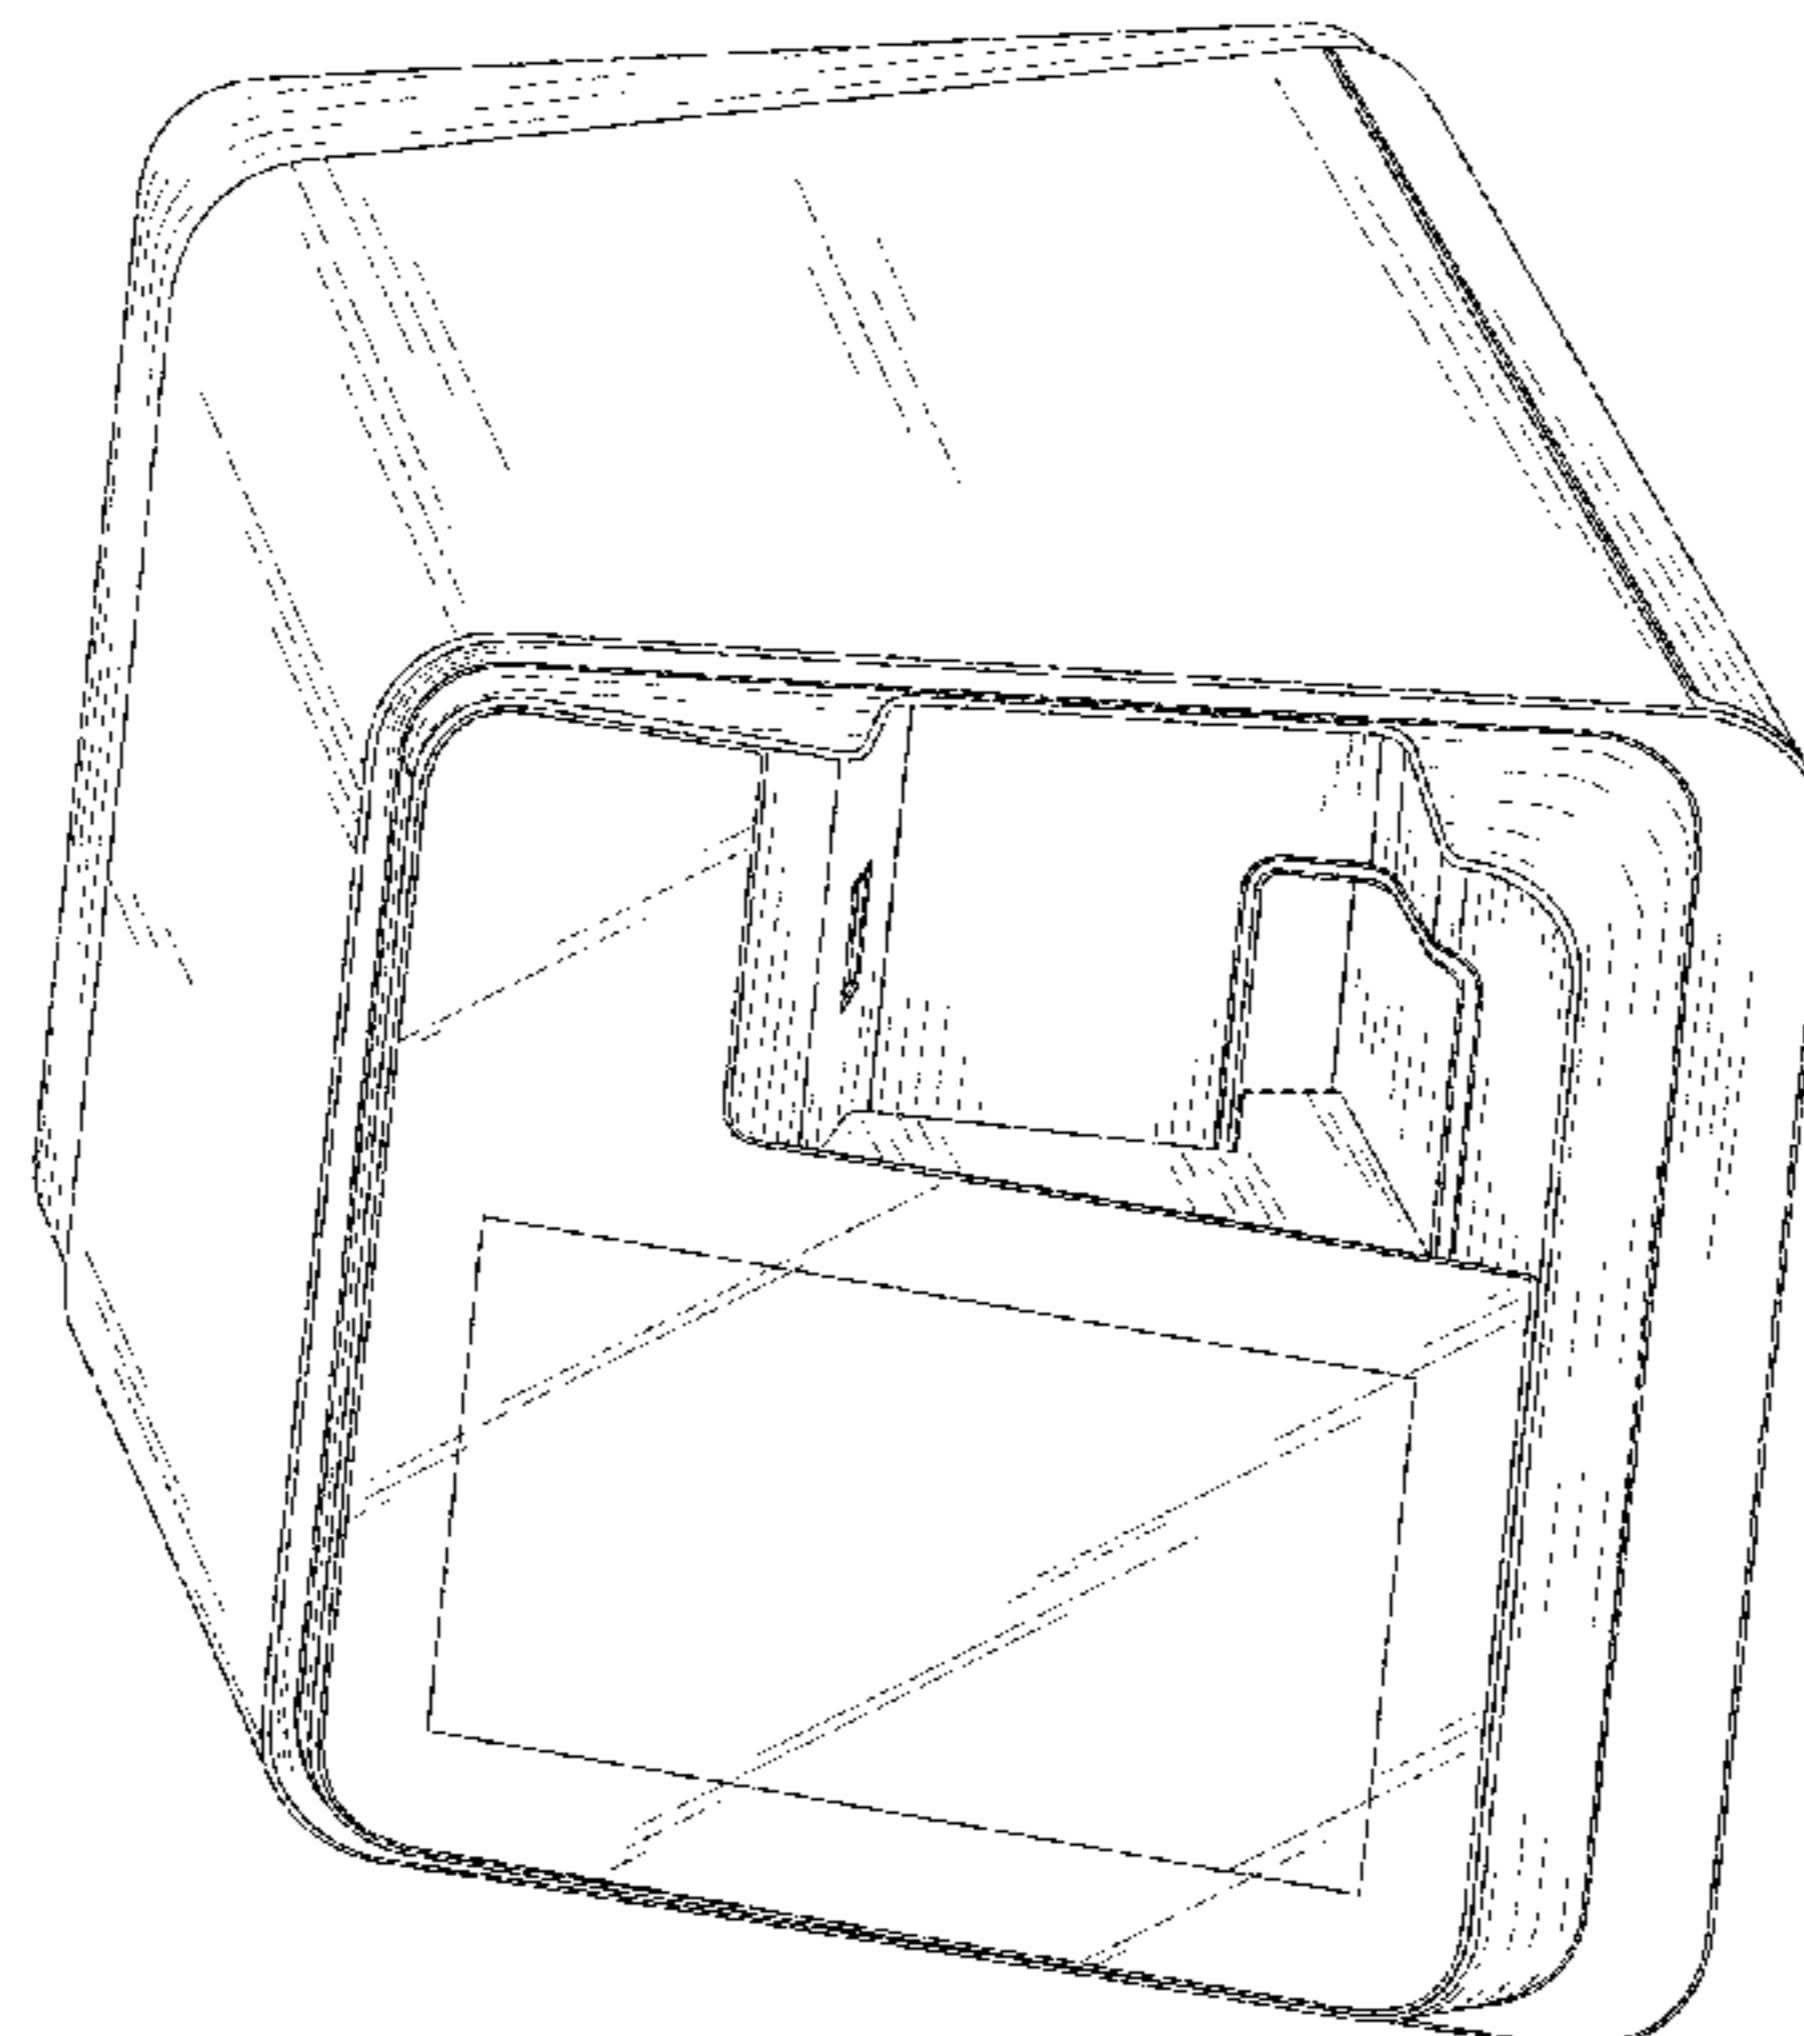

The broken lines depict portions of the diagnostic instrument that do not form part of the claimed design.
