(57) **CLAIM**

The ornamental design for a display screen or portion thereof with transitional graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen or portion thereof with transitional graphical user interface showing a first image in a first embodiment of the claimed design; FIG. 2 is a front view showing a second image of the first embodiment; FIG. 3 is a front view showing a third image of the first embodiment; FIG. 4 is a front view of a first image in a second embodiment of the claimed design; FIG. 5 is a front view showing a second image of the second embodiment; FIG. 6 is a front view showing a third image of the second embodiment; FIG. 7 is a front view showing a fourth image of the second embodiment. FIG. 8 is a front view of a first image in a third embodiment of the claimed design; FIG. 9 is a front view showing a second image of the third embodiment; FIG. 10 is a front view showing a third image of the third embodiment; FIG. 11 is a front view of a first image in a fourth embodiment of the claimed design; FIG. 12 is a front view showing a second image of the fourth embodiment; FIG. 13 is a front view showing a third image of the fourth embodiment; and, FIG. 14 is a front view showing a fourth image of the fourth embodiment.

The appearance of the transition is sequential from FIG. 1 to FIG. 3 in the first embodiment, from FIG. 4 to FIG. 7 in the second embodiment, from FIG. 8 to FIG. 10 in the third embodiment, and from FIG. 11 to FIG. 14 in the fourth

(Continued)

embodiment. The process or period in which an image transitions to another image forms no part of the claimed design.

The longer-length broken-line showing of a display screen and the intermediate-length broken-line showing of a display screen boundary, are included for the purpose of illustrating environmental structure and form no part of the claimed design. The remaining broken lines show elements of the graphical user interface that form no part of the claimed design.
