The ornamental design for a wheel for an automobile, as  
shown and described.

**DESCRIPTION**

FIG. 1 is a front elevational view of a wheel for an  
automobile in accordance with my new design;  
FIG. 2 is a rear elevational view thereof;  
FIG. 3 is a top plan view thereof;  
FIG. 4 is a bottom plan view thereof;  
FIG. 5 is a left side elevational view thereof;  
FIG. 6 is a right side elevational view thereof; and,  
FIG. 7 is a front side perspective view thereof.

The inside surfaces of the wheel, shown in broken lines in  
FIGS. 2 and 7, form no part of the claimed design since the  
inside surfaces are hidden when the wheel is mounted to the  
automobile.

A second embodiment of my new design includes the mirror  
image of the wheel shown in FIGS. 1 to 7.
