US00D889758S

(12) United States Design Patent

Van Curen et al.

(10) Patent No.: US D889,758 S
(45) Date of Patent: ** Jul. 7, 2020

(54) **ANIMAL TRAINING TRANSMITTER**

(71) Applicant: **E-Collar Technologies, Inc.**, Garrett, IN (US)

(72) Inventors: **Greg Van Curen**, Fremont, IN (US); **Ho-Sung So**, Seoul (KR)

(73) Assignee: **E-Collar Technologies, Inc.**, Garrett, IN (US)

(**) Term: **15 Years**

(21) Appl. No.: **29/683,627**

(22) Filed: **Mar. 14, 2019**

(51) **LOC (12) Cl.** **30-99**

(52) **U.S. Cl.**
USPC **D30/199**; D10/104.1

(57) **CLAIM**

The ornamental design for an animal training transmitter, as shown and described.

DESCRIPTION

FIG. **1** is a perspective view of an animal training transmitter according to the present invention;
FIG. **2** is a front view of an animal training transmitter according to the present invention;
FIG. **3** is a rear view of an animal training transmitter according to the present invention;
FIG. **4** is a left side view of an animal training transmitter according to the present invention;
FIG. **5** is a right side view of an animal training transmitter according to the present invention;
FIG. **6** is a top view of an animal training transmitter according to the present invention; and,
FIG. **7** is a bottom view of an animal training transmitter according to the present invention.

The animal training transmitter of this design is made of metal and synthetic resin. The animal training transmitter of this design transmits a control signal to allow a wirelessly connected receiver to generate a stimulation with an aim of training an animal. The animal training transmitter of this design is mainly used to train a dog.

1 Claim, 5 Drawing Sheets
