(57) **CLAIM**

The ornamental design for a tin for packaging purpose, as shown and described.

DESCRIPTION

- 1. Tin for packaging purpose
- 1.1 is a front view;
- 1.2 is a top perspective view;
- 1.3 is an open front view;
- 1.4 is an open top view;
- 1.5 is a front exploded view;
- 1.6 is an open front exploded view; and
- 1.7 is a top open exploded view.

The lower container is a rotationally symmetrical shell with overstretched side surfaces that open upwards; a thread for the lid is provided at the upper edge of the shell; the upper container is a rotationally symmetrical lid suitable for the tray, the edge surfaces of which are raised towards the top; this elevation is closed by a hinged lid surface; a film hinge is attached to the rear part for this purpose; the container and lid together form a homogeneous and self-contained shape with a rounded planar lid surface.
