CLAIM

The ornamental design for a display panel of an electronic navigation device with a graphical user interface, as shown and described.

DESCRIPTION

The file of this patent contains at least one drawing or photograph executed in color. Copies of this patent with color drawings/photographs will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view of a first embodiment of a first image in a sequence for a display panel of an electronic navigation device with a graphical user interface;

FIG. 2 is a second image thereof;

FIG. 3 is a third image thereof;

FIG. 4 is a fourth image thereof;

FIG. 5 is a front view of a second embodiment of a first image in a sequence for a display panel of an electronic navigation device with a graphical user interface;

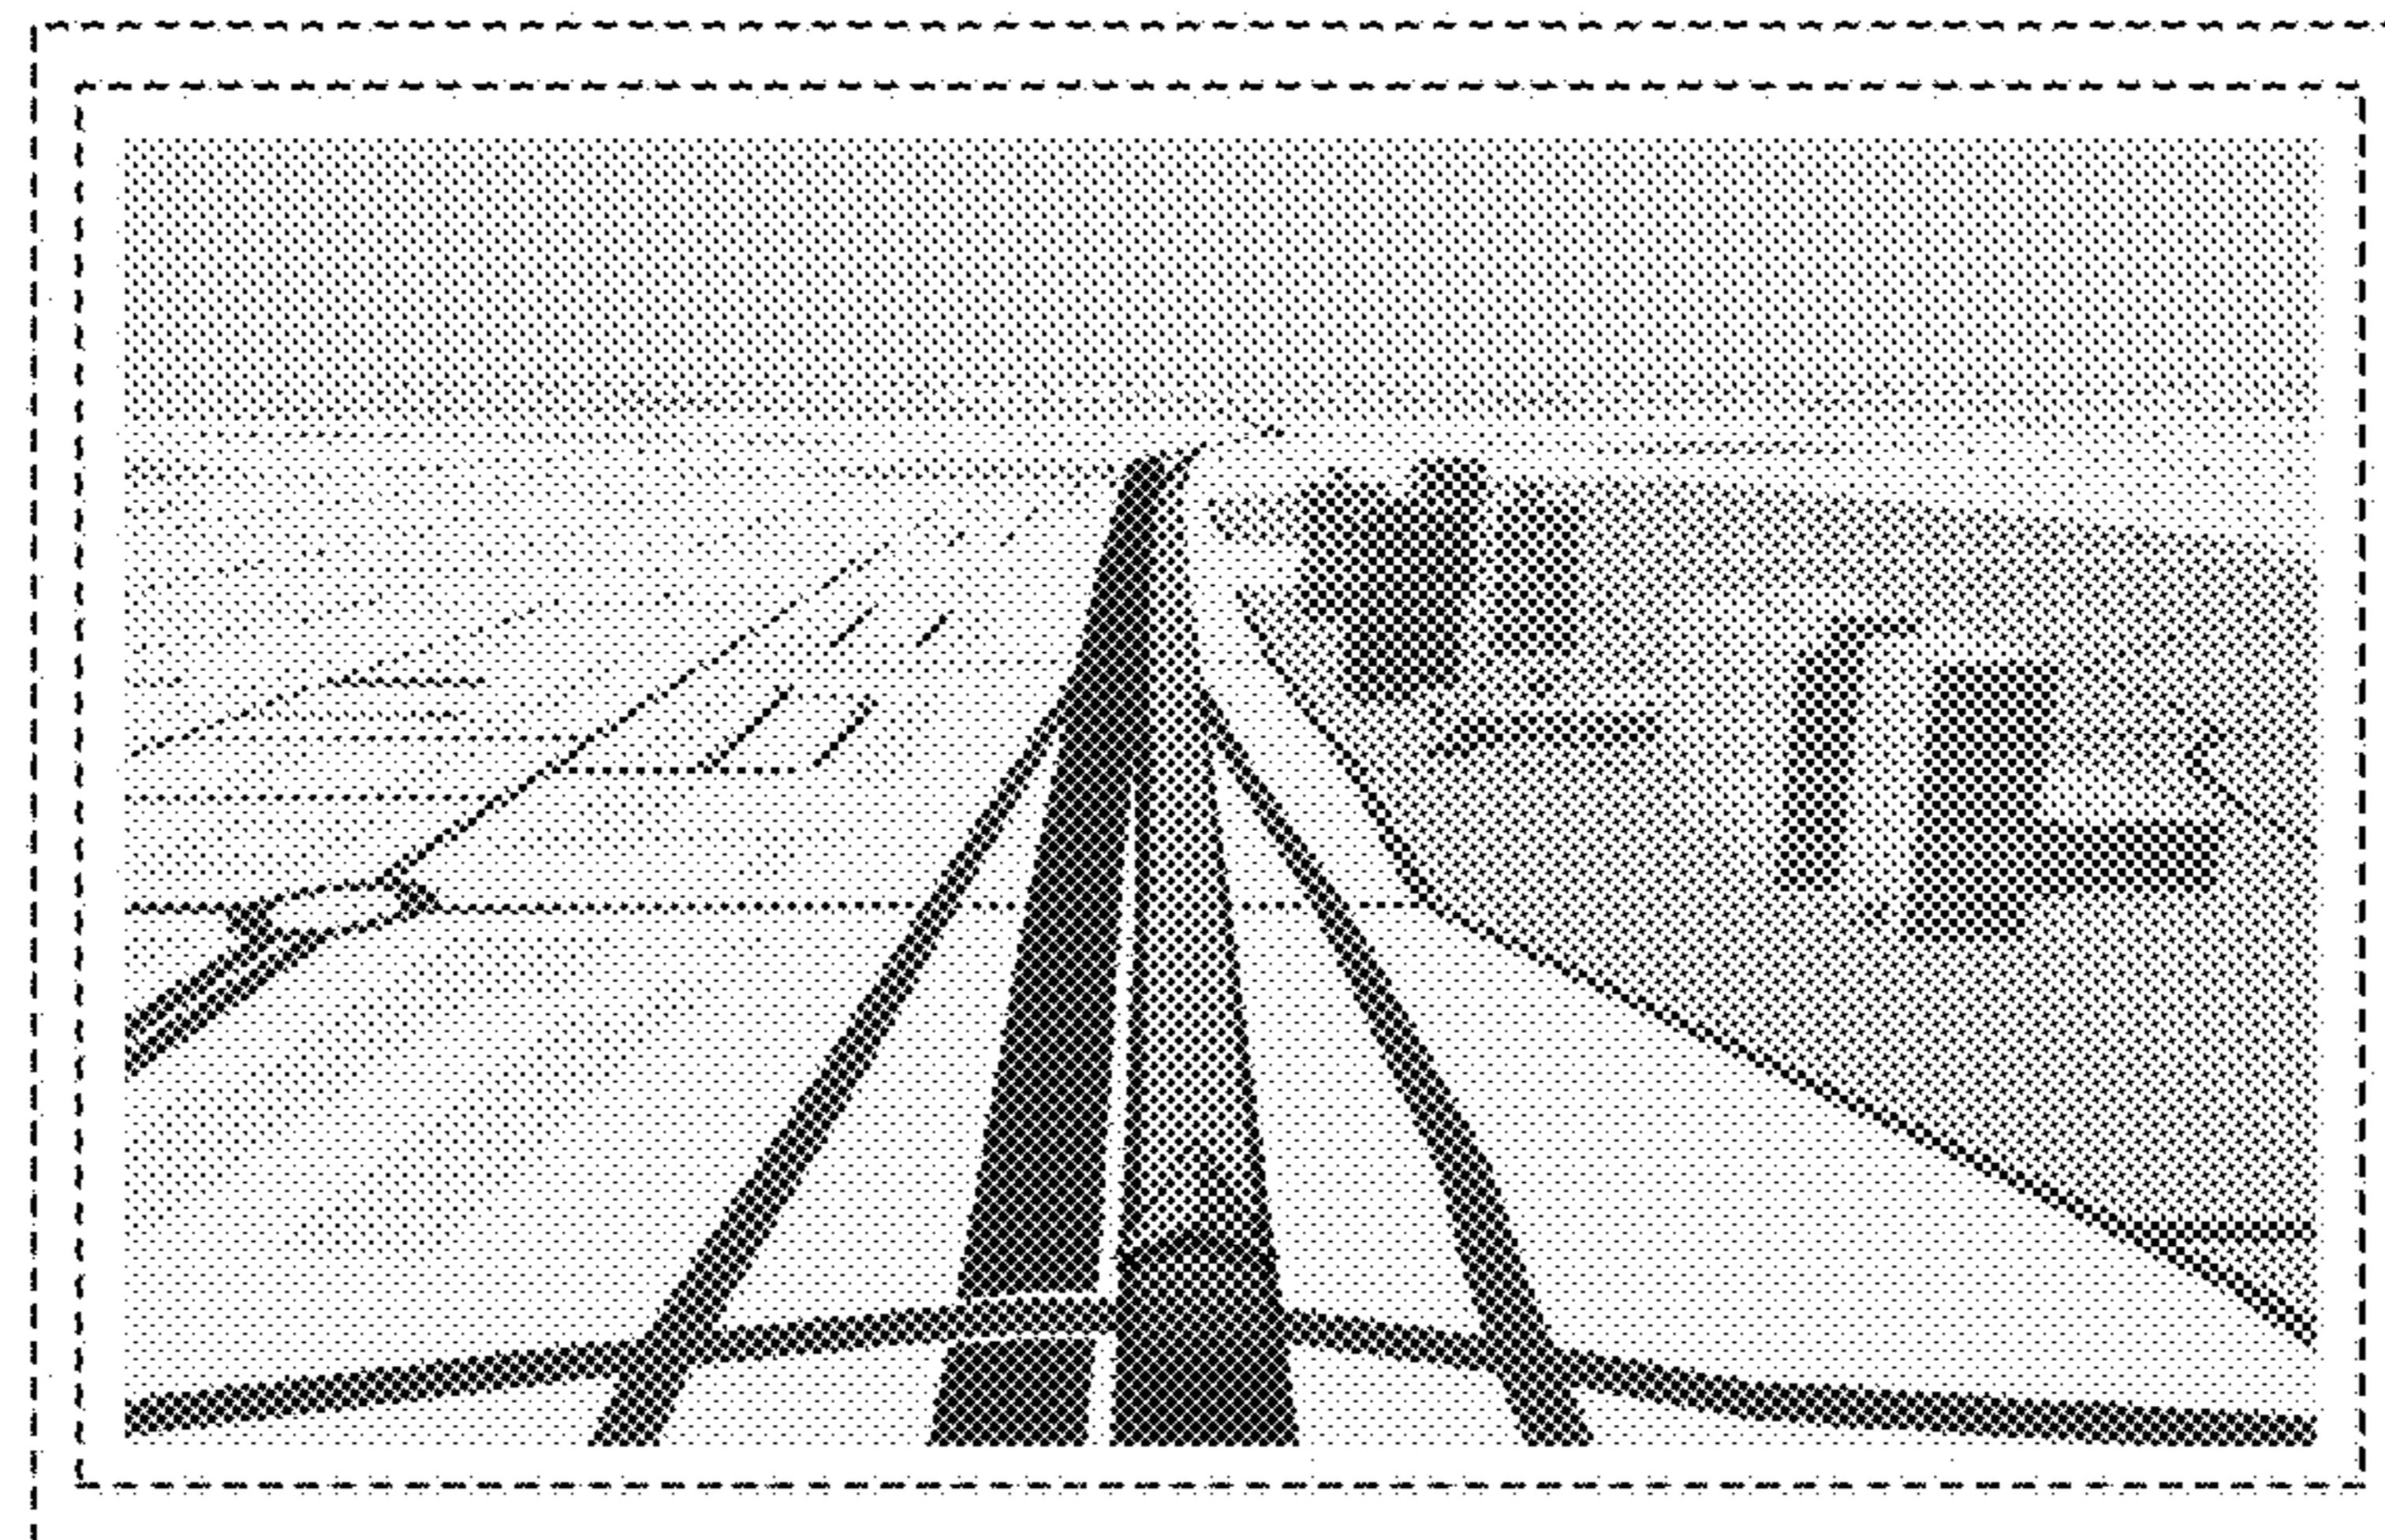

FIG. 6 is a second image thereof;

FIG. 7 is a third image thereof; and,

FIG. 8 is a fourth image thereof.

The appearance of the graphical user interface transitions sequentially between the images shown in FIGS. 1-4 in the first embodiment and FIGS. 5-8 in the second embodiment. The process or period in which one image transitions to another forms no part of the claimed design.

The outermost broken lines showing an electronic device illustrate environmental subject matter, whereas the broken lines showing a display panel and elements of the graphical user interface illustrate portions of the article. No subject matter depicted in broken lines form part of the claimed design.
