(57) **CLAIM**

An ornamental design for an display screen or portion thereof with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen or portion thereof with animated graphical user interface showing a first image in a sequence of images showing the new design.
FIG. 2 is a front view of a display screen or portion thereof with animated graphical user interface showing a second image in the sequence of images showing the new design; and,
FIG. 3 is a front view of a display screen or portion thereof with animated graphical user interface showing a third image in the sequence of images showing the new design. The outer broken lines in the Figures show a display screen or a portion thereof that forms no part of the claimed design. The inner broken lines in the Figure show portions of the graphical user interface that form no part of the claimed design.
The appearance of the images sequentially transitions between the images shown in FIGS. 1-3. The process or period in which one image transitions to another forms no part of the claimed design.
