

US00D890898S

(12) **United States Design Patent** (10) **Patent No.:** **US D890,898 S**
Nibbelink et al. (45) **Date of Patent:** **** Jul. 21, 2020**

(54) **DEVICE FOR PRODUCING
NON-HYDRATED PURIFIED HYDROGEN
PEROXIDE GAS**

(71) Applicant: **Synexis LLC**, Kansas City, MO (US)

(72) Inventors: **Garrett Nibbelink**, Overland Park, KS (US); **Brandon Lager**, Olathe, KS (US); **Pedro Bermudez**, Olathe, KS (US); **James D. Lee**, Kansas City, MO (US); **Douglas J. Bosma**, Armonk, NY (US)

(73) Assignee: **Synexis LLC**, Kansas City, MO (US)

(**) Term: **15 Years**

(21) Appl. No.: **29/635,531**

(22) Filed: **Jan. 31, 2018**

Related U.S. Application Data

(63) Continuation-in-part of application No. 15/866,208, filed on Jan. 9, 2018, and a continuation-in-part of application No. PCT/US2018/012984, filed on Jan. 9, 2018, and a continuation-in-part of application No. 15/866,198, filed on Jan. 9, 2018, now Pat. No. 10,285,382.

(51) **LOC (12) Cl.** **23-04**

(52) **U.S. Cl.**
USPC **D23/355**

CLAIM

The ornamental design for a device for producing non-hydrated purified hydrogen peroxide gas, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of one embodiment of a device for producing PHPG.

FIG. 2 is a second perspective view of the device of FIG. 1.

FIG. 3 is a front view of the device of FIG. 1.

FIG. 4 is a back view of device of FIG. 1.

FIG. 5 is a right hand side view of the device of FIG. 1.

FIG. 6 is a left hand side view of the device of FIG. 1.

FIG. 7 is a top view of the device of FIG. 1.

FIG. 8 a bottom view of the device of FIG. 1; and,

FIG. 9 is an exploded view of the device of FIG. 1 showing a filter, a fan unit, an adapter, and a DHP gas generating assembly for ease of illustration.

The broken lines show portions of the design that form no part of the claimed design.

Also, in reference to "perspective," "front," "back," "side," and "top" in the Figure Descriptions are not necessarily meant to require any specific orientation of the article as viewed. A device for producing PHPG according to the claimed design may be used in any orientation.
