CLAIM

The ornamental design for a case for electronic communications device, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a case for electronic communications device showing my new design;

FIG. 2 is a rear perspective view thereof;

FIG. 3 is a front elevational view thereof;

FIG. 4 is a rear elevational view thereof;

FIG. 5 is a left side elevational view thereof;

FIG. 6 is a right side elevational view thereof;

FIG. 7 is a top plan view thereof;

FIG. 8 is a bottom plan view thereof;

FIG. 9 is a front perspective view of the inner shell component of the case shown separately for clarity of disclosure;

FIG. 10 is a rear perspective view of the inner shell component of the case shown separately for clarity of disclosure;

FIG. 11 is a front perspective view of the outer frame component of the case shown separately for clarity of disclosure;

FIG. 12 is a rear perspective view of the outer frame component of the case shown separately for clarity of disclosure;

FIG. 13 is an exploded front perspective view showing the components of the case separated for clarity of disclosure;

FIG. 14 is an exploded rear perspective view showing the components of the case separated for clarity of disclosure; and

FIG. 15 is a rear perspective view of the case shown with the support leg in an extended position;

FIG. 16 is a front perspective view of the support leg component of the case shown separately for clarity of disclosure; and,

FIG. 17 is a rear perspective view of the support leg component of the case shown separately for clarity of disclosure.

Although the case for electronic communications device, in which the claimed design is embodied, consists of an inner shell component, an outer frame component, and a support leg component, the claim is directed to the overall ornamental appearance of the case for electronic communications device in its entirety and does not extend to the ornamental appearance of each of the individual components.

The broken lines throughout the drawing figures depict portions of the case that form no part of the claimed design. Except for the interior edges of the camera opening and support leg, the interior of the case shown in FIGS. 1, 3, 9, and 13 forms no part of the claimed design. The broken lines and regions bounded by broken lines form no part of the claimed design.
