DESCRIPTION

FIG. 1 is a front view of a display screen portion with a graphical user interface with center panel for augmented reality, showing the new design in a first embodiment; and, FIG. 2 is a perspective view of a display screen portion with a graphical user interface with center panel for augmented reality, rendered on a wearable display screen showing the new design in a second embodiment.

In FIG. 1 the outermost broken line indicates the display screen portion. All other broken lines in FIG. 1 shown show portions of the augmented reality graphical user interface. None of the broken lines form part of the claimed design. The three dot ellipses form no part of the claimed design. In FIG. 2, the rectangular broken line indicates the display screen portion and forms no part of the claimed design. All broken lines inside the display screen show in FIG. 2 show portions of the augmented reality graphical user interface, while all broken lines outside of the rectangular broken line show environment. None of the broken lines form part of the claimed design.

FIG. 1

FIG. 2

UNITED STATES PATENT AND TRADEMARK OFFICE
CERTIFICATE OF CORRECTION

PATENT NO. : D891,452 S
APPLICATION NO. : 29/658062
DATED : July 28, 2020
INVENTOR(S) : Brendan David Themes and Steven Paul Conrad

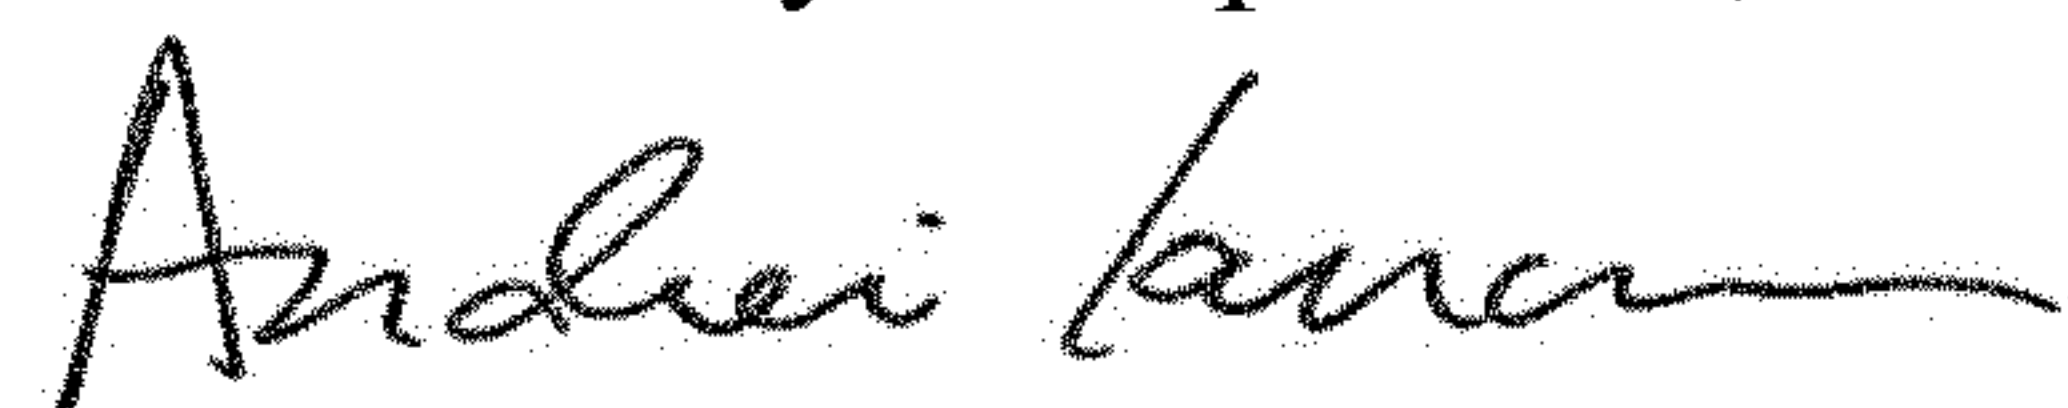

Page 1 of 1

It is certified that error appears in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

On the Title Page

In the Description, Lines 14-18, delete “All broken lines inside the display screen show in FIG. 2 show portions of the augmented reality graphical user interface, while all broken lines outside of the rectangular broken line show environment.” and replace with --All broken lines inside the display screen shown in FIG. 2 show portions of the augmented reality graphical user interface, while all broken lines outside of the rectangular broken line show environment.--

Signed and Sealed this
