(57) **CLAIM**

The ornamental design for a display screen with transitional graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of the first image in a sequence of a display screen with transitional graphical user interface, according to a first embodiment of the new design;

FIG. 2 shows the second image thereof;

FIG. 3 shows the third image thereof, and also shows a front view of the first image in a sequence according to a second embodiment of the new design;

FIG. 4 shows the second image thereof; and,

FIG. 5 shows the third image thereof.

Broken lines in the figures showing the display screen and portions of the graphical user interface are included for the purpose of illustrating portions of the article. The broken line showing of a portion of a hand are included for illustrating environmental subject matter. The broken lines form no part of the claimed design.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-3 in a first embodiment, and FIGS. 3-5 in a second embodiment. The process or period in which one image transitions to another image forms no part of the claimed design.

1 Claim, 5 Drawing Sheets
