(57) **CLAIM**

The ornamental design for a terminal device having a display screen with graphical user interface, as shown and described.

DESCRIPTION

The file of this patent contains at least one drawing executed in color. Copies of this patent with color drawings will be provided by the United States Patent and Trademark Office upon request and payment of the necessary fee.

FIG. 1 is a front view of a terminal device having a display screen with graphical user interface showing our new design; and,

FIG. 2 is an enlarged view of the area circumscribed by lines 2-2 in FIG. 1.

The outermost sharp-cornered broken-line rectangle in FIG. 1 illustrates the perimeter of the display screen of the terminal device. The broken lines outside this perimeter illustrate portions of the terminal device, whereas the broken lines within the perimeter illustrate features of a graphical user interface. The outermost broken-line border in FIG. 2 shows the perimeter of an enlarged area of the display screen in FIG. 1 that is circumscribed by the lines 2-2. The broken lines form no part of the claimed design.
