The ornamental design for an audio switcher, as shown and described.

DESCRIPTION

FIG. 1 is a front-right perspective view of an audio switcher according to the present invention, with a balanced input switcher and unbalanced switcher shown in environment. FIG. 2 is a front view of the audio switcher. FIG. 3 is a rear view of the audio switcher. FIG. 4 is a bottom view of the audio switcher. FIG. 5 is a top view of the audio switcher. FIG. 6 is a right side view of the audio switcher; and, FIG. 7 is a left side view of the audio switcher. The broken lines in FIGS. 1-7 illustrate portions of the audio switcher and environmental subject matter that form no part of the claimed design. The stipple shading and cross-hatch shading in FIGS. 1-2 represent contrast in color appearance, although no particular colors are claimed.
