The file of this patent contains at least one drawing/photograph executed in color. Copies of this patent with color drawing(s)/photograph(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a view of a display screen or a portion thereof with an animated graphical user interface;

FIG. 2 is a second view of the display screen or portion thereof with the animated graphical user interface;

FIG. 3 is a view of a second embodiment of a display screen or a portion thereof with an animated graphical user interface; and,

FIG. 4 is a second view of the second embodiment of the display screen or portion thereof with the animated graphical user interface.

The broken lines showing a display screen or a portion thereof in all views are for the purpose of illustrating environment and form no part of the claimed design. The appearance of the animated images sequentially transitions between the images shown in FIGS. 1-2, or FIGS. 3-4. The process or period in which one image transitions to another forms no part of the claimed design.

The size of the circle around the user icon in the top right corner of each successive image is the same as the size of the circle around the user icon in the previous image in a sequence. The top left corner of each successive image is at the same location as the top left corner of the previous image in a sequence.
