(57) **CLAIM**

The ornamental design for a combination tool for spreading materials, as shown and described.

DESCRIPTION

FIG. 1 is a rear perspective view of a combination tool for spreading materials showing our new design in a closed configuration;

FIG. 2 is a bottom plan view thereof;

FIG. 3 is another bottom plan view thereof, with a lock adjustment wheel feature shown in broken line in FIG. 2 removed from the housing body portion;

FIG. 4 is a top plan view thereof;

FIG. 5 is a left side elevational view thereof;

FIG. 6 is a right side elevational view thereof;

FIG. 7 is a front elevational view thereof;

FIG. 8 is a rear elevational view thereof;

FIG. 9 is a bottom plan view of the combination tool for spreading materials of FIG. 1 in an open configuration;

FIG. 10 is a top plan view thereof;

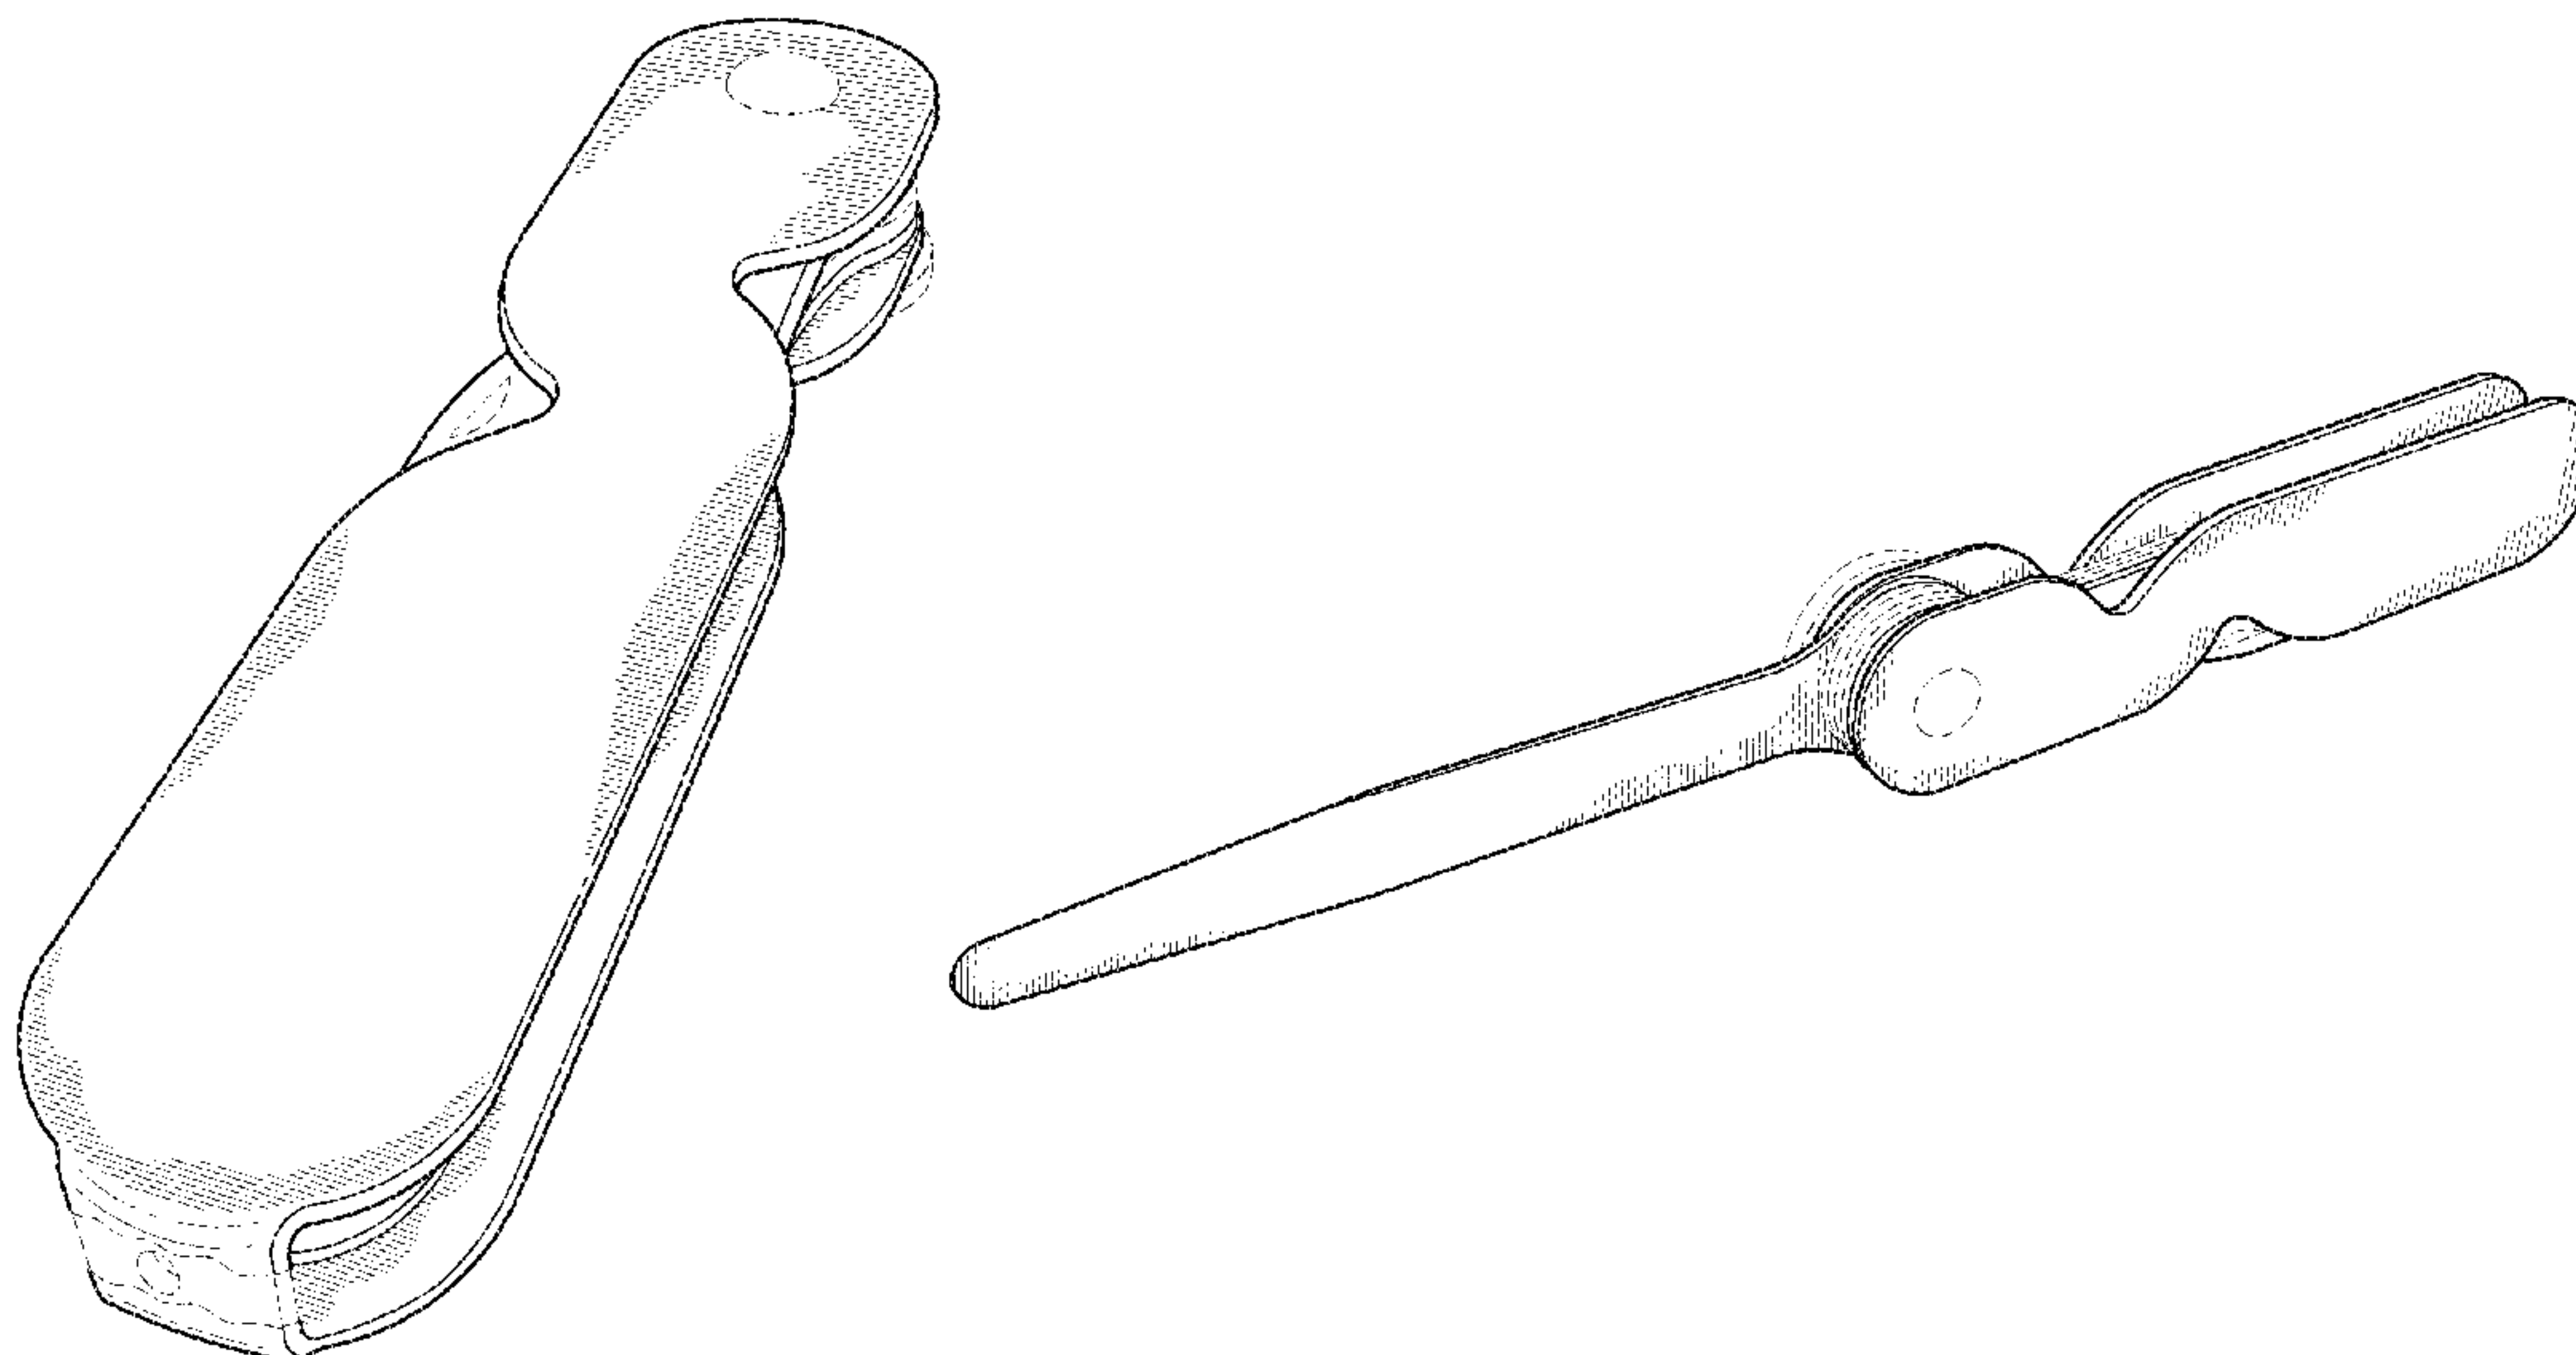

FIG. 11 is a front perspective view of the combination tool for spreading materials of FIG. 1 in another open configuration; and,

FIG. 12 is a front perspective view of the of the combination tool for spreading materials of FIG. 1 in another open configuration.

The invention is a combination tool having variously configured implements for spreading materials.

The broken lines depicting portions of the combination tool for spreading materials are shown for illustrative purposes only and form no part of the claimed design.
