(57) **CLAIM**

The ornamental design for an electric vehicle charging station, as shown and described.

DESCRIPTION

FIG. 1 shows a perspective view of an electric vehicle charging station in a first position;
FIG. 2 shows a front view of the electric vehicle charging station of FIG. 1 in the first position;
FIG. 3 shows a back view of the electric vehicle charging station of FIG. 1 in the first position;
FIG. 4 shows a right view of the electric vehicle charging station of FIG. 1 in the first position;
FIG. 5 shows a left view of the electric vehicle charging station of FIG. 1 in the first position;
FIG. 6 shows a top view of the electric vehicle charging station of FIG. 1 in the first position;
FIG. 7 shows a bottom view of the electric vehicle charging station of FIG. 1 in the first position;
FIG. 8 shows a perspective view of the electric vehicle charging station of FIG. 1 without certain broken lines in the first position;

FIG. 9 shows a front view of the electric vehicle charging station of FIG. 1 without certain broken lines in the first position;

FIG. 10 shows a back view of the electric vehicle charging station of FIG. 1 without certain broken lines in the first position;

FIG. 11 shows a right view of the electric vehicle charging station of FIG. 1 without certain broken lines in the first position;

FIG. 12 shows a left view of the electric vehicle charging station of FIG. 1 without certain broken lines in the first position;

FIG. 13 shows a top view of the electric vehicle charging station of FIG. 1 without certain broken lines in the first position;

FIG. 14 shows a bottom view of the electric vehicle charging station of FIG. 1 without certain broken lines in the first position;

FIG. 15 shows a perspective view of the electric vehicle charging station of FIG. 1 without certain broken lines in a second position;

FIG. 16 shows a right view of the electric vehicle charging station of FIG. 1 without certain broken lines in the second position;

FIG. 17 shows a left view of the electric vehicle charging station of FIG. 1 without certain broken lines in the second position;

FIG. 18 shows a perspective view of the electric vehicle charging station of FIG. 1 without certain broken lines in a third position;

FIG. 19 shows a right view of the electric vehicle charging station of FIG. 1 without certain broken lines in the third position; and,

FIG. 20 shows a left view of the electric vehicle charging station of FIG. 1 without certain broken lines in the third position.

The broken lines illustrate environmental structure and form no part of the claimed design.
