(57) **CLAIM**

The ornamental design for a virtual reality mobile phone, as shown and described.

DESCRIPTION

1. Virtual reality mobile phone

1.1 : Perspective

1.2 : Front

1.3 : Back

1.4 : Left

1.5 : Right

1.6 : Top

1.7 : Bottom

The material of the present design consists of a synthetic resin, glass and metal; the present design relates to a mobile terminal with a display at the front and rear surfaces thereof and a foldable structure that can be extended or shrunk along a front bezel portion thereof depending on the position of the user's face; fig. 1.1 is a view illustrating an entire shape of the present design, fig. 1.2 is a view illustrating a front surface of the present design, fig. 1.3 is a view illustrating a rear surface of the present design, fig. 1.4 is a view illustrating a left-side surface of the present design, fig. 1.5 is a view illustrating a right-side surface of the present design, fig. 1.6 is a view illustrating a flat surface of the present design, and fig. 1.7 is a view illustrating a bottom surface of the present design; the present design is a combination of shape and form of a mobile terminal, as shown and described.
