(57) **CLAIM**

The ornamental design for a display screen of a medical device with animated icon, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen of a medical device with animated icon showing a first image in an animated sequence of the claimed design.

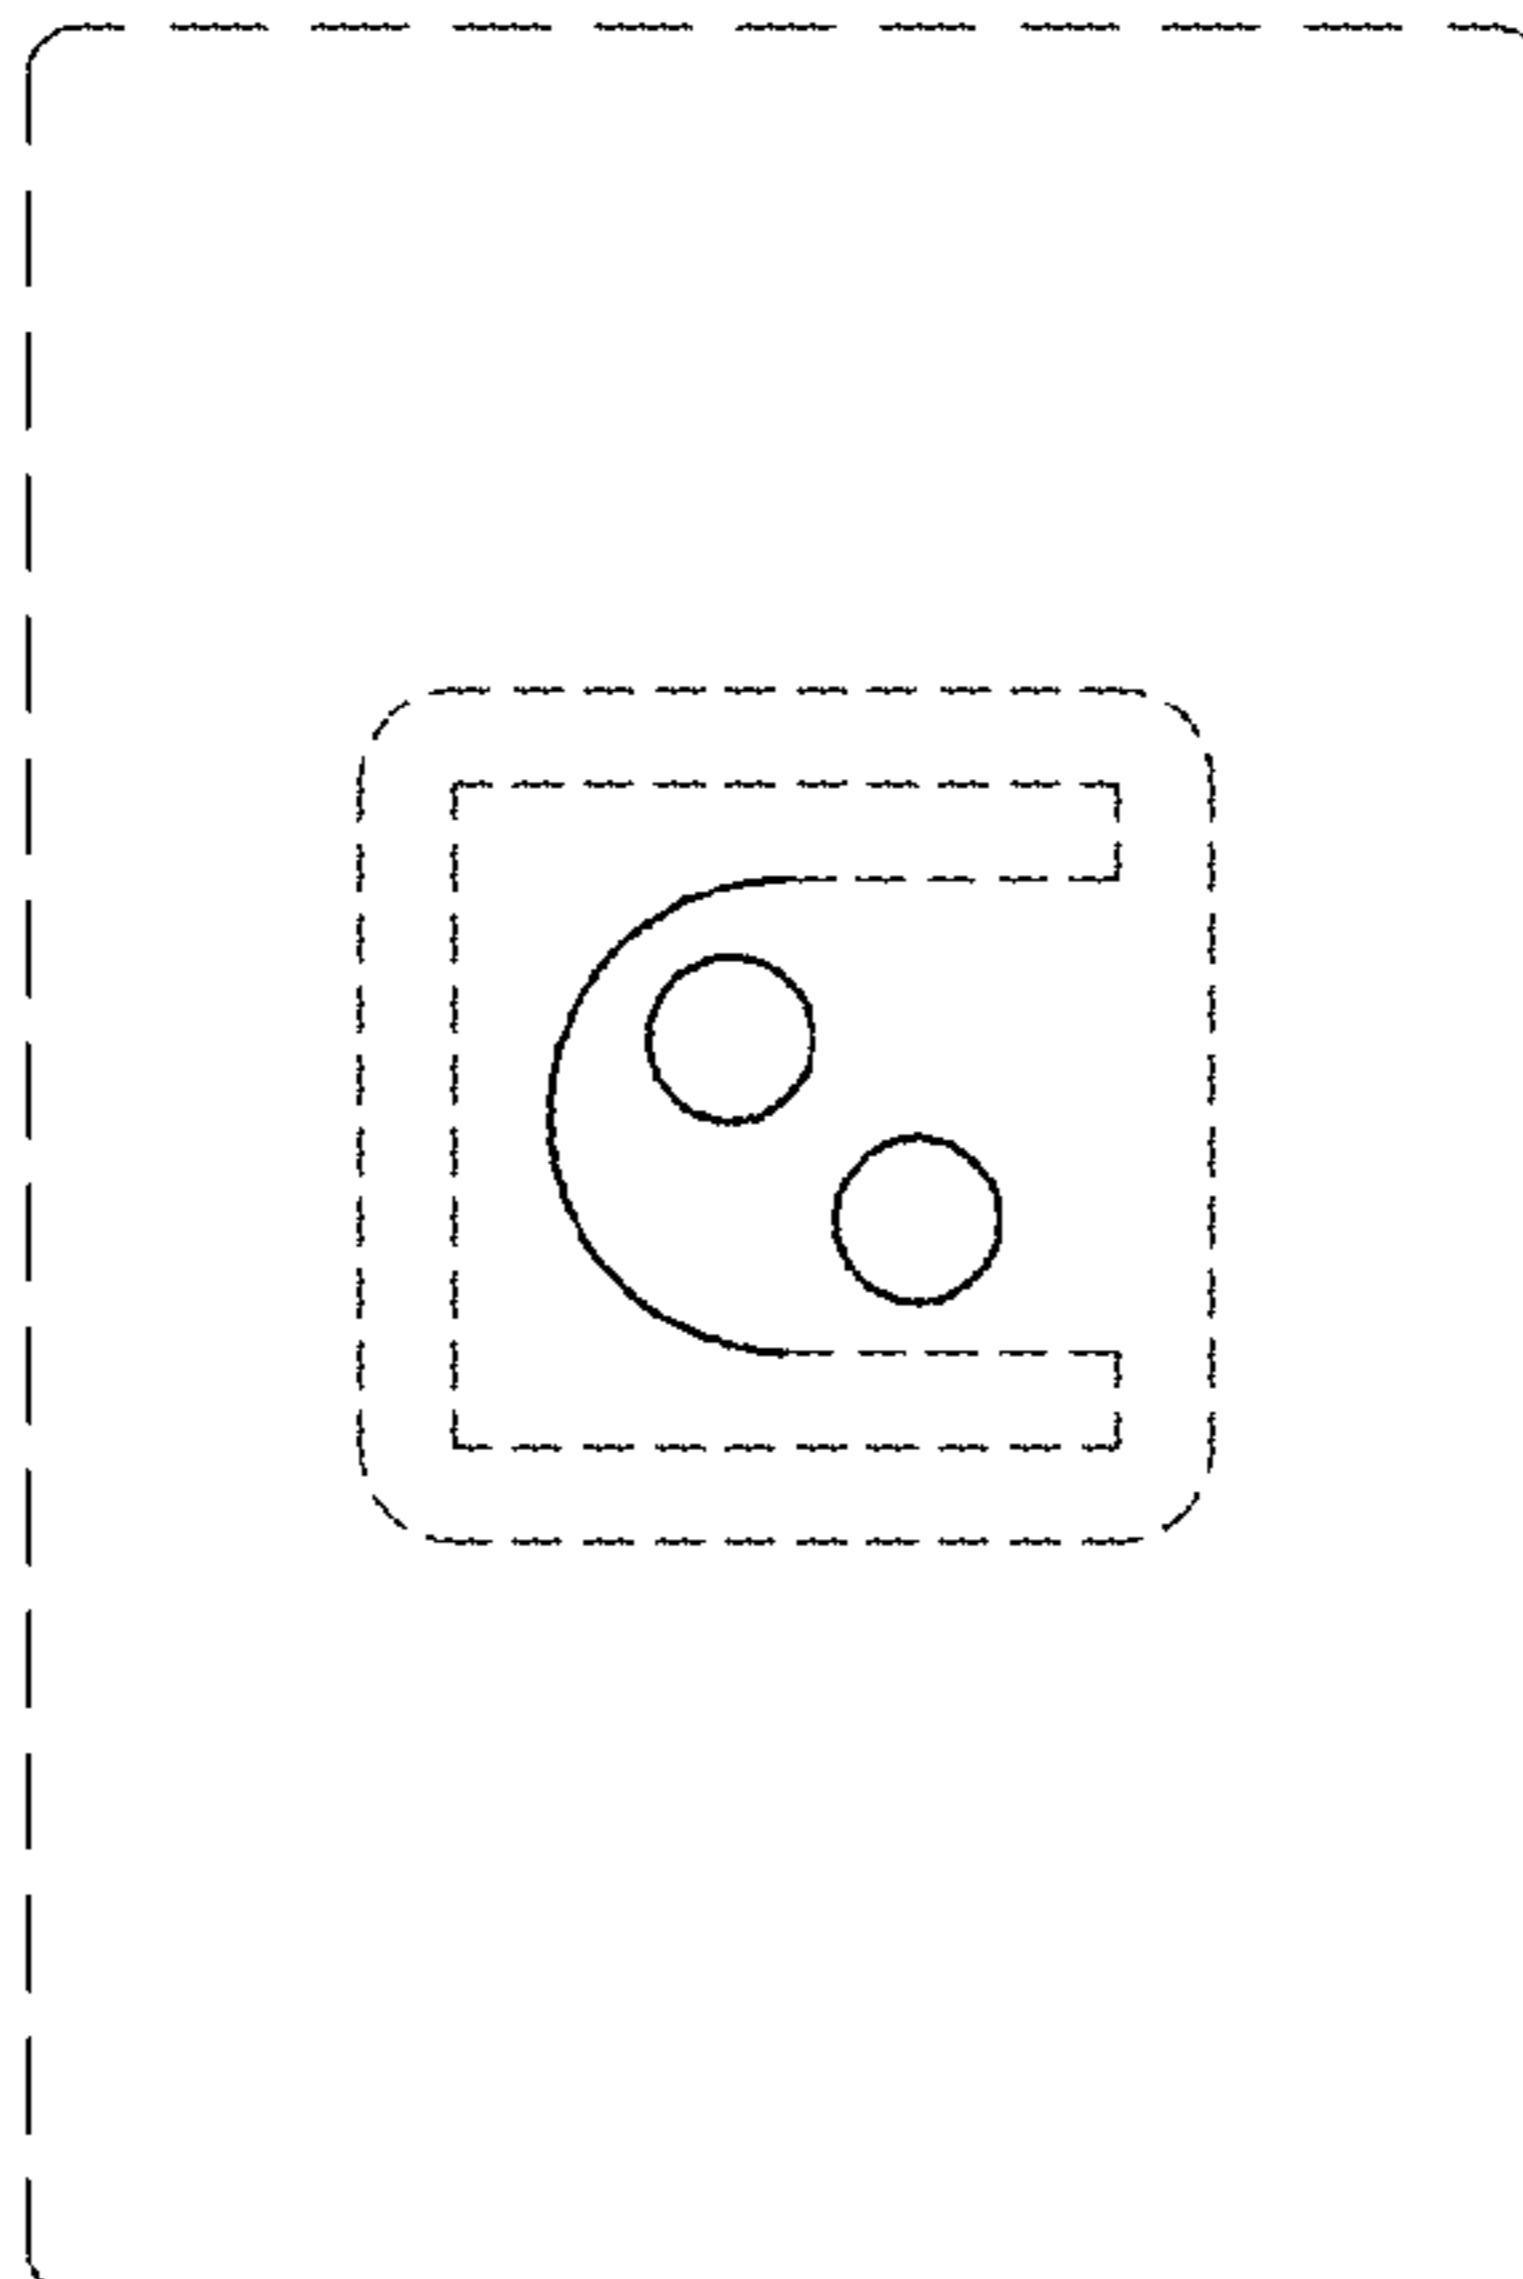

FIG. 2 is a front view of a display screen of a medical device with animated icon showing second image in an animated sequence of the claimed design thereof.

FIG. 3 is a front view of a display screen of a medical device with animated icon showing a third image in an animated sequence of the claimed design thereof; and,

FIG. 4 is a front view of a display screen of a medical device with animated icon showing a fourth image in an animated sequence of the claimed design thereof.

The broken line illustrating the display screen in each figure forms no part of the claimed design. The other broken lines in the figures do not form a part of the claimed design except as otherwise included in any additional claimed designs described and/or illustrated herein.
